

Mixcous MIX-M-LTOFB

Mixcous Twin Over Full Bunk Bed Instruction Manual

Model: MIX-M-LTOFB | Brand: Mixcous

1. SAFETY INFORMATION

WARNING: Ensure proper assembly to prevent instability. Do not exceed the weight capacity of 400 lbs (top bunk) and 600 lbs (bottom bunk).

- Always follow assembly instructions carefully.
- Regularly check all fasteners and tighten as necessary.
- Ensure guardrails are securely in place on the top bunk.
- Use only mattresses that comply with the recommended thickness and dimensions to ensure proper guardrail height.
- Do not allow children under 6 years of age on the upper bunk.

2. PRODUCT OVERVIEW

The Mixcous Twin Over Full Bunk Bed is designed to maximize space and provide a sturdy sleeping solution. This heavy-duty metal bed frame is suitable for both adults and children, featuring a twin-sized upper bunk and a full-sized lower bunk. Its robust construction and thoughtful design ensure safety and comfort.

Key Features:

- **Space-Saving Design:** Twin over full size layout ideal for shared rooms or smaller spaces.
- **Heavy-Duty Steel Frame:** Constructed with reinforced metal and a rust-proof finish, supporting 400 lbs (top) and 600 lbs (bottom).
- **EVA Padded Ladder:** Features an EVA padded ladder for secure and comfortable climbing.
- **Full-Length Guardrails:** 12-inch high guardrails on the upper bunk enhance safety.
- **Noise-Free Operation:** Special foam padding between slats and beams reduces friction for quiet sleep.
- **No Box Spring Needed:** Sturdy metal slats provide ample mattress support.

3. PACKAGE CONTENTS

Before beginning assembly, ensure all parts listed in the instruction manual are present and undamaged. The package typically includes:

- Metal frame components (headboards, footboards, side rails, support beams, slats)
- EVA padded ladder
- Full-length guardrails
- Hardware kit (screws, washers, nuts, Allen wrench)
- Plastic caps and foam padding
- Assembly instruction manual

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically requires two people and takes approximately 2 hours. Follow the numbered steps in the provided manual and refer to the assembly video for visual guidance.

Step-by-Step Assembly:

1. **Prepare the Area:** Clear a spacious area for assembly. Unpack all components and lay them out, verifying against the parts list.
2. **Assemble Bed Ends:** Connect the vertical posts (parts 1, 2) with the horizontal support bars (parts 4, 14) using the specified screws and washers (e.g., F, E+I). Ensure all connections are secure.
3. **Attach Side Rails:** Connect the long side rails (part 3) to the assembled bed ends using the appropriate hardware (e.g., A+I, B+I, G).
4. **Install Bottom Slats:** Insert the plastic caps (part N) into the designated slots on the side rails. Place the bottom bed slats (part 6) into these caps, ensuring they are evenly spaced and secure. Attach the central support bar (part 7) and its legs (part 13) to the bottom frame.
5. **Install Top Slats:** Repeat the process for the top bunk slats (part 5), ensuring they are properly seated and secured.
6. **Attach Guardrails:** Securely attach the full-length guardrails (parts 8, 9) to the upper bunk frame using the specified screws (e.g., C).
7. **Assemble and Attach Ladder:** Assemble the ladder components (parts 10, 11) with the padded steps (part P) and secure the ladder to the bunk bed frame using the designated hooks and screws (e.g., D, H).

8. **Final Checks:** Once fully assembled, double-check all screws and connections to ensure they are tight and secure.

Safe and Non-Slip Ladder

Provide better grip with an anti-slip design for safe climbing.

Image: Details of the heavy-duty low twin over full bunk bed construction, highlighting solid steel, noise-free slats, extra support legs, and noise-free baffles.

Noise-Free & Sturdy Metal Slats

Sturdy bed frame with soundproof foam pads to prevent noise from slats moving.

Image: Illustration showing the 12-inch high full-length guardrail designed to prevent falls from the upper bunk.

Noise-free Baffles

Sturdy and durable metal bunk bed with electrostatic powder coating and noise-free baffles.

5. OPERATING INSTRUCTIONS

This bunk bed is designed for safe and comfortable use when following the guidelines below:

- **Weight Capacity:** The upper bunk has a maximum weight capacity of 400 lbs. The bottom bunk has a maximum

weight capacity of 600 lbs. Do not exceed these limits.

- **Mattress Use:** No box spring is required. Place your twin mattress directly on the upper slats and your full mattress on the lower slats. Ensure mattresses fit snugly within the frame.
- **Ladder Usage:** Always use the provided ladder for accessing the upper bunk. Ensure the ladder is securely attached before climbing.
- **Guardrails:** The upper bunk is equipped with full-length guardrails for safety. Ensure they are always in place and undamaged.
- **Space-Saving Design:** The generous height between bunks allows for comfortable sitting on the lower bunk without hitting one's head.

6. MAINTENANCE

To ensure the longevity and safety of your Mixcous bunk bed, regular maintenance is recommended:

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Fastener Checks:** Periodically inspect all bolts, screws, and connections. Tighten any loose fasteners to maintain structural integrity and prevent squeaking.
- **Slats:** Ensure all metal slats are properly seated and the foam padding is intact to maintain noise-free operation.
- **Ladder and Guardrails:** Check the ladder and guardrails for any signs of wear or damage. Replace any compromised parts immediately.

7. TROUBLESHOOTING

If you encounter any issues with your bunk bed, refer to the following common solutions:

- **Squeaking Noises:** If the bed makes squeaking noises, check all connections and tighten any loose bolts. Ensure the foam padding between the slats and beams is correctly positioned.
- **Instability/Wobbling:** This usually indicates improper assembly or loose fasteners. Re-check all connections according to the assembly instructions and tighten them securely. Ensure the bed is placed on a level surface.
- **Ladder Issues:** If the ladder feels unstable, ensure it is correctly hooked onto the upper bunk and all screws securing it are tight.
- **Missing Parts:** If any parts were missing upon delivery, contact customer support immediately with your purchase details.

8. SPECIFICATIONS

Feature	Detail
Size	Twin Over Full
Product Dimensions	74.8"L x 55.9"W x 53.7"H
Material	Metal
Color	Black
Finish Type	Powder Coated
Upper Bed Weight Capacity	400 lbs
Bottom Bed Weight Capacity	600 lbs
Compatible Mattress Size	Twin, Full

Assembly Required	Yes
Item Weight	98 pounds
Model Number	MIX-M-LTOFB

9. WARRANTY AND SUPPORT

For any questions, concerns, or to report missing/damaged parts, please contact Mixcous customer support. Refer to your purchase documentation for specific warranty details and contact information.

You can typically find customer support contact details on the retailer's website or within the packaging materials.
