Generic LED Outdoor Torch Flashlight User Manual

Model: SQK8PEW7IJHY0ODCP4R

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Generic LED Outdoor Torch Flashlight. Please read this manual thoroughly before operating the device and retain it for future reference.

The Generic LED Outdoor Torch Flashlight is a compact, rechargeable lighting device designed for various outdoor and indoor applications. It features a high-brightness LED, a Type-C charging interface, and a durable construction.

2. SAFETY INFORMATION

Important Safety Warnings:

- **Do not look directly at the light source when the light is on.** The high-intensity LED can cause temporary vision impairment or eye damage.
- This product does **not have a waterproof function**. Avoid exposure to water or moisture to prevent damage.
- The head of the flashlight may heat up during prolonged use. This is a normal phenomenon.
- When plugging or unplugging the flashlight from a power source, handle it gently. **Do not shake it vigorously** to prevent damage to the charging port.
- Keep out of reach of children.
- Do not attempt to disassemble or modify the device. This will void the warranty and may cause damage or injury.

- Do not look directly at the light source when the light is on
- No waterproof function, beware of water ingress
- The head of the flashlight will heat up when lit is normal phenomenon
- Do not shake it vigorously when plugging or unplugging to prevent damage to the charging port.

Can be connected through the Type-C port
any Type-C power supply for charging it

3.2 Features

- **Integrated Type-C Charging:** Direct plug-in charging without external cables.
- **High-Brightness LED:** Provides strong illumination for various environments.
- **Compact and Portable:** Small size and keychain compatibility for easy transport.
- **Versatile Use:** Suitable for camping, hiking, emergency preparedness, and general illumination.

4. SETUP

The Generic LED Outdoor Torch Flashlight is designed for immediate use. No complex setup is required.

1. **Initial Charge:** It is recommended to fully charge the flashlight before its first use to ensure optimal battery performance. Refer to Section 6 for charging instructions.
2. **Attachment (Optional):** If desired, attach the flashlight to a keychain or lanyard using the integrated loop for convenient carrying.

5. OPERATING INSTRUCTIONS

To operate the flashlight:

1. **Turn On:** Press the power button located on the side of the flashlight.
2. **Turn Off:** Press the power button again to turn off the flashlight.

The flashlight may offer a single brightness mode or multiple modes. Repeatedly pressing the power button may cycle through available modes if applicable. Refer to product packaging for specific mode details if not covered here.

6. CHARGING

The flashlight features an integrated Type-C male connector for convenient charging.

1. **Connect to Power:** Insert the Type-C connector of the flashlight directly into any compatible Type-C power source. This can include smartphones, wall adapters, power banks, or laptops.
2. **Charging Indicator:** Observe any indicator lights on the flashlight (if present) to determine charging status.
3. **Charging Time:** Charging time may vary depending on the power source and the battery's current charge level.

4. **Disconnect:** Once fully charged, gently remove the flashlight from the power source.

7. MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For optimal battery life, avoid fully discharging the battery frequently. Recharge when the light output diminishes.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight using a compatible Type-C power source.
Light output is dim.	Low battery level.	Recharge the flashlight.

Problem	Possible Cause	Solution
Flashlight does not charge.	Incorrect power source. Damaged Type-C port. Faulty charging cable/adapter.	Ensure the power source is compatible (Type-C). Inspect the flashlight's Type-C port for damage. Try a different Type-C power source or adapter.
Flashlight gets hot during use.	Normal operation for high-brightness LEDs.	This is expected. If it becomes excessively hot or emits smoke, discontinue use immediately.

9. SPECIFICATIONS

Brand	Generic
Model Number	SQK8PEW7IJHY0ODCP4R
Light Source Type	LED
Material	Aluminum, Polycarbonate
Color	Blue (as per current variant)
Product Dimensions	1.34"D x 0.63"W x 1.34"H
Item Weight	13 pounds (<i>Note: This weight appears unusually high for a pocket flashlight and may be a data entry error. Please verify actual product weight.</i>)
Charging Interface	Integrated Type-C Male Connector
Water Resistance	None (Not waterproof)
