ubbo Z18

ubbo Z18 Dehumidifier for Home

Instruction Manual

INTRODUCTION

Thank you for choosing the ubbo Z18 Dehumidifier. This manual provides essential information for the safe and efficient operation of your new appliance. Please read it thoroughly before use and retain it for future reference.

The ubbo Z18 Dehumidifier is designed to reduce excess moisture in small spaces, improving air quality and preventing issues like mold and mildew. It features dual semiconductor condensers for efficient dehumidification, a large water tank, and user-friendly controls.

SAFETY INSTRUCTIONS

- Always place the dehumidifier on a stable, level surface.
- Ensure adequate air circulation around the unit. Do not block air inlets or outlets.
- Do not operate the unit with a damaged power cord or plug.
- Keep out of reach of children and pets.
- Do not immerse the unit in water or other liquids.
- Unplug the unit before cleaning or maintenance.
- Use only the provided power adapter.

PRODUCT OVERVIEW

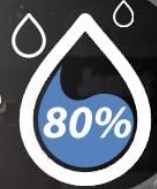

Familiarize yourself with the components of your ubbo Z18 Dehumidifier.

Say Goodbye To Humidity

SETUP

1. **Unpacking:** Carefully remove the dehumidifier from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the unit on a firm, level surface in the desired location. Ensure there is at least 8 inches (20 cm) of space around the air inlets and outlets for optimal performance. The unit is suitable for spaces up to 850 sq.ft.

3. **Power Connection:** Plug the power adapter into the dehumidifier's power port, then plug the adapter into a suitable electrical outlet.
4. **Drainage Setup (Choose one method):**
 - **Manual Drainage (Water Tank):** The dehumidifier will collect water in its internal 95oz (approx. 2.8L) water tank. When the tank is full, the unit will automatically shut off and an indicator light will illuminate. Remove the tank, empty the water, and reinsert it to resume operation.

Figure 4: Removing the water tank for manual drainage.

- **Continuous Drainage (Drain Hose):** For continuous operation without needing to empty the tank, attach the provided drain hose to the continuous drain port at the back of the unit. Route the hose to a suitable drain (e.g., floor drain, sink). Ensure the hose is sloped downwards to allow gravity drainage.

Aromatherapy and Filter

Figure 5: ubbo Z18 Dehumidifier set up for continuous drainage with the included hose.

OPERATING INSTRUCTIONS

The control panel is located on the front of the unit.

24H Timer & Auto Shut Off

Auto shut off when the set time is reached or the water is full

Figure 6: Control panel of the ubbo Z18 Dehumidifier.

1. **Power On/Off:** Press the **On/Off** button to turn the unit on or off.
2. **Light Function:** Press the **Light** button to cycle through the colorful atmosphere lights or turn them off. This feature can also function as a night light.
3. **Sleep Mode:** Press the **Sleep** button to activate sleep mode. In this mode, the unit operates at a lower fan speed for quieter operation (approx. 30dB) and the display lights dim.
4. **Timer Setting:** Press the **Timer** button to set the operating duration. Available settings are 8 hours, 16 hours, or 24

hours. The unit will automatically shut off once the set time has elapsed.

5. **Aromatherapy Box:** The unit includes an aromatherapy box. Add a few drops of essential oil to the aromatherapy box to diffuse a pleasant scent while the dehumidifier operates.

Figure 7: Location of the aromatherapy box and air filter.

6. **Ionizer System:** The dehumidifier is equipped with an ionizer system to help improve air quality. This function operates automatically when the unit is on.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your dehumidifier.

1. **Emptying the Water Tank:** If using manual drainage, empty the water tank when the full indicator light illuminates. Pull out the tank, discard the collected water, and slide the tank back into place until it clicks securely.
2. **Cleaning the Air Filter:** The dehumidifier features washable air filters.
 - Turn off and unplug the unit.
 - Remove the filter cover (refer to Figure 7 for location).
 - Gently remove the air filter.
 - Wash the filter with mild soap and warm water. Rinse thoroughly.
 - Allow the filter to air dry completely before reinserting it.
 - Reattach the filter cover.

3. **Cleaning the Exterior:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.

TROUBLESHOOTING

If you encounter issues with your dehumidifier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on.	No power, power adapter not connected, or unit is off.	Check power connection, ensure adapter is securely plugged in, and press the On/Off button.
No water collected.	Humidity level is too low, unit is in continuous drainage mode, or air filter is blocked.	Ensure room humidity is above 45%. Check if the drain hose is properly connected. Clean the air filter.
Unit automatically shuts off.	Water tank is full, or timer has expired.	Empty the water tank and reinsert it. Check timer settings.
Unusual noise.	Unit is not on a level surface, or air filter is dirty.	Place the unit on a stable, level surface. Clean the air filter.

If the problem persists after trying these solutions, please contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	ubbo
Model Name	Z18
Color	White
Operation Mode	Automatic
Dehumidification Capacity	1.2 Liters per Day (under optimal conditions: 86°F, 80% RH)
Water Tank Capacity	95 oz (approx. 2.8 Liters)
Product Dimensions	6 x 5 x 11 inches
Item Weight	6.18 pounds
UPC	722549919581

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the warranty card included with your product or contact ubbo customer service directly. You can typically find contact details on the manufacturer's official website or through your retailer.

Please have your model number (Z18) and purchase date ready when contacting support.
