## TROUBLESHOOTING

---

If you encounter any issues with your sofa, refer to the following common solutions:

- **Sofa Not Fully Expanded:** The sofa requires up to 72 hours to fully decompress after unpacking. Ensure it has had sufficient time to expand. Gentle patting or light use can sometimes aid in the expansion process.
- **Cushions Seem Flat:** During the expansion period, cushions will gradually regain their loft and firmness. Allow the full 72 hours. Regularly fluffing the throw pillows can help maintain their shape.
- **Sofa Shifting on Floor:** The sofa features an anti-slip bottom. Ensure the sofa is placed directly on the floor without any intervening materials that might reduce friction.
