

Lvifur HTX-97076-27

Lvifur 71-inch Display Cabinet with Glass Doors

Model: HTX-97076-27

INTRODUCTION

This instruction manual provides comprehensive guidance for the assembly, operation, and maintenance of your Lvifur 71-inch Display Cabinet. Please read these instructions carefully before beginning assembly or operation to ensure proper use and longevity of the product. Retain this manual for future reference.

PRODUCT OVERVIEW

The Lvifur 71-inch Display Cabinet is designed to showcase your collectibles with enhanced visibility and smart features. Key components and features include:

- **Pop-up Glass Doors:** Ultra-clear tempered glass doors offer excellent visibility and a modern, handle-free design.
- **LED 3 Dimmable Lights:** Integrated LED strips provide three color options (Warm, Blue, White) with adjustable brightness to highlight displayed items.
- **Smart Human Sensor:** An intelligent sensor automatically activates/deactivates the lights when a person is detected within 2-3 meters.
- **Large Storage Capacity:** Features 7 tiers of spacious storage, with two removable glass shelves for flexible arrangement of various-sized items. The cabinet can support up to 220 pounds.
- **Durable Construction:** The frame is constructed from FSC-certified wood, ensuring stability and quality.
- **Magnetic Catch Closures:** Doors are secured with magnetic catches for convenient opening and closing.
- **Anti-Tipping Device:** Includes hardware to secure the cabinet to a wall, enhancing safety and stability.

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended that two or more people assist with assembly due to the size and weight of the components. Please follow the detailed instructions provided in the included Assembly User Guide. Ensure all parts are present before beginning.

1. **Unpacking:** Carefully unpack all components. Inspect for any damage. Keep all packaging materials until assembly is complete.
2. **Identify Parts:** Refer to the parts list in the Assembly User Guide to identify each component.
3. **Frame Assembly:** Assemble the main frame structure according to the diagrams. Ensure all connections are secure.
4. **Shelf Installation:** Install the glass shelves. Note that two shelves are removable to adjust height. Ensure shelves are seated correctly in their supports.
5. **Door Installation:** Attach the tempered glass doors. Ensure the black plastic rings are installed together with the hinges for stability.

◀ TEMPERED GLASS DOORS

Provide a clear display while protecting your items from dust.

STABLE HINGES ▶

Please note that the black plastic ring needs to be installed together.

◀ ANTI-TIPPING DEVICE

Can be attached directly to the wall to prevent tipping, maximize safety & stability.

Important: Always follow the specific assembly steps outlined in your product's included Assembly User Guide for correct and safe installation.

OPERATING INSTRUCTIONS

LED Lighting System

The display cabinet features a built-in LED lighting system with three color options and adjustable brightness.

- **Changing Light Color:** Short press the touch button on the control panel to cycle through Warm, Blue, and White light colors.
- **Adjusting Brightness:** Long press the touch button to adjust the brightness level from 10% to 100%. Release the button when the desired brightness is reached.

BUILT-IN 3 COLORS LED STRIPS

Light Up & Display What You Love

Smart Human Body Sensor

The integrated human body sensor automatically controls the LED lights based on proximity.

- **Automatic Activation:** The lights will automatically turn on when a person approaches within 2-3 meters of the cabinet.
- **Automatic Deactivation:** The lights will turn off automatically when no human presence is detected within the sensor's range for a period.

SMART HUMAN SENSOR

The light will automatically turn on / off when detects people approach

Magnetic Catch Closures

The glass doors are equipped with magnetic catches for secure and easy closure.

- **Opening:** Gently press the door to release the magnetic catch and open.
- **Closing:** Push the door firmly until the magnetic catch engages, securing the door.

TWO REMOVAL SHELVES

Meeting your different display / storage needs

MAINTENANCE

- **Cleaning Glass Surfaces:** Use a soft, lint-free cloth and a non-abrasive glass cleaner to clean the tempered glass doors and shelves. Avoid harsh chemicals that may damage the glass or frame.
- **Cleaning Frame:** Wipe the wooden frame with a soft, damp cloth. Dry immediately with a clean cloth. Avoid excessive moisture.
- **Dusting:** Regularly dust all surfaces with a dry, soft cloth to prevent buildup.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **LED Lights:** The LED lights are designed for long-term use. If a light strip malfunctions, contact customer support for assistance. Do not attempt to repair it yourself.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
LED lights do not turn on.	<ul style="list-style-type: none"> Power cable not connected. Power outlet malfunction. Sensor obstructed or faulty. 	<ul style="list-style-type: none"> Ensure power cable is securely plugged into the cabinet and a working outlet. Test the outlet with another device. Ensure the sensor is clear of obstructions. Contact support if the sensor appears faulty.
Lights do not change color or brightness.	<ul style="list-style-type: none"> Touch button not responding. Control unit malfunction. 	<ul style="list-style-type: none"> Ensure you are pressing/long-pressing the touch button correctly. If the issue persists, contact customer support.
Cabinet feels unstable or wobbles.	<ul style="list-style-type: none"> Screws are loose. Anti-tipping device not installed or secured. Uneven floor surface. 	<ul style="list-style-type: none"> Check and tighten all assembly screws. Ensure the anti-tipping device is properly installed and secured to a wall stud. Place shims under the cabinet legs if the floor is uneven.
Doors are difficult to open/close.	<ul style="list-style-type: none"> Magnetic catches misaligned or too strong. Hinges are stiff. 	<ul style="list-style-type: none"> Check alignment of magnetic catches. Adjust if possible. Apply a small amount of silicone lubricant to hinges if they are stiff.
