MAINTENANCE

General Care

- **Cleaning:** Use a soft, lint-free cloth to clean the display and exterior surfaces. Avoid harsh chemicals. For the display, use a screen-specific cleaner.
- **Ventilation:** Ensure that the laptop's ventilation openings are not obstructed to prevent overheating.
- **Handling:** Avoid dropping or subjecting the laptop to strong impacts. Close the lid gently.

Battery Care

- To prolong battery life, avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place if not used for extended periods.
- Use only the original Dell power adapter and charger.

Software Updates

Regularly check for and install updates for Windows 11 Home, device drivers (especially graphics drivers), and Alienware software to ensure optimal performance and security.

TROUBLESHOOTING

This section addresses common issues you might encounter. For more detailed troubleshooting, refer to Dell's official support resources.

Problem	Possible Solution
Laptop does not power on.	Ensure the power adapter is securely connected to both the laptop and a working electrical outlet. Check the power button for damage.
Display is blank or black.	Press the power button to ensure the laptop is on. Try connecting an external monitor to check if the issue is with the laptop's display. Adjust brightness settings.
Wi-Fi connection issues.	Verify Wi-Fi is enabled in Windows settings. Restart your router and the laptop. Ensure drivers are up to date.
System performance is slow.	Close unnecessary applications. Check for background processes consuming high resources. Ensure sufficient free storage space. Run a system scan for malware.
