INTRODUCTION

The ONIKUMA GAMING M530 USB Condenser Microphone is designed to deliver studio-level audio clarity for various applications, including gaming, streaming, podcasting, and online meetings. Featuring advanced noise cancellation and dynamic RGB lighting, this microphone ensures your voice is crisp, clear, and impactful, while adding a personalized aesthetic to your setup.

Key Features:

- **Studio-Level Clarity & Smart Noise Cancellation:** Advanced capacitive capsule captures vocal details with precision. Activate noise reduction to eliminate background sounds like keyboard clicks and fan noise.
- **Dynamic RGB Lighting:** Easily adjust colors and lighting effects via the dedicated control knob to customize your streaming aesthetic.
- **Intuitive Control:** Instant mute/unmute with a tactile knob, effortless distortion prevention, and balanced volume levels for consistently clean audio.
- **Professional Full Kit:** Includes a sturdy boom arm with smooth adjustability, a desk clamp for secure placement, a built-in shock mount to reduce vibration noise, and a removable pop filter to minimize plosives and breath noise.
- **Plug & Play Universal Compatibility:** Connects in seconds via USB without drivers. Compatible with Windows, macOS, PS4/PS5 for in-game communication, HD streaming, podcasts, voiceovers, and online meetings.

WHAT'S IN THE BOX

Your ONIKUMA GAMING M530 USB Condenser Microphone package includes the following components:

- Gaming USB Microphone

- Boom Arm
- USB Cable
- Desk Clamp
- Pop Filter (integrated with microphone)
- User Manual

Double-Click to Enable Noise Reduction

Reduce any additional sounds other than human voices

Double-Click

SETUP INSTRUCTIONS

1. **Attach the Desk Clamp:** Secure the desk clamp to the edge of your desk or table. Ensure it is tightened firmly to provide a stable base for the boom arm.
2. **Mount the Boom Arm:** Insert the boom arm into the desk clamp. Adjust the arm's position and angle to your desired setup. The boom arm offers 360° rotation at the base, 180° vertical adjustment, and 270° horizontal adjustment for flexible positioning.
3. **Attach the Microphone:** Screw the ONIKUMA GAMING M530 microphone onto the boom arm's mounting point. The microphone includes an integrated shock mount and a removable pop filter.
4. **Connect the USB Cable:** Connect the provided USB-C cable to the port at the bottom of the microphone. Plug the other end (USB-A or USB-C via adapter) into your computer (Windows, macOS) or gaming console (PS4/PS5). No additional drivers are required for installation.
5. **Positioning for Optimal Sound:** For best results, position the microphone 15-30cm (5.9-11.8 inches) from your mouth. The cardioid pickup pattern focuses on sound directly in front of the microphone, minimizing background noise.

Your Voice Won't be Missed

Best Range: 15-30cm/5.9-11.8inch

OPERATING INSTRUCTIONS

Microphone Controls:

Clearer and Higher-Quality Sound

Figure 5: The control panel on the microphone body, showing the mute, echo, and volume knobs.

- **Mute/Noise Reduction/RGB Switch:**

- Long press to turn on or off the mute function.
- Press briefly to switch between different RGB lighting effects.
- Double-click to enable or disable the advanced noise reduction function.

- **Echo Adjustment Knob:** Rotate this knob to adjust the echo effect on your voice.

- **Microphone Volume Adjustment Knob:** Rotate this knob to control the microphone's input volume.

Dynamic RGB Lighting:

The microphone features dynamic RGB lighting that can be customized to match your gaming or streaming setup. Briefly press the top button to cycle through various lighting effects and colors.

Real-time Monitoring:

Utilize the 3.5mm headphone monitoring port at the bottom of the microphone to listen to your audio in real-time, ensuring optimal sound quality during recording or streaming.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the microphone body and pop filter. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the microphone in a clean, dry place away from extreme temperatures and humidity.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent damage.

TROUBLESHOOTING

- **No Sound Output:**
 - Ensure the USB cable is securely connected to both the microphone and your device.
 - Check your device's sound settings to confirm the ONIKUMA GAMING M530 is selected as the input and output device.
 - Verify the microphone's volume knob is not set to minimum and the mute function is not active.
- **Background Noise:**
 - Ensure the noise reduction function is enabled (double-click the top button).
 - Adjust the microphone's position to be closer to your mouth and further from noise sources.
 - Check for any loose connections or interference from other electronic devices.
- **RGB Lighting Not Working:**
 - Ensure the microphone is properly powered via the USB connection.
 - Briefly press the top button to cycle through lighting modes; it might be set to an off mode.
