5.2 RGB LED Lights

The integrated RGB LED lights can be controlled via a mobile application or the included remote control. They offer various modes and customization options:

- **Color Selection:** Choose from over 60,000 colors.
- **Dynamic Modes:** Pre-set lighting patterns.
- **Music Sync:** Lights can sync with music beats.

- **Mic Mode:** Lights respond to sound picked up by the microphone.
- **Timing Mode:** Set schedules for lights to turn on/off.
- **Brightness Adjustment:** Adjust light intensity to your preference.

Refer to the separate LED light instruction manual for detailed pairing and operation of the app and remote control.

5.3 Built-in Charging Station

The headboard includes a charging station with multiple ports for your electronic devices:

- **2 AC Power Outlets:** 125V/12A for standard electrical devices.
- **1 USB Port:** 5V/2.1A for charging smartphones and other USB-powered devices.
- **1 Type-C Port:** 5V/2.1A for charging modern devices with Type-C connectivity.
- **Power Cord:** A 6.6-foot power cord is provided to connect the charging station to a wall outlet.

Ensure the power cord is securely plugged into a functional wall outlet before using the charging ports. Do not overload the outlets.

6. MAINTENANCE

6.1 Cleaning the Bed Frame

- **Upholstery:** For the velvet fabric, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first.
- **Metal/Wood Parts:** Wipe with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Acrylic Windows:** Clean with a soft cloth and a non-abrasive cleaner suitable for acrylic.

6.2 Electrical Components Care

- **LED Lights:** The LED strips are generally maintenance-free. If dust accumulates, gently wipe with a dry, soft cloth.
- **Charging Station:** Keep the ports free of dust and debris. Do not insert foreign objects into the ports. Unplug the unit from the wall outlet before cleaning.

6.3 General Care

- Periodically check all bolts and screws to ensure they are tight. Re-tighten if necessary.
- Avoid exposing the bed frame to direct sunlight or extreme temperatures to prevent material degradation.

7. TROUBLESHOOTING

7.1 Assembly Difficulties

- **Missing Parts:** Double-check all packaging and the parts list in the assembly manual. If parts are genuinely missing, contact customer service.
- **Misaligned Holes:** Ensure all pieces are oriented correctly according to the diagrams. Sometimes, loosening adjacent screws slightly can help align holes.
- **Difficulty Tightening Screws:** Do not overtighten. If a screw won't go in, check for cross-threading or ensure the correct screw is being used for that hole.

7.2 LED Lights Not Working

- **No Power:** Ensure the LED light power cable is securely connected to both the light strip and the power source.
- **Remote/App Not Responding:** Check the remote control battery. For app control, ensure Bluetooth is enabled on your device and the app is correctly paired with the lights.
- **Partial Lighting:** Check for any kinks or damage to the LED strip.

7.3 Charging Station Not Functioning

- **No Power:** Ensure the charging station's power cord is firmly plugged into a working wall outlet. Test the outlet with another device.
- **Device Not Charging:** Try a different cable or device to rule out issues with your charging cable or device. Ensure the device is compatible with the port (e.g., USB-A vs. USB-C).
- **Overload:** If multiple high-power devices are connected, the station might temporarily shut down. Unplug some devices and try again.

7.4 Bed Frame Noise

- **Squeaking:** Re-tighten all bolts and screws. Ensure the mattress is properly seated on the slats. The bed frame is designed with silent strips to minimize noise.
