

CONFU KF-1800

CONFU Plasma Ionic Professional 1600 Watt Hair Dryer KF-1800 User Manual

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your CONFU Plasma Ionic Professional 1600 Watt Hair Dryer, model KF-1800. Please read these instructions carefully before operating the appliance and retain them for future reference.

The CONFU KF-1800 hair dryer features advanced plasma ionic technology designed to reduce frizz and enhance hair's natural shine. It delivers a powerful 1600-watt airflow for fast drying and includes versatile attachments for various styling needs.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER:** Keep out of reach of children.
- **DANGER:** Do not rinse or submerge the appliance in water or any other liquid.
- **DANGER:** Keep the power plug and cord away from heated surfaces.
- **DANGER:** Do not use the hair dryer while bathing or in a humid bathroom, as the proximity of water presents a hazard even when the hair dryer is switched off.
- This ionic hairdryer is equipped with a built-in automatic shut-off mechanism that guards against overheating for added safety. If the dryer overheats, it will automatically turn off. Unplug the dryer and allow it to cool down before resuming use.
- Always remove any attachments before storing the dryer to prevent damage.
- Ensure the voltage used matches the voltage specified on the appliance (125V~ 60HZ for US models).
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.

3. PRODUCT COMPONENTS

Your CONFU KF-1800 hair dryer comes with the following components:

- CONFU Plasma Ionic Hair Dryer (Main Unit)
- Diffuser Attachment
- Styling Concentrator Attachment
- Smoothing Nozzle Attachment

Figure 3.1: CONFU Plasma Ionic Hair Dryer with its included diffuser and concentrator attachments.

4. SETUP AND ASSEMBLY

To attach a styling concentrator or diffuser:

1. Align the attachment with the air outlet of the hair dryer.
2. Snap the tab on one side of the styling concentrator or diffuser into place on the air outlet.
3. Then, snap the opposite side until it is fully secured and locks firmly in place.

To remove a styling concentrator or diffuser:

- Simply hold the concentrator/diffuser firmly and gently pull straight down to detach it from the air outlet.

Lightweight & Easy to Hold

0.74lb Feather Body **0.31ft** Compact Design

Weighs less than a wineglass(0.74lb) with shortened body

5. OPERATING INSTRUCTIONS

Ensure the hair dryer is plugged into a suitable electrical outlet (125V~ 60HZ).

5.1 Power and Speed Settings

The hair dryer features a power/speed switch and a separate temperature control button.

29m/s Strong Airflow 1600W Professional Fast Drying

Hot/Cold Auto-Cycling protects hair health and seals your style.

Figure 5.1: Control panel with speed and temperature settings.

- **Power/Speed Switch:** Located on the handle, this switch controls the airflow speed.
 - **0:** Off
 - **I:** Low Speed
 - **II:** High Speed

5.2 Temperature Settings

Press the temperature button (usually indicated by a circular icon) to cycle through the heat settings. Indicator lights will show the current selection.

- **Cool (90.5°F):** For setting your style with a cool shot.
- **Warm (130°F):** For gentle drying.
- **Hot (164.3°F):** For fast drying.
- **Auto Cycle:** The dryer can automatically cycle between hot and cool air to help protect hair from heat damage.

5.3 Using Attachments

The CONFU hair dryer includes specialized attachments for different styling needs:

- **Diffuser:** Ideal for enhancing natural curls and waves. It distributes airflow evenly to boost your natural pattern and reduce frizz.

Love Your Curls

CONFU diffuser hairdryer doesn't just dry—it nurtures. Gentle, dispersed airflow enhances your natural texture for defined, frizz-free ringlets.

Figure 5.2: Using the diffuser attachment for curly hair.

- **Styling Concentrator:** Provides precise, targeted airflow for sleek blows, flipped ends, and taming bangs.

Figure 5.3: Using the styling concentrator for precise styling.

- **Smoothing Nozzle:** (Implied from product images) Use for general drying and smoothing hair.

6. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your hair dryer.

- **Cleaning the Air Inlet:** The encrypted air inlet on the back cover helps prevent hair from being sucked in. Periodically check and clean any dust or lint accumulation from the air inlet filter to maintain optimal airflow. Ensure the dryer is unplugged before cleaning.
- **Storage:** Always unplug the appliance after use. Allow the dryer to cool down completely before storing. Remove any attachments before storing. Store in a dry place, away from moisture and direct sunlight. Do not wrap the power cord tightly around the appliance, as this can damage the cord.
- **General Cleaning:** Wipe the exterior of the dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.

7. TROUBLESHOOTING

If you encounter issues with your CONFU hair dryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Dryer does not turn on.	No power supply; ALCI safety plug tripped.	Check if the plug is securely inserted. Press the RESET button on the ALCI safety plug. Check household circuit breaker.
Dryer stops working during use.	Overheating protection activated.	Unplug the dryer and allow it to cool down for several minutes. Clean the air inlet filter if it is blocked.
Weak airflow.	Blocked air inlet filter.	Unplug the dryer and clean the air inlet filter from any dust or lint.
Attachments fall off easily.	Attachments not securely fastened.	Ensure both tabs of the attachment are firmly snapped into place on the air outlet.

If the problem persists after attempting these solutions, please contact CONFU customer support.
