> Aheaplus Closet System with 6 Drawers, 4.5ft Wood Closet Organizer System (Model: closet-system-ZP1) - Instruction Manual

## Aheaplus closet-system-ZP1

# Aheaplus Closet System with 6 Drawers

## INSTRUCTION MANUAL

Model: closet-system-ZP1

### 1. Product Overview

The Aheaplus Closet System is a modular storage solution designed to organize your wardrobe. It features six smooth-gliding drawers, multiple hanging rods for various garment lengths, and open shelving for accessories and shoes. This system is constructed from high-quality engineered wood, ensuring stability and durability.

Image: The Aheaplus Closet System in White Oak, featuring two modular units with hanging rods, six drawers, and open shelves.

- **Spacious Storage:** Combines two 3-drawer units for a total of six drawers, ideal for organizing smaller items.
- **Modular Design:** Two-piece set measuring 53.2 inches wide, suitable for 4.5FT+ closet spaces. Can be expanded with additional units.
- **Enhanced Vertical Storage:** Each unit includes sturdy hanging rods for both short and long garments.
- **Durable Construction:** Made of high-quality engineered wood, supporting up to 600 lbs total, with each rod holding up to 100 lbs.

## 2. Setup and Assembly

Assembly is required for this closet system. It is recommended that two people assemble the unit. All necessary parts are clearly labeled, and hardware is included in the packaging. Please ensure all components are present before beginning assembly.

### 2.1 Unpacking and Inspection

The closet system is delivered in two separate boxes, which may arrive at different times. Carefully unpack all components and inspect them for any damage or missing parts. Refer to the included parts list to verify all items are present.

Image: Dimensions and delivery information, indicating the system arrives in two boxes.

### 2.2 Assembly Steps

Follow the step-by-step instructions provided in the separate assembly guide included with your product. Ensure all screws and fasteners are tightened securely. Do not overtighten.

### 2.3 Securing the Unit

Two anti-tip kits are included to secure the structure to the wall. This is a critical safety measure, especially in households with children or pets, to prevent accidental tipping. Install these kits as directed in the assembly guide.

## 3. Operating and Usage

The Aheaplus Closet System is designed for versatile storage and organization. Utilize its various compartments to maximize your closet space.

### 3.1 Drawer Usage

The six drawers are designed for smooth operation, ideal for storing folded clothing such as underwear, socks, and T-shirts, as well as accessories. Avoid overloading drawers to ensure smooth gliding and prevent damage.

### 3.2 Hanging Rods

Each unit includes a sturdy hanging rod. The design provides extended vertical clearance, accommodating both long garments like dresses and coats, and shorter items. Distribute weight evenly across the rods, with each rod capable of holding up to 100 lbs.

### 3.3 Open Shelving and Top Surfaces

The open shelves below the drawer units are suitable for shoes, bags, or storage bins. The spacious top surfaces of the units can be used for display or additional storage of frequently accessed items.

## 4. Maintenance and Care

Proper maintenance will extend the life and appearance of your Aheaplus Closet System.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the engineered wood finish.
- **Spills:** Immediately wipe up any spills to prevent moisture damage or staining.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary, but do not overtighten.
- **Drawer Glides:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the glides.

## 5. Troubleshooting

If you encounter any issues with your closet system, refer to the following common solutions:

- **Wobbling Unit:** Ensure all assembly screws are tightened. Verify that the anti-tip kits are correctly installed and securely fastened to the wall. Check that the unit is on a level surface.
- **Drawers Not Gliding Smoothly:** Check for any obstructions in the drawer tracks. Ensure the drawer slides are properly aligned and securely attached to both the drawer and the unit. If a track is damaged or missing, contact customer support for assistance.
- **Damaged or Missing Parts:** If you discover any damaged or missing components upon unpacking, please contact Aheaplus customer support immediately for replacements.

## 6. Specifications

<b>Brand</b>	Aheaplus
<b>Model Number</b>	closet-system-ZP1
