

## Ninja FN090

# Ninja FN090 Crispi 3-in-1 4QT Portable Cooking System User Manual

Model: FN090 | Brand: Ninja

## INTRODUCTION

The Ninja FN090 Crispi 3-in-1 4QT Portable Cooking System is designed for versatile and convenient cooking. This innovative system combines Max Crisp, Air Fry, and Recrisp functionalities within a compact design, utilizing durable TempWare glass containers for healthy and efficient meal preparation. Its easy storage and fixed heat protection features make it a practical addition to any kitchen.

## IMPORTANT SAFETY INFORMATION

- **Thermal Shock Resistance:** The high-grade borosilicate TempWare glassware is designed to withstand extreme temperature changes from 22°F to 450°F, allowing safe transfer from freezer to cooking.
- **Fixed Heat Protection:** The unit features permanently fixed heat-safe feet, enabling safe placement on various countertop surfaces including granite, laminate, quartz, butcher block, and marble.
- **PFAS-Free Cooking Surface:** The glass cooking surface is made 100% PFAS-free for peace of mind during cooking.
- **PowerPod Cleaning:** Do not submerge the PowerPod in water. Wipe clean with a damp cloth.

## COMPONENTS

Your Ninja FN090 Crispi system includes the following parts:

- **Crispi PowerPod:** The main heating and control unit.
- **4 QT TempWare Container:** A large borosilicate glass container suitable for cooking up to a 4-lb chicken and vegetables.

- **Smaller TempWare Container:** A smaller borosilicate glass container for smaller batches or individual portions.
- **Crisper Plate:** Designed to elevate food for optimal air circulation and crisping, allowing oils to drain below.
- **Storage Lids:** Included for both TempWare containers, allowing cooked food to be stored directly in the containers.
- **Adapter:** Used to securely fit the PowerPod onto the larger 4 QT TempWare container.

## Complete cooking system

Ninja CRISPi™ PowerPod™, big-batch  
4-qt container, adapter, and storage lid.

### SETUP

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Wash Containers:** Before first use, wash the TempWare glass containers, crisper plate, and storage lids with warm, soapy water or in a dishwasher. Ensure they are completely dry.
3. **Place Heat Mat:** Position the heat-safe silicone mat on a stable, flat countertop surface.
4. **Assemble Container:** Place the desired TempWare glass container onto the heat-safe feet. Insert the crisper plate into the container if you intend to air fry or max crisp.
5. **Attach PowerPod:**
  - For the smaller container, simply place the PowerPod directly on top of the container.
  - For the larger 4 QT container, first place the adapter onto the container, ensuring it clicks securely. Then, place the PowerPod onto the adapter.
6. **Plug In:** Plug the PowerPod into a standard 120V electrical outlet.

### OPERATING INSTRUCTIONS

The Ninja FN090 Crispi offers multiple cooking modes for diverse culinary needs.

Control Panel Overview

Fixed heat protection

Cook and serve safely on granite, laminate, quartz, butcher block, marble, and more.

Image: The digital control panel of the Ninja Crispi, showing various cooking modes and time adjustment buttons.

- **Mode Button:** Press to cycle through available cooking functions: Bake, Recrisp, Air Fry, Max Crisp, Keep Warm.
- **+/- Buttons:** Adjust the cooking time.
- **Start Button:** Begin the cooking cycle.

Cooking Modes

| Mode    | Temperature Range | Recommended Time | Description                                    |
|---------|-------------------|------------------|------------------------------------------------|
| Recrisp | 355-380°F         | 5-10 minutes     | Revive your leftovers with renewed crispiness. |
| Bake    | 350-380°F         | 10-15 minutes    | Gentle heat for all your baked treats.         |
| Air Fry | 360-400°F         | 20-25 minutes    | Give your food crispiness and crunch.          |

| Mode      | Temperature Range | Recommended Time | Description                            |
|-----------|-------------------|------------------|----------------------------------------|
| Max Crisp | 380-415°F         | 15-20 minutes    | Best for frozen favorites.             |
| Keep Warm | 150-175°F         | 1-60 minutes     | Keep meals at the perfect temperature. |

## General Cooking Tips

- **Pre-heating:** The Ninja Crispi does not require pre-heating, saving time.
- **Oil Application:** For best results, lightly brush food with oil before cooking, especially for air frying and max crisping. The crisper plate allows excess oil to drain.
- **Flipping Food:** For even cooking and crisping, it is recommended to flip or shake your food halfway through the cooking cycle. Use silicone utensils to avoid scratching the glass.
- **Batch Cooking:** When cooking multiple batches, the PowerPod will already be hot. Reduce cooking time slightly for subsequent batches.

## MAINTENANCE

### Cleaning

- **TempWare Containers & Lids:** The glass containers, crisper plate, and storage lids are dishwasher safe for easy cleanup.
- **PowerPod:** The PowerPod unit is not dishwasher safe. After each use, ensure the unit is unplugged and cooled. Wipe the exterior and interior heating element with a damp cloth. Do not submerge in water.
- **Base Cleaning:** The plastic base of the TempWare containers is permanently attached. Ensure to clean thoroughly in between the glass and plastic components to prevent food residue buildup.

### Storage

The Ninja Crispi PowerPod and TempWare glassware are designed for easy storage, fitting conveniently in cabinets to keep countertops clear.

## Glass cooking surface made 100% PFAS free

Cook with peace of mind.
