Aheaplus closet-system-ZP1

Aheaplus Closet System with 6 Drawers (Model: closet-system-ZP1)

Instruction Manual

INTRODUCTION

Thank you for choosing the Aheaplus Closet System. This manual provides essential information for the safe assembly, operation, and maintenance of your new 4.5ft wood closet organizer system with 6 drawers. Please read these instructions carefully before beginning assembly and retain them for future reference.

SAFETY INFORMATION

- **Two-Person Assembly:** Assembly requires two people for safety and ease of installation.
- **Anti-Tip Kits:** Always install the included anti-tip kits to secure the closet system to the wall. This is crucial for preventing tipping, especially in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 600 lbs per unit and 100 lbs per hanging rod. Overloading can cause damage or injury.
- **Stable Surface:** Ensure the closet system is placed on a flat, stable, and level surface.
- **Component Check:** Before assembly, verify all parts are present and undamaged. Do not proceed with assembly if any parts are missing or broken.
- **Tool Use:** Use appropriate tools as specified in the assembly instructions.

PACKAGE CONTENTS

Your Aheaplus Closet System is delivered in two boxes. Please ensure all components listed below are present before beginning assembly.

- Wood Panels (various sizes for frame, shelves, and drawers)
- 6 Drawer Units (pre-assembled or requiring minor assembly)
- 2 Hanging Rods
- Drawer Slides and Hardware
- Metal Handles for Drawers
- Assembly Hardware (screws, dowels, cam locks, etc.)
- 2 Anti-Tip Kits
- Instruction Manual (this document)

SETUP AND ASSEMBLY

Two-person assembly is recommended. All parts are clearly labeled, and hardware is included. Please follow the steps below carefully.

1. **Prepare the Area:** Clear a spacious, clean, and level area for assembly. Lay out all components and hardware, ensuring they match the parts list.
2. **Assemble Base Frames:** Begin by assembling the base frames for both closet units. Connect the

side panels to the bottom panels using the provided hardware (e.g., cam locks and dowels).

3. **Install Drawer Slides:** Attach the drawer slides to the interior side panels of the closet units according to the pre-drilled holes. Ensure they are level and aligned.
4. **Assemble Drawers:** Assemble the six drawer units. Attach the metal handles to the drawer fronts. Insert the assembled drawers into the installed slides.
5. **Attach Top Panels and Shelves:** Secure the top panels to the assembled units. Install any adjustable shelves into their desired positions.
6. **Install Hanging Rods:** Insert the two hanging rods into the designated supports within each closet unit.
7. **Position Units:** Carefully move the two assembled closet units to their final desired location. The modular design allows for flexible arrangement.
8. **Secure with Anti-Tip Kits:** Attach the anti-tip kits to the top rear of each closet unit and secure them to a wall stud using appropriate wall anchors and screws. This step is critical for stability.

OPERATING INSTRUCTIONS

The Aheaplus Closet System is designed for versatile storage. Utilize its features as follows:

- **Hanging Rods:** Use the sturdy hanging rods for garments. The system includes rods for both long items (dresses, coats) and shorter items (shirts, jackets).
- **Drawers:** The six smooth-gliding drawers are ideal for organizing folded clothing such as underwear, socks, and T-shirts, or for accessories.
- **Open Shelves:** The open shelves below each drawer unit can accommodate shoes, bags, or storage bins.
- **Top Surfaces:** The spacious tops of the units can be used for display, additional storage, or as a countertop for personal items.
- **Modular Design:** The 2-in-1 modular design allows for rearrangement or expansion with additional units (sold separately) to fit various closet sizes or room layouts.

MAINTENANCE AND CARE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood material.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.
- **Avoid Overloading:** Do not place excessive weight on shelves or hanging rods beyond their specified capacity.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration of the wood finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit wobbles or is unstable.	Not on a level surface; fasteners are loose; anti-tip kits not installed or improperly secured.	Ensure the unit is on a level surface. Tighten all assembly fasteners. Install or properly secure the anti-tip kits to a wall stud.
Drawers do not slide smoothly.	Drawer slides are misaligned; debris in slides; drawer overloaded.	Check alignment of drawer slides and re-adjust if necessary. Clean any debris from the slides. Reduce the weight in the drawer.
Missing parts or damaged components upon arrival.	Manufacturing error or shipping damage.	Do not proceed with assembly. Contact Aheaplus customer support immediately for replacement parts.
Hanging rod sags.	Overloaded rod.	Reduce the number or weight of garments on the rod. Ensure the rod is properly seated in its supports.

SPECIFICATIONS

Model Number: closet-system-ZP1
