1. PRODUCT OVERVIEW

The Tectake 3x6 Gazebo is designed to provide shade, rain protection, wind protection, and privacy for outdoor events, picnics, and camping. This modular garden gazebo features five removable side panels with windows, offering versatile customization and optimal ventilation. Its robust powder-coated steel frame and waterproof, UV-protected tarpaulin ensure durability and resistance to various weather conditions.

2. SAFETY INFORMATION

Warning: This gazebo does not offer protection during storms or very adverse weather conditions. In such cases, you should not use the gazebo or leave it outdoors. Damage to the gazebo may occur under these circumstances. Always ensure the gazebo is securely anchored to prevent wind damage.

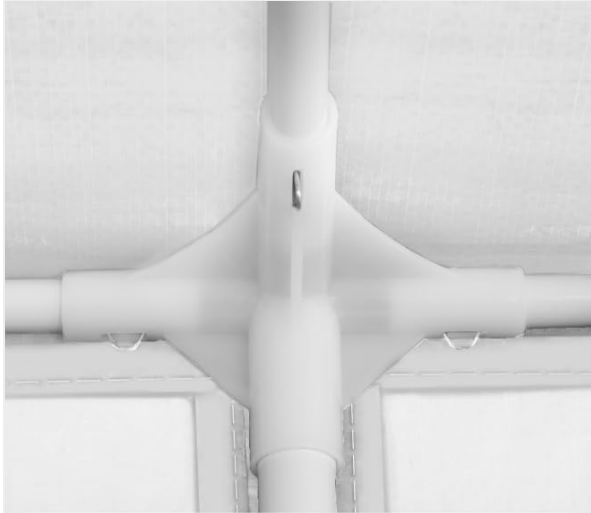

3. SETUP INSTRUCTIONS

The Tectake 3x6 Gazebo features an intuitive interlocking system for quick and easy assembly. Follow these steps for proper installation:

1. **Unpack Components:** Carefully unpack all parts and verify against the included parts list.
2. **Assemble Frame:** Connect the steel poles using the interlocking system. Ensure all connections are secure.
3. **Attach Canopy:** Drape the waterproof tarpaulin over the assembled frame. Secure it using the integrated fasteners.
4. **Install Side Panels:** Attach the five removable side panels using the hook-and-loop closures. These

panels can be added or removed as needed for ventilation or privacy.

5. **Secure Anchoring:** Use the provided tension ropes and 12 ground stakes to firmly anchor the gazebo. This is crucial for stability, especially in windy conditions.

1. Montaggio veloce grazie al sistema a incastro

2. Montanti saldamente ancorati con i picchetti

3. Corde di tensione per una maggiore stabilità

4. Pratiche chiusure con velcro

4. OPERATION AND USAGE

The Tectake 3x6 Gazebo is designed for versatile outdoor use. Here are key operational aspects:

- **Weather Protection:** The waterproof tarpaulin with UV protection provides optimal shelter from sun and light rain.
- **Side Panel Flexibility:** The five removable side panels with windows allow you to customize the enclosure. Remove them for an open-air feel or attach them for increased privacy and protection from wind or sun.
- **Ventilation:** The removable panels also aid in maintaining optimal ventilation within the gazebo.
- **Stability:** Always ensure the gazebo is properly anchored with all ropes and stakes, especially when anticipating any wind.

PRONTI CON OGNI METEO

Questo elegante gazebo da giardino assicura una protezione ottimale con qualsiasi condizione atmosferica. I teloni fissati con velcro sono impermeabili, mentre i picchetti e le corde di tensione in dotazione garantiscono stabilità anche in caso di vento.

5. MAINTENANCE

Proper maintenance will extend the lifespan of your Tectake 3x6 Gazebo:

- **Cleaning:** Clean the tarpaulin and side panels with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the material or UV coating.
- **Frame Care:** Inspect the steel frame periodically for any signs of rust or damage. Clean and dry any wet areas to prevent corrosion.
- **Storage:** When not in use for extended periods or during adverse weather, disassemble the gazebo and store all components in a dry, protected area. Ensure all parts are clean and completely dry before storage to prevent mold or mildew.
- **Inspection:** Regularly check all connections, ropes, and stakes for wear and tear. Replace any damaged parts immediately to maintain stability and safety.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Gazebo unstable or collapses in wind.	Insufficient anchoring; weak ground stakes; strong winds.	Ensure all 12 ground stakes and tension ropes are properly installed and taut. Consider using heavier-duty stakes or weights in very windy areas. Do not use in storms or very adverse weather.
Water pooling on canopy.	Improper canopy tension; heavy rainfall.	Adjust canopy tension to ensure water runs off. Clear any accumulated water promptly.
Side panels not fitting correctly.	Incorrect panel placement; frame not fully extended.	Verify that the frame is fully assembled and extended. Ensure side panels are aligned correctly before attaching hook-and-loop fasteners.

7. SPECIFICATIONS

Key technical details for the Tectake 3x6 Gazebo:

Brand: tectake

Model Number: 404816-4

Material: Steel alloy, Polyethylene (PE), Polypropylene (PP)

Color: White

Item Weight: 12 Kilograms

Dimensions (L x W x H): 6L x 3W x 2.5H meters

Cover: Waterproof tarpaulin with UV protection and removable side panels with windows

Frame Material: Steel alloy

UV Protection: Yes

Water Resistance Level: Waterproof

Assembly Required: Yes

MISURE

Misure totali

ca. 600 x 300 x 250 cm

Altezza passaggio

ca. 200 cm

Peso

ca. 12 kg
