3.1 Key Features

- **1000-nit Sunlight Readable Display:** The 10.1-inch display offers high brightness for clear visibility in direct sunlight.
- **Wi-Fi 6 Connectivity:** Supports faster and more stable wireless network connections with data transfer rates up to 1800Mbps.
- **Windows 11 Pro:** Equipped with the latest Windows operating system for professional needs.
- **Intel Alder Lake N100 Processor:** Provides enhanced computing power and efficient multitasking.
- **8GB RAM + 128GB ROM:** Sufficient memory and storage for multiple applications and data.
- **IP65 Rating & MIL-STD-810H Certified:** Designed for durability, offering dust-tight and water-resistant protection, and tested against military standards for extreme conditions.
- **5000mAh Removable Battery:** Provides up to 6.5 hours of battery life, with a removable design for easy replacement.
- **Integrated GPS:** For navigation and location-based services.

4. SETUP AND INITIAL USE

4.1 Attaching the Hand-Strap

The included hand-strap can be attached to the back of the tablet for secure handling, especially during mobile use.

Your browser does not support the video tag.

Video 4.1: Demonstration of attaching the hand-strap to the MUNBYN IRT12 tablet for improved grip and security.

4.2 Battery Installation

The IRT12 tablet features a removable 5000mAh battery. To install or replace the battery:

1. Locate the battery cover on the back of the tablet.
2. Unlock the battery cover using the designated latch or screws (if applicable).
3. Insert the battery into the compartment, ensuring proper alignment of the contacts.
4. Secure the battery cover.

4.3 SIM Card Installation

If you intend to use cellular data, install a Nano SIM card:

1. Locate the SIM card slot, typically under the battery cover or a protective flap.
2. Insert the Nano SIM card into the slot labeled "NANO SIM." Do not use the slot marked "NC."
3. Ensure the SIM card is fully seated.

4.4 Powering On/Off

To power on the tablet, press and hold the power button until the MUNBYN logo appears. To power off, press and hold the power button, then select 'Shut down' from the on-screen options.

5. OPERATING THE TABLET

5.1 Display and Brightness

The 10.1-inch display is designed for readability in various lighting conditions, including direct sunlight, with a brightness of over 1000 nits.

Figure 5.1: The tablet's screen remains clear and readable even in bright outdoor conditions.

5.2 Fingerprint Unlocking

For enhanced security and quick access, the tablet supports fingerprint unlocking.

Figure 5.2: Using the fingerprint reader for secure tablet access.

5.3 Wireless Connectivity (Wi-Fi 6 & Bluetooth 5.2)

The IRT12 supports Wi-Fi 6 for high-speed internet access and Bluetooth 5.2 for connecting wireless peripherals.

Figure 5.3: The tablet's advanced wireless capabilities.

5.4 GPS Functionality

The integrated GPS allows for accurate location tracking and navigation, useful for field operations.

6. DURABILITY AND PROTECTION

The MUNBYN IRT12 is built to withstand harsh conditions, featuring an IP65 rating and MIL-STD-810H military standard certification.

Figure 6.1: The tablet's robust construction allows it to operate in challenging environments.

7. Maintenance

To ensure the longevity and optimal performance of your MUNBYN IRT12 tablet, follow these maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth to clean the screen and exterior. Avoid harsh chemicals or abrasive materials.
- **Port Protection:** Ensure all port covers are securely closed when not in use to maintain the IP65 rating against dust and water ingress.
- **Battery Care:** Avoid extreme temperatures when charging or storing the battery. If the tablet will not be used for an extended period, store it with a partial charge (around 50%).
- **Software Updates:** Regularly check for and install Windows updates to ensure system stability and security.

8. Troubleshooting

If you encounter issues with your tablet, refer to the following common troubleshooting steps:

- **Tablet not powering on:** Ensure the battery is properly installed and charged. Connect the tablet to the AC adapter and try again.
- **Screen not responding:** Perform a soft reset by holding the power button for 10-15 seconds. If the issue persists, ensure the screen is clean and dry.
- **Wi-Fi connectivity issues:** Check if Wi-Fi is enabled in Windows settings. Restart the tablet and your Wi-Fi router. Ensure you are within range of a Wi-Fi signal.
- **Slow performance:** Close unnecessary applications. Check for available storage space and free up space if needed. Ensure Windows is up to date.
- **SIM card not detected:** Verify the SIM card is correctly inserted into the "NANO SIM" slot. Restart the tablet.

For further assistance, please contact MUNBYN customer support.

9. SPECIFICATIONS
