Beyamis Android Tracker Tags User Manual

Model: YYM-US-0021-CE20697-4-FBA

1. INTRODUCTION

This manual provides detailed instructions for the Beyamis Android Tracker Tags. Please read this manual thoroughly before using the device to ensure proper operation and to maximize its features. These smart tracking devices are designed to help you locate your valuable items using the Google Find My Device network.

2. PRODUCT OVERVIEW

The Beyamis Android Tracker Tags are compact, smart tracking devices compatible with Android 9+ smartphones. They integrate seamlessly with Google's Find My Device app, allowing for real-time item tracking. Each tag features a loud alarm and leverages the extensive Google network for location updates beyond Bluetooth range. Privacy is a core feature, ensuring your location data remains encrypted and accessible only to you.

3. PACKAGE CONTENTS

- 4 x Beyamis Android Tracker Tags
- 6 x CR2032 Batteries (2 pre-installed, 2 extra replacements)
- User Manual (this document)

4. SETUP

Follow these steps to set up your Beyamis Android Tracker Tags:

1. **Download the Google Find My Device App:** Ensure you have the official Google Find My Device app installed on your Android 9+ smartphone. You can download it from the Google Play Store.
2. **Prepare Your Tag:** Each tracker tag comes with a pre-installed CR2032 battery. To activate it, gently remove the insulation tab protruding from the side of the tag. This establishes the battery connection.
3. **Connect/Pair:** Open the Google Find My Device app. The app should automatically detect the activated tag. If not, press the button on the tracker tag to initiate pairing. Follow the on-screen prompts in the app to complete

the connection.

4. **Customize & Save:** Once connected, you can rename your device within the app (e.g., "Keys," "Wallet," "Luggage") and assign an icon for easy identification.

5. OPERATING INSTRUCTIONS

5.1 Locating Items with Sound

When your item is within Bluetooth range (up to 200ft or 60m), you can use the Google Find My Device app to activate a loud alarm on the tracker tag. This alarm, exceeding 100dB, helps you quickly pinpoint the item's location in cluttered environments.

Track with Loud Alarm

Find anything instantly with 100dB tracker alarm

5.2 Cloud-Based Location Tracking

If your item is beyond Bluetooth range, the Google Find My Device network provides location updates. This vast network of Android phones, tablets, and Chrome OS devices anonymously detects your tracker tag's location and updates it in real-time on your app.

Global Sharing Tracker

Real-time location sharing with worldwide coverage

5.3 Privacy Features

Your location data and item history are fully encrypted. Only you have access to this information. There is no third-party access, no shared logs, and no exposure of personal data, ensuring your privacy is maintained.

5.4 Compatibility

These tracker tags are compatible with Android 9+ smartphones using the Google Find My Device app. They are **not compatible** with Apple iOS or Huawei devices.

6. MAINTENANCE

6.1 Battery Replacement

Each tracker tag is powered by a CR2032 coin cell battery, which typically lasts 8-12 months. When the battery is low, the app may notify you. To replace the battery:

1. Carefully open the tracker tag casing.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Close the casing securely.

Two extra replacement CR2032 batteries are included in your package, providing up to 2 years of use.

6.2 Water Resistance

The Beyamis Android Tracker Tags are rated IP67 waterproof, meaning they are protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. Ensure the casing is properly sealed after battery replacement to maintain water resistance.

EASY PAIRING

1 Download
Get the Find My Device app (Google Play)

2 Prepare Your Tag
Remove the insulation tab to activate the battery

3 Connect
Press your tag's button - auto-detects instantly

4 Customize & Save
Name your item, pick an icon, and tap save

7. TROUBLESHOOTING

• Device Not Pairing:

- Ensure the insulation tab has been completely removed from the battery.
- Verify your smartphone is running Android 9 or higher.
- Make sure Bluetooth is enabled on your phone.
- Try pressing the button on the tracker tag to wake it up or initiate pairing.
- Restart your smartphone and try the pairing process again.

• No Sound from Tracker:

- Check if the tracker is within Bluetooth range of your phone.
- Ensure the battery is not depleted. Replace if necessary.
- Verify the volume settings on your phone and within the Google Find My Device app.

• Inaccurate Location:

- Location accuracy can vary based on environmental factors (e.g., thick walls, dense urban areas).
- Ensure your phone has a stable internet connection for cloud-based location updates.
- The Google Find My Device network relies on other Android devices. In areas with fewer Android users, updates might be less frequent.

• Short Battery Life:

- Ensure you are using genuine CR2032 batteries.
- Frequent use of the loud alarm or constant searching may slightly reduce battery life.

8. SPECIFICATIONS

Feature	Detail
Model Number	YYM-US-0021-CE20697-4-FBA
Brand	Beyamis
Dimensions	1.18"L x 1.18"W x 0.2"Th (30 x 30 x 5 mm)
Item Weight	0.529 ounces (15g)
Material	Acrylonitrile Butadiene Styrene (ABS)
Color	Black
Battery Type	CR2032 Lithium Coin Cell
Battery Life	8-12 months (typical)
Water Resistance	IP67
Alarm Volume	100dB+
Bluetooth Range	Up to 200ft (60m)
Compatibility	Android 9+ with Google Find My Device app

9. WARRANTY INFORMATION

Specific warranty details are not provided in this manual. Please refer to the product packaging or the retailer's website for information regarding warranty coverage and terms.

10. SUPPORT

For further assistance or inquiries, please contact Beyamis customer support through the retailer's platform or visit the official Beyamis website. Ensure you have your product model number (YYM-US-0021-CE20697-4-FBA) ready when contacting support.
