- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight, which can cause warping or fading.
- **Mattress Support:** Ensure bed slats are properly positioned and undamaged. Replace any broken slats immediately.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your bunk bed, refer to the following common solutions:

- **Wobbling or Instability:** Check all bolts and screws. Ensure they are fully tightened. If the issue persists, disassemble and reassemble, paying close attention to alignment.
- **Missing Parts:** If any parts are missing from your package, refer to the contact information in the Support section to request replacements.
- **Drawers Not Sliding Smoothly:** Check the drawer glides for obstructions or misalignment. Ensure the drawers are assembled correctly.
