INTRODUCTION

This manual provides detailed instructions for the safe and efficient assembly, operation, and maintenance of your Domi 12'x20' Hardtop Lean-to Gazebo. Please read all instructions carefully before beginning assembly or use. This gazebo is designed to provide a durable and spacious shaded area for your patio, deck, or lawn, featuring a galvanized steel roof and a robust structure built to withstand various weather conditions.

SAFETY INFORMATION

Your safety is paramount. Adhere to the following guidelines during assembly, use, and maintenance:

- Always follow the installation instructions carefully.
- Use appropriate safety equipment, including gloves and a ladder, during assembly.

- Ensure the gazebo is securely anchored to prevent movement, especially in windy conditions.
- Be aware of potential hazards during assembly and disassembly.
- Regularly inspect the gazebo for any signs of wear or damage.
- Maintain the gazebo according to the manufacturer's guidelines to ensure safe use, especially in outdoor conditions.
- Do not climb on the structure; it is designed to support snow loads up to 22 lbs/sq.ft, not human weight.

SETUP & ASSEMBLY

The Domi Lean-to Gazebo is pre-engineered for straightforward installation. While it can be assembled by one person, having two individuals will significantly expedite the process. All necessary tools and detailed instructions are included.

Preparation

- Unpack all components and verify against the parts list provided in the packaging.
- Ensure you have a strong drill bit that fits the provided screws perfectly to avoid stripping.
- Choose a level surface for installation. The gazebo can be wall-mounted or freestanding.

Structural Components

The gazebo features a robust design for enhanced durability:

- **Thick Pillars:** 3.94-inch columns provide superior stability.
- **Reinforced Beams:** Five reinforced 5.2-inch beams contribute to the roof's strength.
- **Sturdy Construction:** Incorporates a triangle structure and reinforced roof for maximum support.
- **Pre-Drilled Components:** Features pre-drilled wall studs and base holes for simplified attachment.

STURDY CONSTRUCTURE

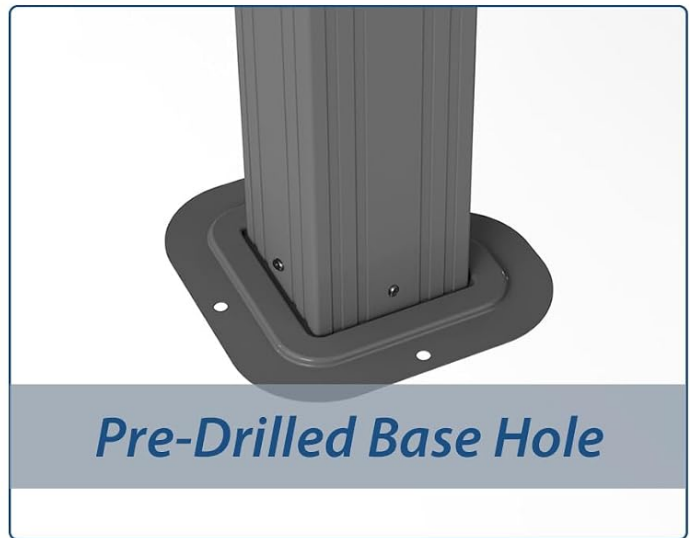

Figure 4: Sturdy Construction Details.

Wall-Mounted Installation

If attaching to a house or other building, use the provided brackets to secure the gazebo to your home's structure. Ensure the mounting surface is suitable and can support the gazebo's weight and wind loads.

Gazebo Expansion

For larger shaded areas, multiple same-width gazebos can be connected using specialized connector kits (sold separately). This allows for seamless expansion and customization of your outdoor space.

Purchase matching connector kits to seamlessly link gazebos of identical widths.

Figure 5: Connecting Multiple Gazebos.

Gazebo Connection Compatibility Guide

Gazebo Size 1	Gazebo Size 2	Final Size	Required Linking Kit
8×8 ft	8×8 ft	8x16 ft	8 ft
8×8 ft	8×10 ft	8x18 ft	8 ft
8×10 ft	8×10 ft	8x20 ft	8 ft
10×10 ft	10×10 ft	10x20 ft	10 ft
10×10 ft	10×12 ft	10x22 ft	10 ft
10×10 ft	10×14 ft	10x24 ft	10 ft
10×10 ft	10×16 ft	10x26 ft	10 ft
10×12 ft	10×12 ft	10x24 ft	10 ft
10×12 ft	10×14 ft	10x26 ft	10 ft
10×12 ft	10×16 ft	10x28 ft	10 ft
10×14 ft	10×14 ft	10x28 ft	10 ft
10×14 ft	10×16 ft	10x30 ft	10 ft
10×16 ft	10×16 ft	10x32 ft	10 ft
10×16 ft	10×20 ft	10x36 ft	10 ft
12×16 ft	12×16 ft	12x32 ft	12 ft
12×20 ft	12×20 ft	12x40 ft	12 ft

Key Notes:

1. Gazebos can only connect if they share the same width dimension
2. You'll need the linking kit that matches your gazebo's width (8ft/10ft/12ft)
3. Length doesn't affect connection compatibility (e.g., 10×10ft can connect with 10×14ft)

OPERATION & USAGE

The Domi Lean-to Gazebo is designed for all-weather performance, providing a comfortable outdoor space year-round.

- **All-Weather Performance:** The 2024-upgraded gutter system ensures leak-proof drainage, preventing ice and leaf clogs. The sloped galvanized roof sheds rain and snow instantly.
- **Wind and Snow Resistance:** Engineered to withstand 60 mph winds and snow loads of 22 lbs/sq.ft.
- **UV Protection:** The roof material offers ultraviolet light protection, shielding you from harmful sun rays.

- **Spacious Coverage:** Provides a generous shaded zone for outdoor furniture and activities.

Drainage system

Integrated Drainage Channels Prevent Water Accumulation

 Smooth Drainage
  No standing water
  Easy to maintain

 Water pools on surface
  Requires manual drying
  Promotes rust

Figure 8: Integrated Drainage System.

MAINTENANCE

To ensure the longevity and optimal performance of your Domi Lean-to Gazebo, regular maintenance is recommended:

- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they are tight and secure.
- **Cleaning:** Clean the roof and frame regularly with mild soap and water to prevent dirt and debris buildup. Ensure the gutter system is free of leaves and other obstructions.
- **Rust Prevention:** The gazebo is constructed with dual-protected galvanized and powder-coated steel, and uses stainless steel screws for enhanced rust resistance. However, inspect for any scratches or damage to the coating and touch up as needed to prevent rust.

Anti-Rust Powder Coated Pergola - Build to Endure

Stainless Steel Screws
After 1 year
Still provide superior durability
and rust-resistance

Ordinary Iron Screws
After 1 year
Rusted and weak

TROUBLESHOOTING

Should you encounter any issues during assembly or use, consider the following common solutions:

- **Missing or Damaged Parts:** Upon receiving your gazebo, carefully inspect all packages and components. If any parts are missing or damaged, contact Domi customer service immediately for assistance.
- **Assembly Difficulties:** Ensure all pieces are correctly oriented and aligned before tightening screws. Refer to the detailed instruction manual provided. If screw holes do not align perfectly, slight adjustments may be needed.
- **Roof Panel Film:** Remember to remove the protective film from all roof panels during assembly. This film is for protection during shipping and should be peeled off for proper appearance and function.
- **Water Accumulation:** Verify that the gutter system is clear of debris and that the roof panels are properly installed to maintain the intended slope for water runoff.

SPECIFICATIONS

Feature	Detail
Brand	domi outdoor living
Model	12x20 Hardtop Lean-to Gazebo
Material	Alloy Steel (Galvanized & Powder-Coated)
Product Dimensions (L x W x H)	234.3" x 138.4" x 99.2"
