4D Build Pokémon Eevee 3D Puzzle Model Kit Instruction Manual

Model: 6076358

1. INTRODUCTION

Thank you for choosing the 4D Build Pokémon Eevee 3D Puzzle Model Kit. This kit allows you to construct a detailed, collectible 3D model of Eevee, a beloved Pokémon character. Designed for enthusiasts aged 12 and up, this puzzle enhances concentration, logic, and fine motor skills. Once assembled, the model serves as an excellent decorative piece for any desk, room, or display cabinet.

2. SAFETY INFORMATION

- **Age Recommendation:** This product is recommended for ages 12 years and older.
- **Small Parts:** The kit contains small parts which may pose a choking hazard for young children. Keep all components out of reach of children under 3 years old.
- **Material:** The puzzle pieces are made of cardboard. Avoid exposure to water or excessive humidity to prevent damage.
- **Sharp Edges:** Some pieces may have slightly sharp edges. Handle with care during assembly.

3. PACKAGE CONTENTS

Your 4D Build Pokémon Eevee 3D Puzzle Model Kit includes the following components:

- Multiple sheets of pre-cut cardboard puzzle pieces (238 pieces total).
- Instruction manual (this document).

4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your 4D Build Pokémon Eevee model:

1. **Preparation:** Unpack all components from the box. Lay out the sheets of puzzle pieces on a clean, flat surface. Familiarize yourself with the different sheets and the numbering/lettering system, if any, on the pieces.
2. **Identify Pieces:** Each piece is typically numbered or coded. Refer to the visual instructions provided on the puzzle sheets or a separate diagram (if included) to identify the order of assembly.
3. **Punch Out Pieces:** Carefully punch out the individual puzzle pieces from their cardboard sheets. Use caution to avoid tearing or bending the pieces.
4. **Assemble Base (if applicable):** Some models include a base. Assemble the base first, if instructed, as it will provide a stable foundation for the main figure.
5. **Connect Pieces:** Begin connecting the pieces according to the numerical or alphabetical sequence, or by

following the visual guide. Pieces are designed to interlock. Apply gentle pressure to ensure a secure fit. Do not force pieces together, as this may cause damage.

6. **Build Sections:** The model is often built in sections (e.g., head, body, limbs, tail). Assemble these sections individually and then connect them to form the complete figure.
7. **Final Touches:** Once all pieces are connected, ensure all joints are secure. The completed model should be stable and stand upright on its base.

Image 4.2: Hands carefully connecting pieces of the Eevee model, illustrating the assembly process.

5. OPERATING (DISPLAY)

Once your 4D Build Pokémon Eevee model is fully assembled, it is ready for display. Place the model on a flat, stable surface where it will not be easily knocked over. The model is designed to be a decorative item and is not intended for rough play.

6. MAINTENANCE

To ensure the longevity of your 4D Build Pokémon Eevee model, follow these maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Do not use water, cleaning solutions, or abrasive materials, as these can damage the cardboard.
- **Storage:** If you need to store the model, place it in a sturdy box to protect it from dust and physical damage. Avoid storing in areas with high humidity or extreme temperature fluctuations.
- **Handling:** Handle the model carefully, especially when moving it, to prevent pieces from detaching or bending.

7. TROUBLESHOOTING

Here are some common issues and their solutions during assembly:

- **Pieces not fitting:** Ensure you are using the correct pieces for the current step. Double-check the numbering or visual guide. Do not force pieces; they should interlock smoothly.
- **Pieces tearing during punch-out:** Punch out pieces slowly and carefully. If a piece tears slightly, a small

amount of craft glue can be used to repair it once fully assembled, ensuring it does not interfere with interlocking.

- **Model is unstable:** Re-check all connections to ensure pieces are fully interlocked. Ensure the base is correctly assembled and placed on a flat surface.
- **Missing pieces:** Carefully check all packaging and surrounding areas. If a piece is genuinely missing, contact customer support (see Section 9).

8. SPECIFICATIONS

Brand	4D Build
Model Number	6076358
Puzzle Type	3D Puzzle
Minimum Age (Manufacturer)	12 years (144 months)
Number of Pieces	238
Product Dimensions (L x W x H)	21.6 x 4.1 x 0.3 cm (8.5 x 1.6 x 0.1 inches)
Material	Cardboard
Educational Objective	Imaginative play, storytelling, problem-solving, social skills, cognitive skills, creative expression
Difficulty Level	Advanced
Assembly Required	Yes
UPC	681147120938
