Maintenance

Fabric Care (Velvet)

- **Regular Cleaning:** Vacuum the velvet fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can damage the pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product. Test on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position the sofa bed away from direct sun or use curtains/blinds.
- **Fluff Cushions:** Regularly fluff and rotate cushions to maintain their shape and even out wear.

Frame and Mechanism Care

- **Check Fasteners:** Periodically check all bolts and screws to ensure they are tight. Retighten if necessary.
- **Lubrication:** If the pull-out mechanism becomes stiff, apply a silicone-based lubricant to moving parts as needed.
- **Clean Frame:** Wipe the metal and wood frame components with a damp cloth to remove dust. Avoid harsh chemicals.

Troubleshooting

If you encounter any issues with your Mjkone sofa bed, please refer to the following common solutions:

- **Difficulty Converting:** Ensure no obstructions are blocking the mechanism. Check that all parts are aligned correctly. If the mechanism feels stiff, try lubricating the moving joints.
- **Squeaking Noises:** Squeaking can often be resolved by tightening loose bolts or applying lubricant to the bed frame's pivot points.
- **Cushions Not Fully Expanded:** Foam cushions may require up to 24 hours to fully regain their elasticity after unpacking. Gently fluff and knead them to aid expansion.
- **Uneven Legs:** Check if the sofa bed is on a level surface. If not, adjust the position or use furniture pads to stabilize.

If problems persist, please contact Mjkone customer support for further assistance.
