3. Components and Detailed Features

3.1 Dimensions and Assembly

The MYNTA MC1650 massage chair comes fully assembled. Please ensure you have adequate space for delivery and placement. The recommended height range for users is 4.9ft to 6.5ft, with a maximum load weight of 300lbs.

3.2 Flexible SL-Track System

The advanced flexible SL-Track design allows the massage rollers to follow the natural curve of your spine from the neck down to the glutes. Unlike traditional tracks, this flexible system adapts to every reclining position up to 170 degrees, maintaining constant contact with

your back for a thorough massage.

3.3 3D Massage Rollers

The chair incorporates high-tech 3D rollers that provide a deeper and more realistic massage experience. These rollers can move in and out, simulating the feel of human hands for a more effective massage.

3.4 Zero Gravity Positioning

The MC1650 offers three stages of Zero Gravity recline, designed to elevate your legs above your heart. This position minimizes the gravitational pressure on your spine, promoting deeper relaxation and enhancing the effectiveness of the massage.

3.5 Full Body Airbag Compression

Strategically placed airbags provide compression massage to various body parts, including shoulders, arms, calves, and feet. The intensity of the airbag massage can be adjusted to five levels to suit individual preferences.

4. Setup and Placement

4.1 Unpacking and Positioning

The MYNTA MC1650 massage chair is delivered fully assembled. Carefully remove all packaging materials. Ensure you have sufficient space for the chair, considering its dimensions and recline capabilities. The chair requires minimal clearance from walls when reclining due to its space-saving design.

4.2 Power Connection

Locate the power cord at the back of the chair. Plug it securely into a grounded electrical outlet. Ensure the power switch on the chair is in the 'OFF' position before plugging it in.

5. Operation Guide

The MYNTA MC1650 offers intuitive controls through a digital panel and a convenient shortcut knob.

Image: The two control methods for the MYNTA MC1650 massage chair: a large digital panel for detailed customization and a smooth shortcut knob for quick adjustments.

5.1 Powering On/Off

- To power on, press the power button on the shortcut knob or the digital panel.
- To power off, press and hold the power button until the chair returns to its upright position and shuts down.

5.2 Auto Body Scan

Upon starting a massage program, the chair will perform an auto body scan to detect your shoulder height and body contours. This ensures the massage rollers are accurately positioned for a personalized massage.

5.3 Using the Digital Control Panel

The digital panel provides comprehensive control over all massage functions. Navigate through the menu to select programs, adjust settings, and monitor your massage session.

5.4 Using the Shortcut Knob

The shortcut knob offers quick access to essential functions, including power, recline adjustments, and activating auto programs.

5.5 Auto Programs and Massage Techniques

The chair features 8 pre-programmed auto modes and 6 distinct massage techniques. These programs are designed to address various relaxation and recovery needs.

6. Maintenance and Care

6.1 Cleaning

- Wipe the chair's surface with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- For fabric areas, use a mild upholstery cleaner if necessary, testing on an inconspicuous area first.
- Ensure the chair is unplugged before cleaning.

6.2 Storage

When not in use, store the chair in a cool, dry place away from direct sunlight and extreme temperatures.

7. Troubleshooting
