## 5. OPERATING THE SHED

Your Domi storage shed is designed for convenient and secure storage of various outdoor items.

### Storage Capacity

The shed's generous interior can accommodate items such as lawn mowers, bicycles, patio furniture, and gardening tools. Organize items efficiently to maximize space and ensure easy access.

Image 5.1: Example of items stored inside the shed, demonstrating its storage capacity.

## Door Operation and Locking

- The shed features double doors for wide access. Ensure doors are properly aligned and close smoothly.
- Utilize the built-in bolt and secure door lock to protect your stored items. Always ensure the doors are fully closed and locked when the shed is unattended.

## Ventilation

The integrated vents promote airflow, reducing moisture buildup and maintaining a fresh interior environment. Ensure vents are not blocked by stored items.

## 6. MAINTENANCE

---

Regular maintenance will extend the lifespan and appearance of your Domi storage shed.

### Cleaning

- Clean the exterior surfaces with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the resin panels.
- Rinse thoroughly with water.
- Periodically clear the roof of leaves, snow, or other debris to maintain proper water runoff.

### Inspection

- Regularly inspect the shed for any signs of damage, loose fasteners, or wear.
- Check door hinges and locking mechanisms for smooth operation. Lubricate if necessary.
- Ensure the shed remains securely anchored to its foundation.

## 7. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your storage shed.

### Water Leakage

- **Check Roof Seals:** Ensure all roof panels are properly seated and sealed according to assembly instructions.
- **Inspect Foundation:** Verify that the shed is on a level surface and water is not pooling around the base.
- **Clear Gutters/Roof:** Remove any debris that might be obstructing water flow from the sloped roof.

### Door Sticking or Misalignment

- **Adjust Hinges:** If doors are misaligned, check the hinge connections and adjust as needed.
- **Clear Obstructions:** Ensure no debris or items are blocking the door's path.
- **Level Base:** An uneven foundation can cause door issues. Verify the shed's base is level.

### Poor Ventilation/Odor

- **Clear Vents:** Ensure the integrated vents are not obstructed by stored items or external debris.
- **Air Circulation:** Periodically open the doors for a short period to allow for additional air exchange.
