3. INSTALLATION

3.1. Pre-Installation Check

Before beginning installation, ensure your vehicle's original CD player has the correct power cord port. This

product supports option 'A' based on the CD back of your original car stereo. If your vehicle requires option 'B' or 'C', please contact customer service for appropriate advice.

Stereo Wiring Diagram

Image 3.1: Compatibility check for Honda CRV 2012-2016 models, showing the correct original CD player back panel (Option A).

3.2. Wiring Diagram

Refer to the wiring diagram for proper connection of all components. Ensure all cables are securely connected to their respective ports.

Bluetooth 4.0

Incorporating state-of-the-art Bluetooth 4.0 technology for clear, high-quality stereo sound in music and calls.

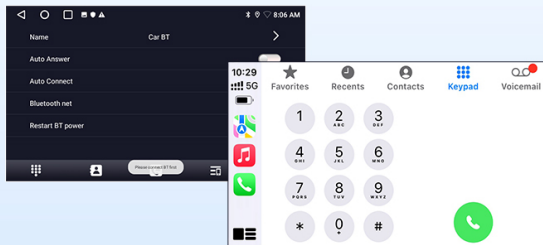

Image 3.2: Stereo wiring diagram for connecting the main unit to vehicle systems and accessories.

3.3. Amplifier Connection Note

If your vehicle's amplifier is not functioning after installation, connect the amplifier cable (AMP-CONT) to the red ACC cable on the power harness. This provides the necessary power signal to activate the amplifier.

5. OPERATING INSTRUCTIONS

5.1. Basic Operation

- **Power On/Off:** Press and hold the power button on the unit or use the vehicle's ignition.
- **Volume Control:** Adjust using the physical buttons on the unit or steering wheel controls.
- **Touchscreen Navigation:** Tap icons to open applications, swipe to navigate menus.
- **Changing UI Themes:** Access settings to select from the 26 available themes.
- **Split Screen Mode:** Activate from the multi-tasking menu to run two apps side-by-side.

5.2. Carplay / Android Auto

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your smartphone. On the car stereo, select the Carplay or Android Auto application. Follow the on-screen prompts to pair your device.
- **Wired Connection:** Connect your smartphone to the car stereo using a USB cable. The system should automatically detect and launch Carplay or Android Auto.

5.3. Mirror Link

- **Connection:** Connect your smartphone via USB or Wi-Fi. Select the Mirror Link application on the car stereo and follow the instructions to cast your phone's screen.

5.4. GPS Navigation

- **Online Maps:** Ensure the stereo is connected to Wi-Fi or a mobile hotspot. Open the navigation app and search for your destination.
- **Offline Maps:** Download map data for your region in advance via a Wi-Fi connection. This allows navigation without an internet connection.

5.5. Wi-Fi and App Downloads

- **Connecting to Wi-Fi:** Go to Settings > Network > Wi-Fi. Select your desired network and enter the password.
- **Downloading Apps:** Once connected to Wi-Fi, open the pre-installed app store (e.g., Google Play Store) to download and install additional applications.

5.6. Bluetooth

- **Pairing:** Enable Bluetooth on your smartphone. On the car stereo, go to Settings > Bluetooth. Search for available devices and select your phone. Confirm the pairing code.
- **Hands-Free Calling:** Once paired, you can make and receive calls directly through the car stereo.
- **Audio Streaming:** Play music from your phone via Bluetooth.

5.7. FM/RDS Radio

- **Scanning for Stations:** Open the FM/RDS Radio app. Use the scan function to automatically find and save available stations.
- **Saving Presets:** Tune to your preferred station and use the save function to store it as a preset.

5.8. Steering Wheel Control (SWC) Setup

- **Configuration:** Go to Settings > Steering Wheel Control. Follow the on-screen instructions to map your vehicle's steering wheel buttons to the stereo's functions.

5.9. Backup Camera Display

- **Automatic Activation:** When the vehicle is shifted into reverse gear, the backup camera display will automatically appear on the screen.

6. TROUBLESHOOTING

- **No Power:** Check all power connections, especially the ACC cable. Ensure the vehicle's ignition is on.
- **No Sound:** Verify speaker connections. Check EQ settings. If an external amplifier is used, ensure it is properly connected and powered (refer to Section 3.3).
- **Carplay/Android Auto Not Connecting:** Ensure Bluetooth and Wi-Fi are enabled on your phone. Try connecting with a different USB cable. Restart both the phone and the car stereo.
- **GPS Signal Issues:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Backup Camera Not Displaying:** Check the camera's power and video input cable connections. Ensure the vehicle is in reverse gear.
- **Steering Wheel Controls Not Working:** Re-enter the SWC learning mode in settings and re-map the buttons. Ensure the Canbus decoder is correctly installed if applicable.

7. SPECIFICATIONS

Feature	Specification
Model Number	A7079A3796A4MI2-60CA
Display Size	9 Inches
Display Resolution	1024x600
Operating System	Android
Memory (RAM + Storage)	2GB RAM + 64GB Storage

Connectivity	Bluetooth 4.0, USB, Wi-Fi
Special Features	Wireless/Wired Carplay, Android Auto, Mirror Link, GPS Navigation, FM/RDS Radio, EQ, SWC, Backup Camera Support
