3. PRODUCT FEATURES

3.1 VGR 001 Hair Clipper

The VGR 001 hair clipper features high-density carbon steel blades for precise cuts. It is equipped with a powerful motor offering 7,000–9,000 RPM and 21 adjustable speed settings. The clipper includes 10 guide combs and a 5-position adjustable taper lever, allowing cutting lengths from 1mm to 27mm. Powered by a 4600mAh battery, it provides up to 300 minutes of runtime after a 3-hour charge.

3.2 VGR 977 Hair Trimmer

The VGR 977 hair trimmer is designed with high-density carbon steel T-shaped blades for sharp and detailed trimming. It operates at speeds from 6000 to 8000 RPM and comes with 4 guide combs (1.5mm to 6mm). Its 2500mAh battery offers at least 260 minutes of runtime after a 1.5-hour charge. An ultra-large LED display shows real-time battery and speed control.

3.3 VGR 378 Foil Shaver

The VGR 378 foil shaver features a three-blade system with hypoallergenic titanium foils for a smooth, irritation-free shave.

With adjustable speeds from 7000 to 9000 RPM, it provides a close shave for beards, mustaches, and necklines. The 1400mAh battery offers no less than 120 minutes of cordless runtime after 2 hours of charging, with a digital LED display for battery monitoring.

3.4 VGR 401 Hair Dryer

The VGR 401 hair dryer utilizes a high-power 1600-1900W brushless motor for ultra-fast drying. Negative ionic technology helps eliminate frizz and enhance shine. It offers 40 temperature and 40 speed settings for full control. The sleek design includes magnetic attachments like a diffuser and concentrator, and it operates quietly.

4. SETUP

4.1 Initial Charging

Before first use, fully charge each cordless device. Place the hair clipper, trimmer, and foil shaver onto the multi-device charging dock. Connect the hair dryer to its stand and plug the adapter into a power outlet. The LED displays on each device will indicate charging status and battery life. The hair clipper requires approximately 3 hours for a full charge, the trimmer 1.5 hours, and the shaver 2 hours.

Figure 8: The multi-device charging station with tools indicating charging status.

4.2 Attaching Guide Combs

Select the desired guide comb for your preferred hair length. For the hair clipper, choose from 10 cutting guides (1.5mm to 24mm). For the trimmer, select from 4 guide combs (1.5mm to 6mm). Ensure the comb is securely attached to the blade before use.

5. OPERATING INSTRUCTIONS

5.1 Hair Clipper (VGR 001)

1. Turn on the clipper using the power button.
2. Adjust the speed using the rotary knob (7000-9000 RPM, 21 settings).
3. Use the taper lever to fine-tune cutting length (1mm to 27mm with combs).
4. Move the clipper against the direction of hair growth for an even cut.

5.2 Hair Trimmer (VGR 977)

1. Activate the trimmer via its power button.
2. Select desired speed (6000-8000 RPM) for precision trimming.
3. Use without a comb for zero-gap detailing or with guide combs for specific lengths.
4. Ideal for creating sharp lines and intricate designs.

5.3 Foil Shaver (VGR 378)

1. Turn on the shaver.
2. Adjust speed (7000-9000 RPM) for comfort and closeness.
3. Gently glide the shaver over the skin, stretching the skin taut for best results.
4. Designed for a bump-free, close shave on facial hair and necklines.

5.4 Hair Dryer (VGR 401)

1. Connect the hair dryer to its stand and power source.
2. Select desired temperature and speed settings (40 options each).
3. Attach the diffuser for curly hair or concentrator for targeted drying and styling.
4. Utilize ionic technology to reduce frizz and enhance shine.

Adjustable Speed for Maximum Precision

Clipper: 7000–9000 RPM
Trimmer: 6000–8000 RPM
21 speeds (in **100** RPM increments)
can be adjusted by turning the center knob,
making it easy to trim any hairstyle.

6. MAINTENANCE

6.1 Cleaning

Always unplug and turn off the device before cleaning. Use the provided cleaning brush to remove hair clippings from the blades and foils after each use. For the hair dryer, ensure the air intake and outlet are free from dust and debris.

6.2 Lubrication

Regularly apply a few drops of the lubricating oil to the blades of the hair clipper and trimmer to maintain optimal cutting performance and extend blade life. This helps prevent blades from becoming dull.

6.3 Storage

Store all components in the provided travel case to keep them organized and protected from damage. Ensure blades are covered when not in use.

7. TROUBLESHOOTING

If you encounter any issues with your VGR grooming kit, please refer to the following common solutions:

- **Device not turning on:** Ensure the device is fully charged. Check the power button for proper engagement.
- **Poor cutting performance:** Clean the blades and apply lubricating oil. Ensure guide combs are correctly attached. Blades may need sharpening or replacement if excessively dull.
- **Overheating:** Ensure proper ventilation for the hair dryer. Clean any blockages in the air intake/outlet. Allow devices to cool down between uses.
- **Battery not charging:** Verify the charging dock and adapter are correctly connected and plugged into a working power outlet. Check for any damage to cables or charging ports.

For further assistance, please contact VGR customer support.

8. SPECIFICATIONS

Feature	Detail
Model Number	YS-V4 in 1-Red-US
Package Dimensions	19.75 x 13.25 x 5.25 inches
Item Weight	5.26 Kilograms (11.6 Pounds)
Batteries	3 C batteries required (included)
Power Source	Battery Powered
Blade Material	Carbon Steel
Material Type	Alloy Steel, Plastic, Stainless Steel
Hair Type	All
Special Features	Cordless, Fast Charge, LED Display, Pause Button on Handle, Rechargeable

10. SAFETY INFORMATION

Please read and adhere to the following safety guidelines:

- Always unplug and turn off the device before cleaning.
- Do not use near water or immerse any electrical components in water.
- Keep away from eyes and face during operation.
- Do not ingest or inhale small parts.
- Dispose of batteries according to local regulations.
- Always supervise children when using the kit.
- Keep blades sharp and store safely out of reach of children.
