COMPATIBILITY

This adapter is designed for vehicles equipped with factory-installed wired Apple CarPlay. It is not compatible with cars that have built-in wireless CarPlay or vehicles without a touchscreen. Specifically, it is not compatible with BMW or Tesla vehicles.

- **Wireless CarPlay:** Supports iPhone 6 and newer models running iOS 10 or above.
- **Wireless Android Auto:** Supports Android devices running Android 11 or above.

Wide Compatibility

Wireless Carplay:

Support iPhone 6 and above,
iOS 10 and above

Wireless Android Auto:

Support Android 11.0 and above phone

Note:

1. Only for OEM wired CarPlay Car.
2. Not fit for cars with built-in wireless CarPlay and cars without touch screen, like MAZDA/TESLA/BMW.

SETUP INSTRUCTIONS

1. **Connect the Adapter:** Plug the MTAKYA GT4S-N4 adapter into your car's USB port (the one typically used for wired CarPlay). Use the appropriate USB-C to USB-C or USB-C to USB-A cable provided.
2. **Access CarPlay/Android Auto:** On your car's infotainment screen, select the "CarPlay" or "Android Auto" option.
3. **Enable Bluetooth and Wi-Fi:** On your smartphone, ensure both Bluetooth and Wi-Fi are enabled.
4. **Pair with Adapter:** Search for the adapter's Bluetooth name (e.g., "HI-BOX" or similar, as indicated on your car screen or adapter) on your phone and select "Pair." Confirm any pairing requests on both your phone and car screen.
5. **Allow Permissions:** If prompted, allow necessary permissions for contacts and favorites sync.
6. **Automatic Connection:** The adapter will automatically connect to your phone, and wireless CarPlay or Android Auto will start. This process typically takes 10-15 seconds.

Image: A three-step visual guide demonstrating how to connect the adapter to the car's USB port, enable Bluetooth and Wi-Fi on the phone, and confirm pairing to initiate wireless CarPlay or Android Auto.

OPERATING INSTRUCTIONS

Wireless CarPlay / Android Auto

Once connected, your car's display will show the familiar CarPlay or Android Auto interface. You can navigate using your car's original control methods:

- **Touch Screen Control:** Interact directly with the car's touchscreen.
- **Steering Wheel Control:** Use your vehicle's steering wheel buttons for audio, calls, and navigation.
- **OEM Knob Control:** Utilize the original equipment manufacturer (OEM) control knob, if available.
- **Voice Control:** Activate voice assistants (Siri for CarPlay, Google Assistant for Android Auto) for hands-free operation.

Using Built-in Netflix and YouTube

The adapter includes pre-installed Netflix and YouTube applications. To use these services:

1. Ensure the adapter is connected to a Wi-Fi network or a mobile hotspot from your phone.
2. Select the Netflix or YouTube icon from the adapter's main interface on your car screen.
3. Log in to your respective accounts to access content.

Note: You cannot use Apple CarPlay/Android Auto and streaming services like YouTube/Netflix simultaneously. Switching between modes is required.

Built-in YouTube and NETFLIX

Have Car Theater experience

Offline Media Playback (TF Card)

The adapter features a TF (MicroSD) card slot, allowing you to play videos and music offline without an internet connection.

1. Insert a TF card containing your media files into the designated slot on the adapter.
2. Access the media player application on the adapter's interface to browse and play your content.

Image: A close-up of the adapter with a TF card inserted, illustrating the offline media playback capability. Also shows screen mirroring from a phone to the car display.

Screen Mirroring

The adapter supports screen mirroring, allowing you to display your smartphone's screen directly onto your car's infotainment system.

Refer to the adapter's on-screen menu for specific instructions on activating and configuring screen mirroring for your device (iOS or Android).

MAINTENANCE

To ensure the longevity and optimal performance of your MTAKYA GT4S-N4 adapter, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures.
- **Firmware Updates:** Periodically check for firmware updates. Updates can improve performance, add features, and resolve issues. Follow the instructions provided by the manufacturer for updating the device.

TROUBLESHOOTING

If you encounter issues with your MTAKYA GT4S-N4 adapter, please refer to the following common solutions:

1. Device Not Connecting to Phone's Bluetooth:

- Unplug the device from the car and reconnect it.
- On your phone, turn off Bluetooth, "forget" the device, then turn Bluetooth back on and reconnect.
- Delete the connection history on your car's screen and attempt to reconnect.

2. Bluetooth/Wi-Fi/Hotspot Connection Automatically Turns On and Off:

- On your phone, turn off "Do not disturb mode" and restart the phone.
- Check for and apply any available device firmware updates.

3. Connected to Wi-Fi but Screen Shows "No Network":

- On your car screen, navigate to "Settings" -> "Date & Time" and ensure "Use network-provided time" is enabled.

4. Netflix/YouTube Issues (e.g., stops working on full-screen):

- Ensure a stable Wi-Fi or hotspot connection.
- Restart the application or the adapter.
- Check for firmware updates for the adapter.

5. Bluetooth Call Lag:

- Disconnect and reconnect the Bluetooth connection.
- Ensure your phone's operating system and the adapter's firmware are up to date.

6. Adapter Overheating:

- Ensure the adapter is placed in a well-ventilated area and not covered.
- If overheating persists, discontinue use and contact customer support.

If these steps do not resolve your issue, please contact customer support.
