VIAGDO VD-RX-Q

VIAGDO Queen Size Floating Bed Frame User Manual

Model: VD-RX-Q

Brand: VIAGDO

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your VIAGDO Queen Size Floating Bed Frame. Please read this manual thoroughly before assembly and use to ensure safe and correct operation.

2. SAFETY INFORMATION

WARNING:

- Do not load more than 1000 pounds on the bed frame.
- Exercise caution around sharp edges during assembly to prevent injury.
- Always unplug the LED lights when not in use or during maintenance to prevent potential electrical hazards.
- Ensure all connections for the charging station are secure before use.

3. PRODUCT FEATURES

3.1 Multifunctional Removable Headboard

The headboard features a soft backrest designed to conform to the natural curvature of the back. This large, soft

headboard is detachable and can be utilized as a pillow, cushion, or large bolster pillow for various comfort needs.

Removable Headboard Pillow

Detachable and can be used in other places

PU leather case detachable

Breathable Material

Easy to Clean

Decorative Buttons

3.2 Ergonomic Headboard Design

The headboard is designed with a 110-degree slope to provide ergonomic support, enhancing comfort when leaning back. This design promotes a more natural and relaxed posture compared to vertical backrests.

Ergonomic Headboard Design

Built-in Charging Station

2 AC Outlets
120V / 12A

1 USB Port
5V / 2A

1 Type-C Port
5V / 3A

Image: A visual representation of the ergonomic headboard design, highlighting its 110-degree angle for optimal back support, contrasting it with a less comfortable vertical design.

3.3 Multi-function RGB LED Lighting

The bed frame is equipped with multi-function RGB LED light strips located on the storage bed and underneath the frame. These lights can be controlled via a mobile application or remote controller, allowing adjustment of brightness, colors, timer mode, and music synchronization without leaving the bed. The LED lighting enhances the bedroom's ambiance with a modern and technological aesthetic.

Velcro Design

Convenient Velcro design
Quick installation

No Squak

Metal Slats with Sound-dead
strips For Noisy free

Durable Structure

Strong and Durable
can load about 1000 lb

3.4 Floating Design

The VIAGDO floating bed frame incorporates multi-color RGB LED strips to create a suspended illusion. Hidden legs provide stability while preventing accidental toe stubs. Strong Velcro ensures the LED lights remain securely in place, contributing to a modern and stylish bedroom environment.

Image: A composite image highlighting key structural features: a convenient Velcro design for quick installation, metal slats with sound-deadening strips to prevent squeaking, and a durable structure capable of supporting up to 1000 lbs.

3.5 Integrated Charging Station

The queen bed frame includes a charging station with two USB ports, allowing convenient charging of electronic devices without leaving the bed. The headboard also features open shelves for storing items like phones, keeping them within easy reach.

Fantasy RGB LED Light Strip

Create a warm and romantic atmosphere

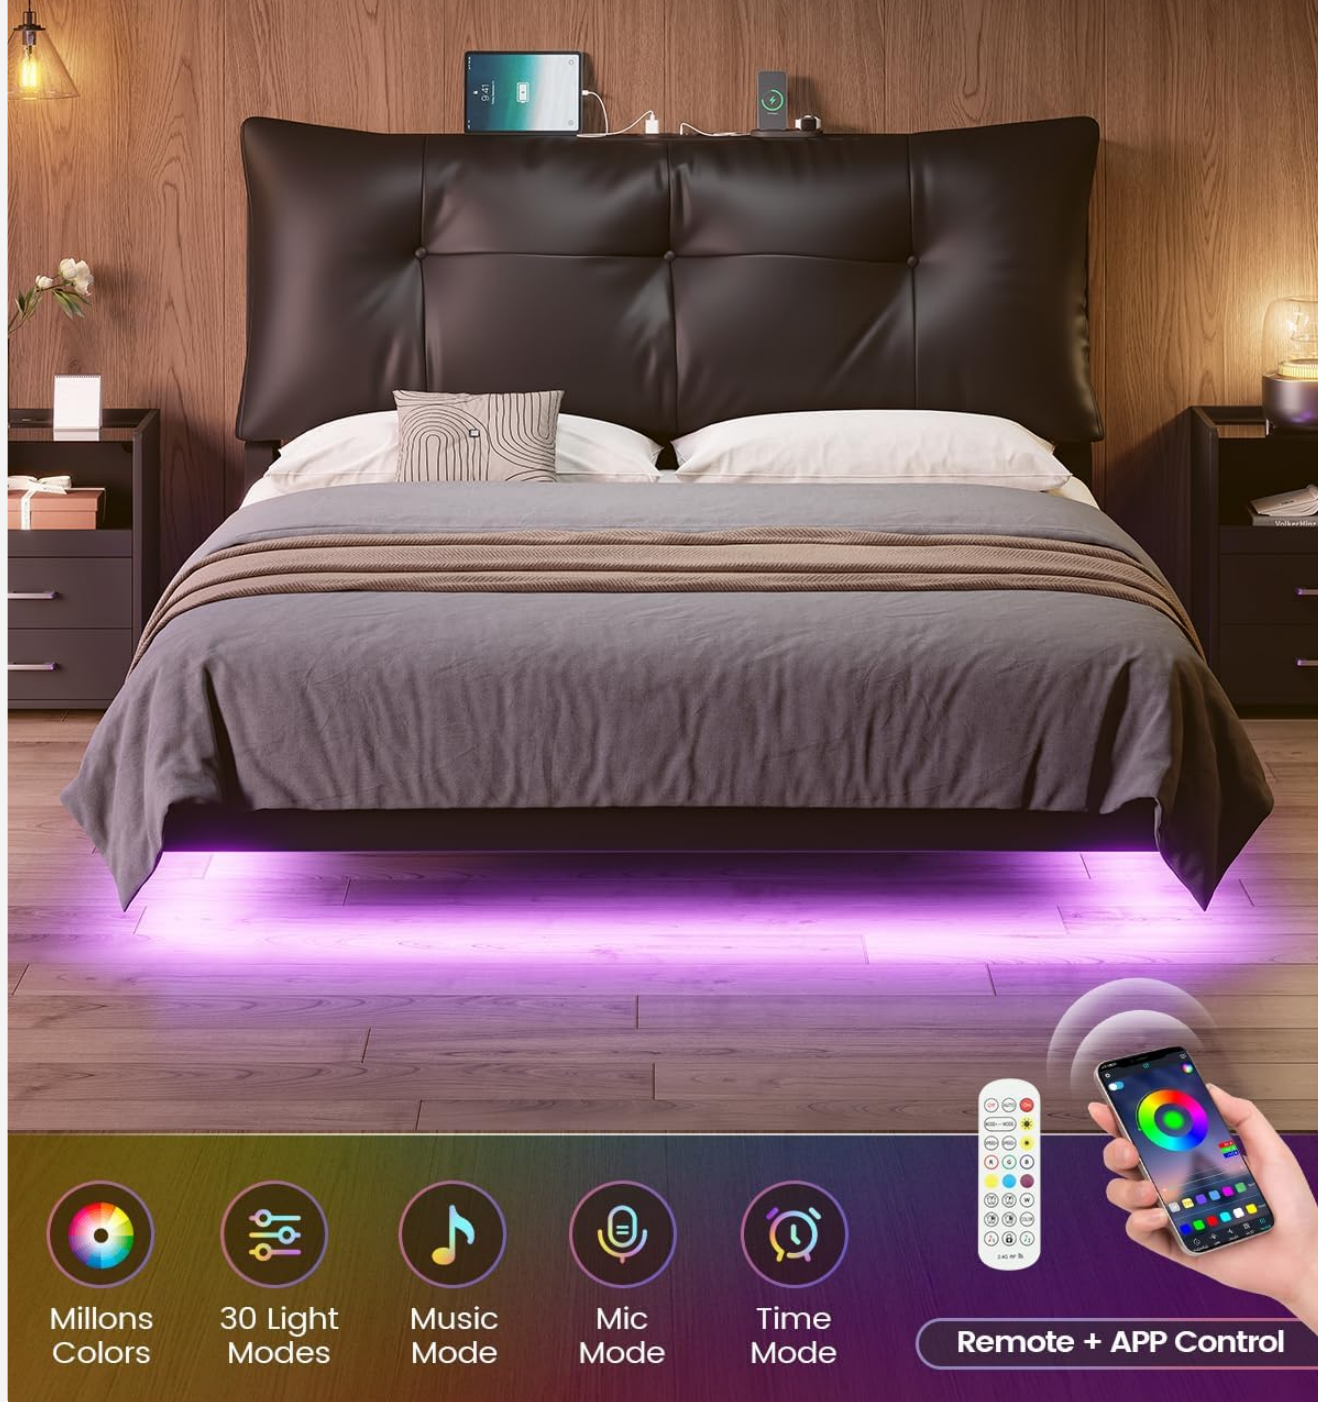

Image: A close-up of the built-in charging station on the headboard, showing a tablet, smartphone, and smartwatch charging via the integrated 2 AC outlets (120V/12A), 1 USB port (5V/2A), and 1 Type-C port (5V/3A).

4. SETUP AND ASSEMBLY

Assembly of the VIAGDO Queen Size Floating Bed Frame is required. Please refer to the included installation manual for detailed, step-by-step instructions, diagrams, and a complete list of parts. Ensure all components are present before beginning assembly.

- Unpack all components and verify against the parts list in the separate installation manual.

- Follow the numerical sequence of steps provided in the installation manual.
- Ensure all screws and fasteners are tightened securely, but do not overtighten.
- Connect the LED light strips and charging station according to the electrical connection instructions.

For visual guidance, please consult the diagrams in your dedicated assembly guide.

5. OPERATING INSTRUCTIONS

5.1 LED Light Operation

1. **Power On/Off:** Use the provided remote control or the mobile application to turn the LED lights on or off.
2. **Color Selection:** Select from millions of colors using the remote or app interface.
3. **Mode Selection:** Choose from 30 light modes, including static colors, dynamic effects, music synchronization, and mic mode.
4. **Brightness Adjustment:** Adjust the light intensity using the brightness controls on the remote or app.
5. **Timer Function:** Set a timer for the lights to automatically turn off at a specified time.

Ensure the LED light power adapter is securely plugged into a wall outlet.

5.2 Charging Station Usage

1. **Connect Power:** Ensure the bed frame's main power cord for the charging station is plugged into a functional wall outlet.
2. **USB Ports:** Connect your devices (e.g., smartphones, tablets) to the 5V/2A USB-A port or the 5V/3A Type-C port.
3. **AC Outlets:** For larger electronics or chargers, use the two 120V/12A AC outlets.
4. **Placement:** Utilize the open shelves on the headboard to conveniently store devices while charging.

Always use appropriate charging cables for your devices. Do not overload the charging station.

6. MAINTENANCE

6.1 Cleaning Instructions

To clean the bed frame, wipe surfaces with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, which may damage the finish or upholstery.

- For the upholstered headboard, use a mild soap solution if necessary, and wipe dry immediately.
- Regularly dust the frame and headboard to prevent buildup.
- Ensure the LED strips are clean and free of dust for optimal performance.

6.2 General Care

- Periodically check all screws and connections to ensure they remain tight.
- Avoid dragging the bed frame when moving it; lift it to prevent damage to the frame and floor.
- Do not expose the bed frame to excessive moisture or direct sunlight for prolonged periods.

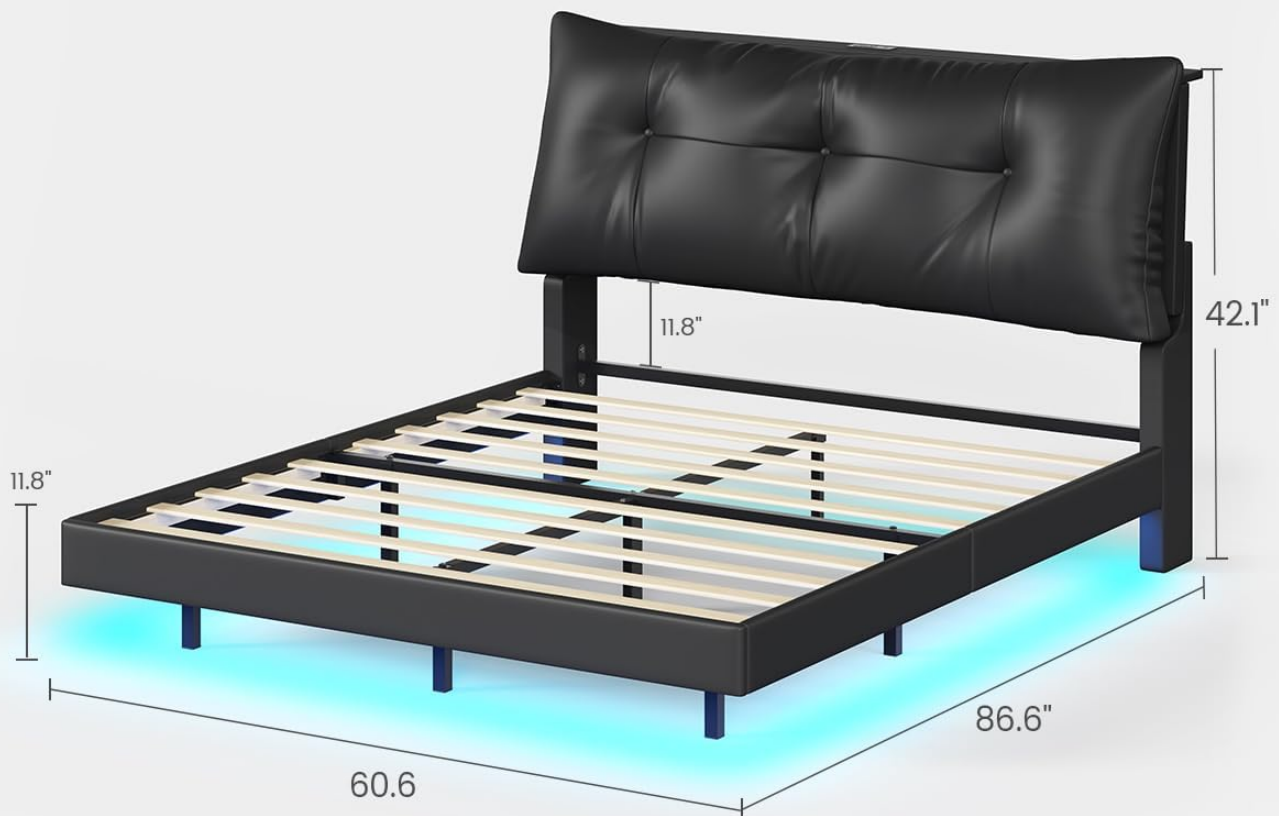

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
LED lights not working	Power cord unplugged; Remote/App not paired; Damaged LED strip.	Ensure power cord is securely plugged in. Re-pair remote/app according to LED instructions. Contact support if strip is damaged.
Charging station not providing power	Main power cord unplugged; Device cable faulty; Overload protection activated.	Check main power connection. Try a different device cable. Unplug devices and try again to reset.
Bed frame squeaks	Loose connections; Slats not properly seated.	Tighten all screws and bolts. Ensure all slats are correctly positioned and secured.
Headboard pillow feels loose	Not properly attached or secured.	Ensure the headboard pillow is correctly positioned and secured to the frame as per assembly instructions.
