## 6. OPERATING INSTRUCTIONS

Using your WLIVE dresser is straightforward:

- **Opening/Closing Drawers:** Gently pull the Roman metal handles to open drawers. Push them back in until they are fully closed. The smooth metal slides ensure effortless operation.
- **Loading Drawers:** Distribute items evenly within each drawer. While the dresser is sturdy, avoid overloading individual drawers to prevent strain on the slides and maintain the dresser's longevity.
- **Top Surface:** The thick tabletop can support decorative items, lamps, or other personal belongings. Ensure items placed on top do not exceed the dresser's stability limits.

## 7. MAINTENANCE

Proper care will help maintain the appearance and functionality of your dresser:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals, abrasive cleaners, or polishes that may damage the finish. Dry immediately with a clean cloth.
- **Spills:** Clean spills immediately to prevent staining or damage to the engineered wood.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration.
- **Humidity:** Maintain a stable humidity level in the room to prevent warping or cracking of the wood.
- **Hardware:** Periodically check and tighten all screws and hardware to ensure the dresser remains stable.

## 8. TROUBLESHOOTING

If you encounter any issues with your dresser, consider the following common solutions:

- **Drawers Not Sliding Smoothly:**
  - Ensure the drawer slides are properly aligned and free of obstructions.
  - Check that all screws securing the slides are tight.
  - Verify that the drawer is not overloaded or unevenly weighted.
- **Dresser Wobbles:**
  - Confirm the dresser is on a level surface. Adjust if necessary.
  - Check that all assembly hardware is securely tightened.
