Jocoevol C-1627

Jocoevol Twin Size Floating Bed Frame Instruction Manual

Model: C-1627

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Do not exceed the maximum weight recommendation of 800 pounds.
- Be cautious of sharp edges and metal parts during assembly and use.
- Always follow the assembly instructions carefully to prevent instability or collapse.
- Ensure all bolts and connections are securely tightened before use.
- Keep children away from the bed frame during assembly.

PRODUCT OVERVIEW

The Jocoevol Twin Size Floating Bed Frame offers a modern design with practical features for your bedroom. It includes an ergonomic headboard with hidden storage, integrated LED lighting, and a convenient charging station.

Overall view of the Jocoevol Twin Size Floating Bed Frame.

Key Features:

- **Visual Floating Design:** Unique hidden bed foot design combined with three-side light strips under the bed creates a floating illusion.
- **Adjustable Ergonomic Headboard:** Crafted with 2-inch thick high-density foam and premium PU leather, offering three adjustable angles for comfort.
- **Multi-Function RGB LED Bed:** Built-in smart RGB LED light strip in the headboard (housed in a transparent aluminum casing) with over 16 million colors and 20+ preset effects, controllable via buttons, app, or remote. Features intelligent music sync mode.
- **Storage Headboard with Charging Station:** Features a 6.7-inch deep open shelf and 15.7-inch high hidden private storage space. Includes 2 standard outlets, 1 USB port, and 1 Type-C port. Side storage pockets are also included.
- **Noise-Free Design:** Silent sponge strips on the middle beam reduce friction and prevent squeaking.
- **Sturdy Frame Construction:** Stable metal framework with closely arranged wood slats and 9 metal legs (3 adjustable) supports up to 800 lbs.

SETUP AND ASSEMBLY

The Jocoevol Twin Size Floating Bed Frame is designed for straightforward assembly. All necessary tools and clear instructions are included. Precision-drilled holes make the process efficient. It is recommended to have two people for assembly.

Assembly Video Guide:

Official assembly guide video for the Jocoevol Floating Bed Frame. This video provides step-by-step visual instructions for putting together your bed frame.

General Assembly Steps:

1. **Prepare Components:** Unpack all parts and verify against the parts list in your included manual. Organize screws and small parts for easy access.

2. **Assemble Headboard Base:** Attach the charging station and LED light strip to the headboard base as per instructions.
3. **Construct Headboard Frame:** Secure the headboard side panels and central support.
4. **Install Headboard Cushions:** Attach the upholstered headboard cushions, ensuring the hidden storage mechanism is correctly aligned.
5. **Assemble Bed Frame Sides:** Connect the side rails and footboard sections.
6. **Attach Support Legs:** Install the central support legs and any diagonal supports for stability.
7. **Install Slats:** Lay out the wooden slats across the bed frame. The slats feature Velcro straps for easy and secure placement.
8. **Install Under-Bed LED Strip:** Adhere the LED light strip to the bottom of the bed frame, ensuring it is securely attached and wired correctly.
9. **Final Tightening:** Once all components are in place, tighten all bolts to 100% to ensure maximum stability.

Triangular structure enhances headboard stability.

Adjustable support legs ensure stability on uneven surfaces.

Noise-free sponge strips on slats reduce friction and noise.

Velcro on slats for easy and secure installation.

OPERATING INSTRUCTIONS

Adjustable Ergonomic Headboard:

The headboard features three adjustable angles to provide optimal comfort for various activities:

- **Angle 1:** Relax and watch TV comfortably.
- **Angle 2:** Ideal for reading or using devices.
- **Angle 3:** Lean back for a restful nap or sleep.

Innovative Hidden Support Legs Designs

Floating Bed

No Bumps

Regular Bed

Easy to Bump

The headboard can be adjusted to three different angles for personalized comfort.

Multi-Function RGB LED Lights:

The integrated RGB LED lights can be controlled via the included remote, a dedicated app, or buttons on the headboard. Features include:

- Over 16 million colors and 20+ preset lighting effects.
- Intelligent music sync mode, where lights flash in rhythm with music.
- Adjustable brightness and speed.
- Timing function for automatic on/off.

Control your RGB LED lights with the remote or a smartphone app.

Charging Station:

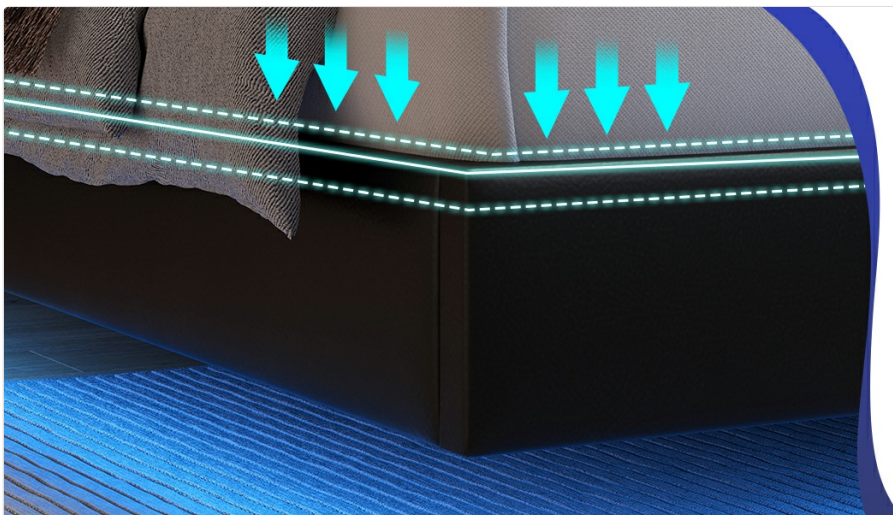

The headboard includes a built-in charging station for your electronic devices:

- 2 Standard AC Outlets (125V/12A)
- 1 USB Port (5V/2A)
- 1 Type-C Port (5V/3A)

Hidden Storage Space:

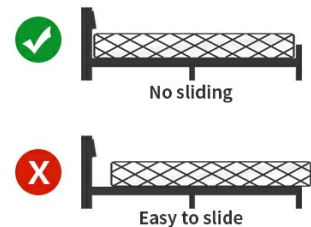

Access the hidden storage by gently pulling the upholstered panels forward. The panels are designed to stay open for easy access. Side pockets are also available for smaller items like remotes or phones.

Detailed view of the headboard's functional charging station, open storage space, pre-installed light strip, adjustable ergonomic headboard, hidden storage space, and side pockets.

Embedded Design

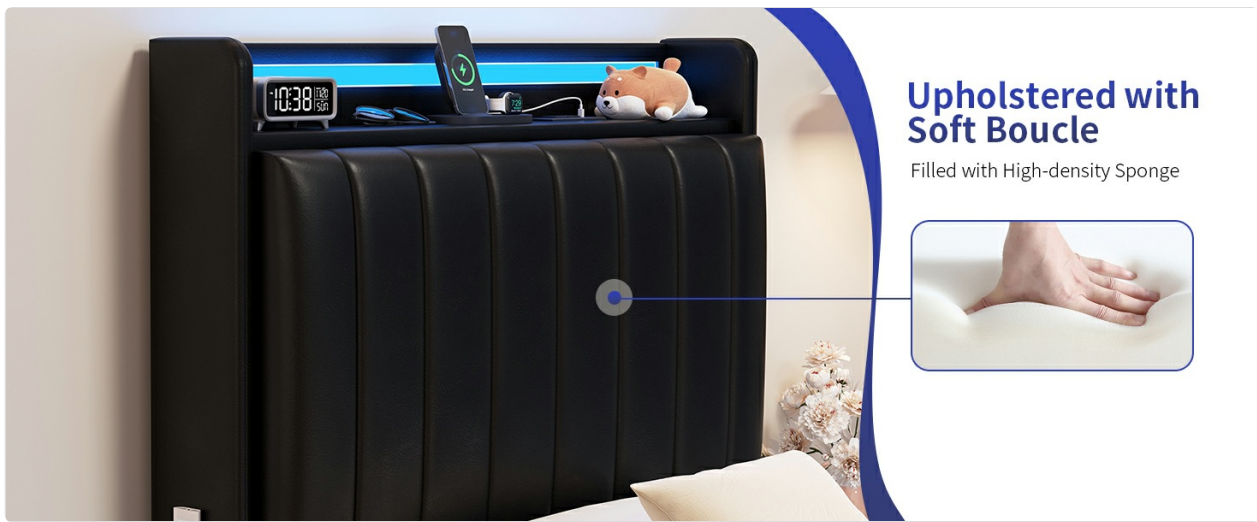

Keep Your Mattress from Sliding
No Box Spring Needed

Convenient side pockets keep your remote or phone within arm's reach.

Mattress Compatibility:

For optimal performance and to maximize comfort with the adjustable headboard, we recommend using a mattress between 8-10 inches thick, not exceeding 12 inches.

Mattress thickness guide: 8-12 inches for optimal comfort and headboard functionality.

CARE AND MAINTENANCE

- **Cleaning the Frame:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners.
- **Cleaning Upholstery:** For the PU leather headboard, use a soft, slightly damp cloth. For tougher stains, use a mild soap solution and wipe dry immediately. Do not use harsh chemicals or solvents.
- **LED Lights:** Ensure the LED strips are free from dust. Do not attempt to disassemble or modify the LED components.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent damage to materials and electrical components.

TROUBLESHOOTING

LED Lights Not Working:

- Check if the power cord for the LED lights is securely plugged into a working outlet.
- Ensure the remote control has fresh batteries and is pointed directly at the receiver.
- If using the app, ensure your device is properly connected via Bluetooth.
- Verify all connections of the LED strip are firm.

Bed Frame Squeaks:

- Re-tighten all bolts on the frame, especially those connecting the side rails and support legs.
- Ensure the silent sponge strips on the middle beam and slats are correctly positioned to prevent metal-on-metal contact.

Bed Frame Feels Unstable:

- Check that all 9 metal legs, including the 3 adjustable ones, are properly installed and adjusted to the correct height for your floor.
- Verify that the headboard's triangular structure is securely fastened.
- Ensure all frame components are correctly assembled according to the instructions.
