VIVO MOUNT-TV105PT

VIVO MOUNT-TV105PT Heavy Duty Extended Tilting TV Wall Mount Instruction Manual

Model: MOUNT-TV105PT | Brand: VIVO

Introduction

This manual provides detailed instructions for the safe and proper installation and operation of your VIVO MOUNT-TV105PT Heavy Duty Extended Tilting TV Wall Mount. Please read all instructions carefully before beginning installation. If you have any questions or require assistance, refer to the customer support section.

The VIVO MOUNT-TV105PT Tilting TV Wall Mount installed in a modern living room, showcasing its low-profile design with a large screen.

Safety Information

WARNING: Failure to read and follow all instructions may result in personal injury or property damage.

- Ensure the mounting surface can safely support the combined weight of the equipment and all attached hardware.
- Do not install into drywall alone. The mount must be secured into wood studs, concrete, or brick walls only.
- Use a stud finder to locate wood studs accurately. For concrete or brick walls, use appropriate anchors (refer to your product manual for specific hardware).
- Never exceed the maximum weight capacity of 176 lbs (80 kg).
- This product is intended for indoor use only.
- Always use two people for lifting and positioning the TV.

Product Features

- **Low Profile Design:** Fits 55” to 105” screens weighing up to 176 lbs, maintaining a sleek appearance.
- **Wide VESA Compatibility:** Supports VESA patterns including 200x200, 300x200, 400x200, 300x300, 400x300, 400x400, 600x400, 800x400, 600x600, 800x600, 900x600, and 1000x600mm.
- **Screen Articulation:** Offers +10° to -15° tilt and +10° to -10° swivel for optimal viewing angles and glare reduction.
- **Extension and Quick Release:** VESA brackets extend 2.3” to 7” from the wall for easy port access. Features pull strings for quick TV release.
- **Sturdy Steel Construction:** Built with a solid alloy steel frame for durability and scratch resistance.

Overview of the mount's dimensions and key benefits, including low-profile design, VESA compatibility, and quick-release cable.

Installation Guide

Follow these steps for a secure installation. It is highly recommended to have at least two people for the installation process.

Pre-Installation Checks

1. **Verify Wall Type:** Ensure your wall is suitable for mounting. This mount is designed for wood studs, concrete, or brick walls. Do not install into drywall alone.
2. **Locate Studs:** Use a stud finder to accurately locate the center of your wood studs. Mark the desired height and center point for your TV.
3. **Check VESA Pattern:** Confirm your TV's VESA mounting pattern is compatible with the mount (200x200mm to 1000x600mm).

Assembly Steps

1. **Remove Plastic Inserts from Mounting Rails:** Carefully remove the plastic inserts from the mounting rails.
2. **Attach Side Brackets to Mounting Rails:** Connect the side brackets to the main mounting rails using the provided hardware.
3. **Secure Wall Plate to Wall:** Find the desired location on the wall using a stud finder. Pre-drill pilot holes. Then, secure the assembled wall mount to the wall using the appropriate lag bolts for wood studs or concrete/brick walls. Ensure the mount is level.
4. **Insert Plastic Inserts Back into Mounting Rails:** Once the wall plate is securely mounted, re-insert the plastic inserts into the mounting rails.
5. **Pull VESA Brackets into Extended Position:** Extend the VESA brackets on the TV side of the mount.
6. **Attach VESA Brackets to TV:** Secure the VESA brackets to the back of your television using the screws and spacers that fit your TV's VESA pattern.
7. **Mount TV to Wall Mount:** With assistance, carefully lift the TV and hook the VESA brackets onto the wall plate. Ensure the TV is securely seated. Use the quick-release pull strings to lock the TV in place.

The mount is designed to fit 3 standard-spaced wall studs, with hardware also provided for concrete and brick wall installations.

Operation and Adjustment

Once installed, your VIVO MOUNT-TV105PT allows for easy adjustments to achieve optimal viewing.

- **Tilting:** The mount features a tilt range of +10° to -15°. Gently push or pull the top or bottom of your TV to adjust the vertical viewing angle and reduce glare.
- **Swiveling:** The mount allows for a swivel range of +10° to -10°. Carefully rotate the TV horizontally to adjust the side-to-side viewing angle.
- **Extension:** The VESA brackets can extend the TV from 2.3” to 7” from the wall. This extension provides convenient access to ports and cables on the back of your television.
- **Quick Release:** To remove the TV from the wall mount, pull the quick-release strings located at the bottom of the VESA brackets.

Maintenance

Regular maintenance helps ensure the longevity and safe operation of your TV wall mount.

- **Cleaning:** Wipe the mount with a soft, dry cloth to remove dust. Avoid abrasive cleaners or solvents.
- **Periodic Checks:** Periodically check all screws and bolts to ensure they are tight and secure. Re-tighten if necessary.
- **Inspect for Damage:** Regularly inspect the mount for any signs of wear, damage, or corrosion. If any

issues are found, contact customer support.

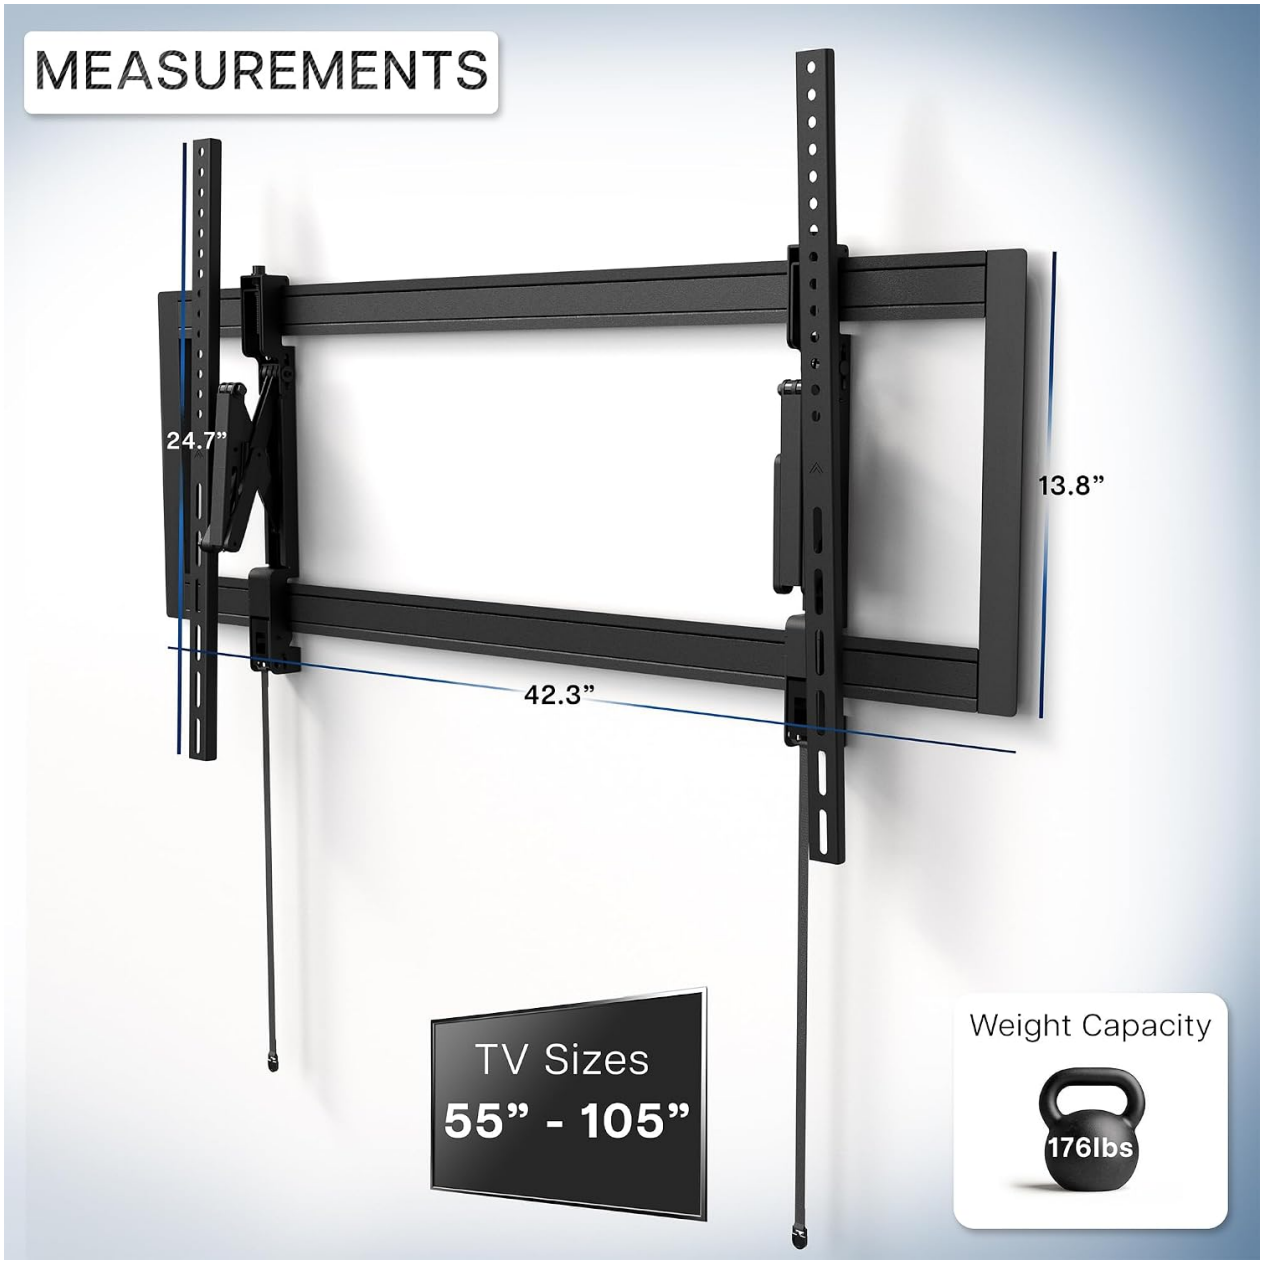

Troubleshooting

Problem	Possible Cause	Solution
TV is not level	Wall plate not level during installation.	Carefully adjust the wall plate or use the leveling screws on the VESA brackets if available.
TV feels unstable	Mounting screws are loose or incorrect wall anchors used.	Ensure all mounting screws are securely tightened. Verify correct installation for your wall type (wood stud, concrete, or brick).
Difficulty tilting/swiveling	Adjustment bolts are too tight.	Loosen the tilt/swivel adjustment bolts slightly. Do not over-loosen.
TV cannot be removed from mount	Quick-release strings are not pulled sufficiently.	Ensure the quick-release strings are pulled firmly downwards to disengage the locking mechanism.
