SAVIOR HEAT S66B

SAVIOR HEAT S66B Heated Gloves User Manual

Model: S66B

INTRODUCTION

The SAVIOR HEAT S66B Heated Gloves are designed to provide warmth and comfort during cold-weather activities. Featuring rechargeable batteries and adjustable heat settings, these gloves are suitable for various outdoor pursuits.

Figure 1: SAVIOR HEAT S66B Heated Gloves, front and back view.

PACKAGE CONTENTS

- 1x Pair Heated Gloves
- 2x 7.4V 2200mAh Rechargeable Li-ion Batteries
- 1x Dual Charger
- 1x User Manual
- 1x Carry Bag

SETUP

1. Charging the Batteries

Before first use, fully charge both 7.4V 2200mAh Li-ion batteries. Use the provided dual charger. The charging process typically takes 2-4 hours.

Battery Maintenance

Charge the batteries every 3 months to keep it function well

Figure 2: Connect batteries to the dual charger and plug into a power source. Ensure batteries are fully charged before initial use.

2. Inserting Batteries

Locate the zippered pocket on the cuff of each glove. Insert a fully charged battery into each pocket and connect it to the plug inside the pocket.

Figure 3: Battery insertion and connection process.

After connecting, close the zipper to secure the battery.

OPERATING INSTRUCTIONS

1. Power On/Off and Heat Adjustment

The gloves feature a control button on the back of the hand for easy operation.

- To Power On:** Press and hold the ON/OFF button for 3 seconds. The indicator lights will illuminate, typically starting at the highest heat setting.
- To Adjust Heat Level:** Short press the ON/OFF button to cycle through the three heat settings: High, Medium, and Low.
- To Power Off:** Press and hold the ON/OFF button for 3 seconds until the indicator lights turn off.

3 HEAT LEVELS

Press & hold down 3s to Start Heating

HIGH

140°F/60°C

2-2.5Hours

MEDIUM

122°F/50°C

4-5Hours

LOW

104°F/40°C

7-8Hours

*Tested at room temperature

Figure 4: Control button and heat level indicators on the glove.

2. Heating Temperature and Working Times

Setting	Temperature	Approximate Duration
High (3 lights)	60°C / 140°F	2 hours
Medium (2 lights)	50°C / 122°F	4 hours
Low (1 light)	40°C / 104°F	6 hours

Note: Actual battery duration may vary based on external temperature and usage.

3. Touchscreen Functionality

The index finger of each glove is equipped with touchscreen-compatible material, allowing you to operate smartphones or other touch devices without removing your gloves.

Figure 5: Touchscreen-compatible fingertip for device interaction.

4. Waterproof Feature

The gloves are designed with water-resistant and windproof materials to protect your hands from the elements.

MAINTENANCE

1. Washing Instructions

It is recommended to hand wash the SAVIOR HEAT Heated Gloves. Remove batteries before washing. If the surface is dirty, wipe it clean and air dry. Do not machine wash or tumble dry, as this may damage the heating elements.

Figure 6: Hand washing is recommended for glove maintenance.

2. Battery Maintenance

To prolong battery life, charge the batteries every 2-3 months when not in use. Always fully charge batteries before storing them for extended periods.

Battery Maintenance

Charge the batteries every 3 months to keep it function well

TROUBLESHOOTING

If your gloves are not heating or functioning correctly, please check the following:

- Ensure batteries are fully charged and properly connected inside the glove pockets.
- Verify that the ON/OFF button has been pressed and held for 3 seconds to activate the heating system.
- Check for any visible damage to the battery or charging cables.
- If issues persist, refer to the warranty and support section for further assistance.
