6. MAINTENANCE

Proper care will extend the life and appearance of your HLDIRECT Gaming Chair:

- **Cleaning:** Wipe the chair clean with a damp cloth. For tougher stains, use a mild soap solution. Dry immediately after cleaning.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the PU leather and other materials.
- **Sunlight Exposure:** Do not expose the chair to direct sunlight for prolonged periods, as this can cause the material to fade or crack.
- **Regular Checks:** Periodically inspect all bolts and screws and tighten them as necessary to maintain stability and prevent wobbling.

7. TROUBLESHOOTING

If you encounter any issues with your gaming chair, refer to the following common solutions:

- **Chair Feels Wobbly:** Ensure all assembly screws and bolts are securely tightened. Check the connection points of the base, gas lift, seat mechanism, and backrest.
- **Chair Not Adjusting Height:** Verify that the gas lift lever is fully engaged or disengaged as required. If the issue persists, the gas lift cylinder may need replacement.
- **Backrest Not Reclining/Locking:** Check the recline lever on the left side of the chair. Ensure it is fully pulled to unlock and fully released to lock.
- **Footrest Difficult to Extend/Retract:** Ensure there are no obstructions in the footrest mechanism. Apply a small amount of silicone lubricant to the sliding parts if necessary.
- **Noisy Swivel:** The chair is designed for silent operation. If you hear noise, check for any debris caught in the casters or the base mechanism.

If these steps do not resolve the issue, please contact HLDIRECT customer service for further assistance.
