## SETUP AND INSTALLATION

Professional installation is recommended for this car stereo. Ensure the vehicle's power is disconnected before beginning installation. Refer to the wiring diagram provided in the included user manual for specific connections.

### Wiring Connections

- **Power Cable:** Connect the power cable to the vehicle's electrical system according to the diagram.
- **RCA Cable:** Use for audio/video output to external displays or amplifiers.
- **USB Cables:** Connect USB devices for media playback or phone charging.
- **Rear Camera Input Cable:** Connect your rear view camera for automatic display when reversing.
- **Radio Antenna:** Connect the vehicle's radio antenna.
- **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky for optimal signal reception.

### Steering Wheel Control (SWC) Setup

Upon connecting the Canbus (if applicable), configure the Canbus settings correctly to enable steering wheel control functionality. Follow these steps:

1. Go to **Settings**.
2. Select **Factory Setup**.
3. Enter the password **1234**.
4. Navigate to **Car settings**.
5. Select **Hiworld + your car's year and model**.
6. Proceed to **"Steering Learning"** under Factory Setting to finalize the steering wheel button learning process.

## OPERATING INSTRUCTIONS

### Touchscreen Operation

The device features a 6.9-inch capacitive touchscreen with a resolution of 1280\*600, providing flexible and responsive touch

control for all functions.

## Wireless CarPlay and Android Auto

Connect your smartphone wirelessly or via USB to access CarPlay or Android Auto. This allows for voice control using commands like "Hey Siri" or "Hey Google" for navigation, calls, music, and other applications.

Image: The car stereo displaying the Wireless CarPlay and Android Auto interface, showing app icons and connectivity features.

## GPS Navigation

The unit includes a GPS antenna and supports both online and offline maps. Download maps for offline use or connect to WiFi for real-time navigation and traffic updates. Popular navigation apps are supported.

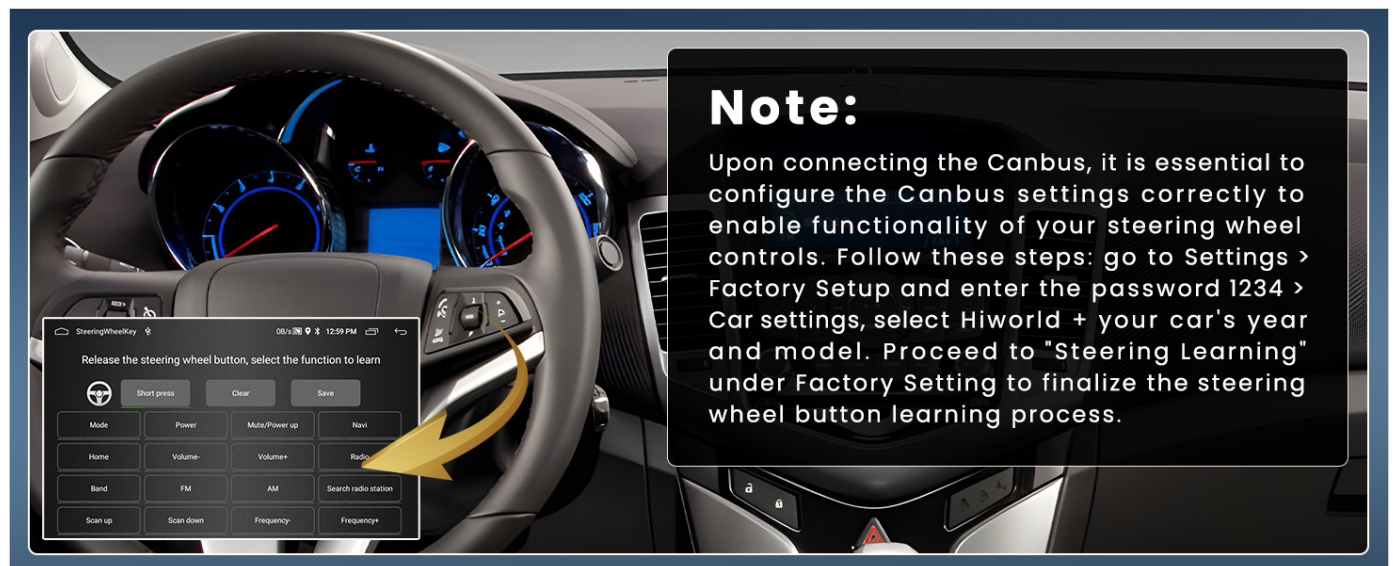

Image: The car stereo displaying a GPS navigation map with route information and estimated time of arrival.

## WiFi Connection

Connect the car stereo to a Wi-Fi network or a mobile hotspot to access the internet. This enables browsing, streaming, and using online applications like YouTube, TikTok, and Spotify.

## WiFi Connection

The Android car stereo features a built-in WiFi receiver and is compatible with home WiFi networks or phone hotspot connections.

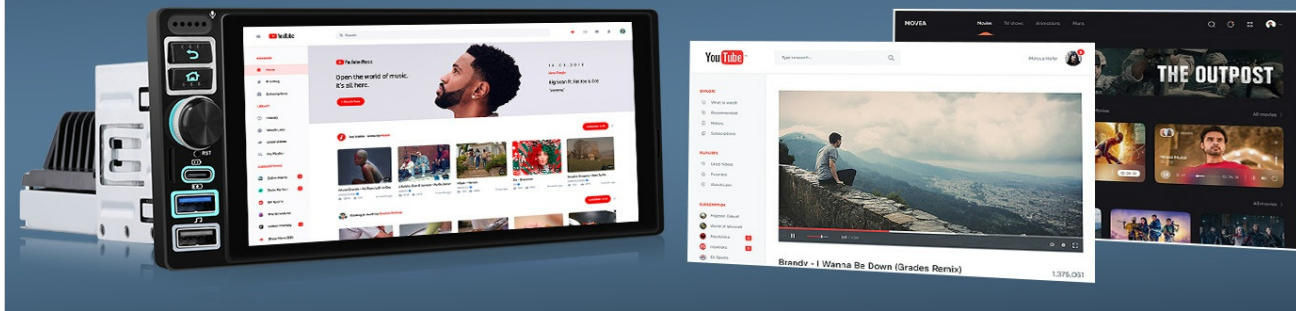

Image: The car stereo displaying the WiFi connection interface and examples of internet browsing and video streaming on popular platforms.

## Bluetooth Functionality

Utilize Bluetooth 4.0 for hands-free calling, phonebook synchronization, and wireless music streaming from your smartphone.

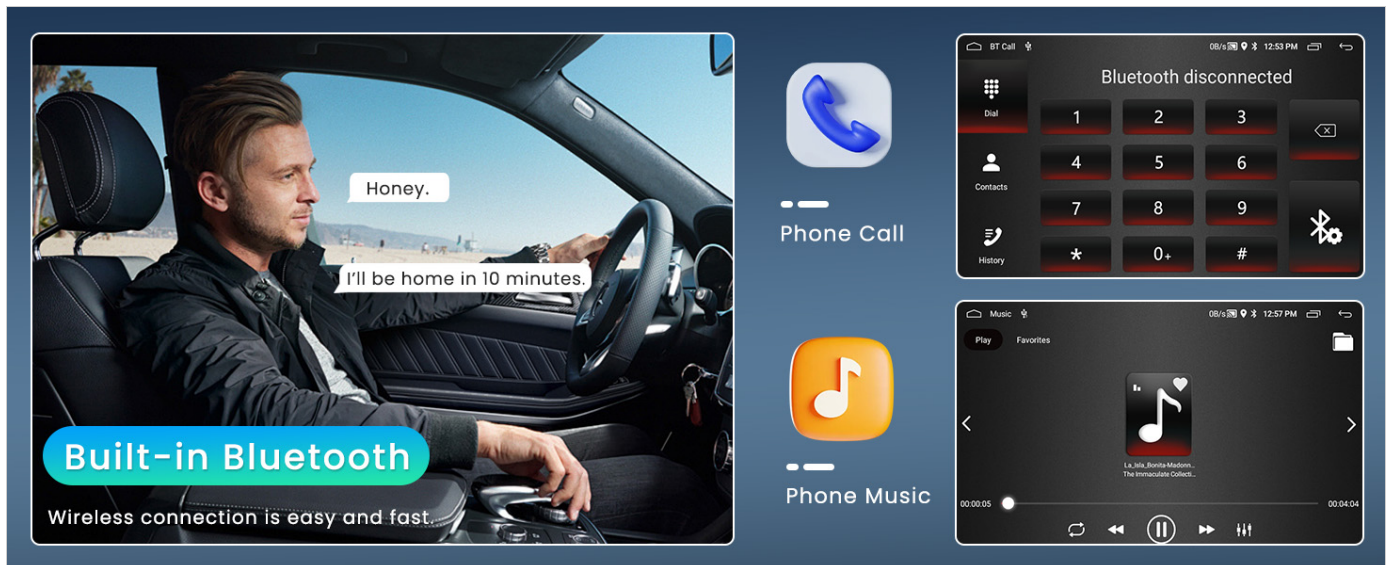

Image: The car stereo displaying the Bluetooth interface for phone calls and music playback, with a driver making a hands-free call.

## FM/RDS Radio

Access FM radio with RDS (Radio Data System) for station information. The radio offers 30 preset stations and automatic channel search.

## FM/RDS Radio

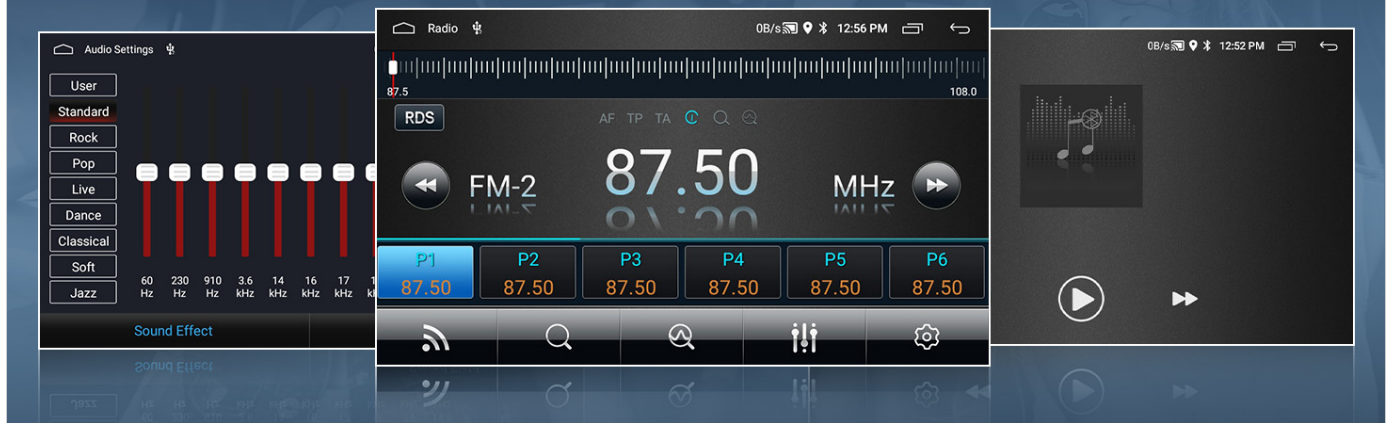

Image: The car stereo displaying the FM/RDS radio interface, showing frequency tuning and equalizer settings for audio customization.

## Mirror Link

Use the Mirror Link function to project your smartphone's screen onto the car stereo display, allowing you to view and interact with your phone's content directly on the larger screen.

Image: The Mirror Link feature demonstrated, showing a smartphone screen mirrored onto the car stereo display.

## Reversing Camera Input

When the vehicle is in reverse, the system automatically switches to the rear camera view, providing a clear image for safer parking and maneuvering. The system supports HD, waterproof, night vision cameras with a 170° viewing angle.

## Video

Use an RCA cable to connect the headrest, allowing your child to watch their favorite cartoons during travel, keeping them entertained and giving parents peace of mind.

## MAINTENANCE

To ensure the longevity and optimal performance of your Inefala car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for available software updates to ensure the system runs efficiently and has the latest features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

## TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common problems and solutions:

- **No Power:** Check all power connections and the vehicle's fuse box. Ensure the ignition is on.
- **No Sound:** Verify speaker connections, volume levels, and audio settings (e.g., equalizer, balance).
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (refer to the settings menu).
- **GPS Signal Loss:** Ensure the GPS antenna is properly connected and has a clear view of the sky. Move the vehicle to an open area if necessary.
- **CarPlay/Android Auto Connection Issues:** Check USB cable connections (if wired) or ensure Bluetooth and WiFi are enabled on your phone and the stereo (if wireless). Restart both devices.
- **Slow Performance:** Close unnecessary applications running in the background. Clear cache if available in system settings.

For persistent issues not covered here, please contact customer support.

## WARRANTY AND SUPPORT

Your Inefala car stereo comes with a **24-month warranty** for online consultation service, with a response guaranteed within 48 hours.

### Customer Support

For technical assistance or warranty claims, please contact Inefala customer support. You can typically find contact information in the included user manual or on the official Inefala website.
