

VOPLLS G3

VOPLLS G3 4K Smart Projector User Manual

Model: G3

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your VOPLLS G3 4K Smart Projector. Please read it thoroughly before using the device and retain it for future reference. The VOPLLS G3 is a versatile smart projector featuring Google TV, 4K input support, auto-focus, auto-keystone correction, Dolby Audio, and extensive connectivity options.

2. WHAT'S IN THE BOX

- VOPLLS G3 Google TV Projector with WiFi and Bluetooth
- 360° rotating stand x 1
- HDMI Cable x 1 (1.5M/4.92ft)
- Power Cord x 1 (2M/6.56ft)
- User Manual
- Remote (Batteries not included)

3. SETUP

3.1 Physical Placement

Place the projector on a stable, flat surface. The integrated 360° rotating stand allows for flexible positioning, including ceiling projection. Ensure adequate ventilation around the projector.

3.2 Power Connection

1. Connect the power cord to the projector's power input.
2. Plug the other end of the power cord into a suitable electrical outlet.
3. Press the power button on the projector or remote control to turn on the device.

3.3 Initial Google TV Setup

Upon first power-on, the projector will guide you through the Google TV setup process. This includes:

- **Language Selection:** Choose your preferred language.
- **Network Connection:** Connect to your Wi-Fi network (supports WiFi 6 for optimal performance).
- **Google Account Login:** Sign in with your Google account to access Google TV features, apps, and personalized recommendations.
- **App Installation:** Follow prompts to install essential streaming applications like Netflix, Disney+, Prime Video, and Hulu.

BUILT-IN GOOGLE TV, ENDLESS ENTERTAINMENT

10,000+ apps, 700,000+ movies & shows, and 800+ free live TV channels - skip the dongles

3.4 Image Adjustment

The VOPLLS G3 features automatic image correction for ease of use:

- **Auto Focus:** The projector automatically adjusts for a sharp image within seconds.
- **Auto Keystone Correction:** Automatically corrects distorted images caused by angled projection.

- **Smart Avoidance:** Detects and adjusts the projection to avoid obstacles like wall outlets or picture frames.
- **Screen Fit:** Automatically scales the image to fit your projection screen.
- **Digital Zoom:** Adjust the image size from 50% to 100% via the settings menu.

4. OPERATING INSTRUCTIONS

4.1 Google TV Interface

The Google TV home screen provides access to all your streaming content. It organizes movies, shows, and live channels based on your viewing habits and offers personalized recommendations. You can create multiple user profiles for separate watch histories and recommendations.

- **Kid-Safe Mode:** Activate this mode to filter content ratings, set viewing time limits, and enable a bedtime lock screen for child safety.
- **App Access:** Use the built-in Google Play Store to download and install over 10,000 applications.

4.2 Voice Control with Google Assistant

The VOPLLS G3 integrates Google Assistant for hands-free control. Press the microphone button on your remote control and speak your commands.

- **Search:** Say "Find movies with [actor's name]" or "Search for [show title] on Netflix."
- **Playback Control:** Use commands like "Play," "Pause," "Fast forward," or "Lower volume."
- **App Launch:** Say "Open YouTube" or "Launch Prime Video."
- **Information:** Ask questions like "What's the weather?" or "Tell me about [topic]."

4.4 Audio Features

The VOPLLS G3 incorporates Dolby Atmos via dual speakers for immersive, multi-directional sound. It also features Bluetooth 5.2 bidirectional connectivity.

- **Movie Mode:** Enjoy rich audio with Dolby Atmos, ensuring clear dialogue and impactful sound effects.

- **Party Mode (Bluetooth Speaker):** The projector can function as a standalone Bluetooth speaker. Connect your phone or other devices to play music without needing to project an image.
- **Wireless Headphones:** Pair zero-lag wireless headphones via Bluetooth for private listening.

4.5 Connectivity

The projector offers various connectivity options:

- **Wireless:** WiFi 6 (5G+2.4G) for fast streaming, Bluetooth 5.2 (two-way).
- **Screen Mirroring:** Supports AirPlay, Miracast, and Chromecast for casting content from iPhone, Android, PC, or Mac devices.
- **Wired Ports:** HDMI and USB ports for connecting game consoles (e.g., PS5, Switch), laptops, USB drives, or external speakers.

4.6 Gaming

Connect gaming consoles like PS5 or Nintendo Switch via the HDMI port for lag-free gaming on a large screen.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the projector's exterior. For the lens, use a specialized lens cleaning cloth and solution.
- **Cooling System:** The projector features a whisper-quiet 30dB dual-fan cooling system. Ensure vents are not obstructed to maintain optimal performance and extend the device's lifespan.
- **LED Light Source:** The advanced LED light source is designed to last up to 100,000 hours, requiring no regular replacement.
- **Software Updates:** The Google TV system receives lifelong updates (OTA) to ensure cutting-edge experiences and security. Ensure your projector is connected to the internet to receive these updates.

6. TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely connected to both the projector and the electrical outlet. Try a different outlet.
- **No Image:** Check that the projector is powered on. Verify the input source (HDMI, streaming app) is correctly selected. Ensure the lens cap is removed.
- **Blurry Image:** The projector has auto-focus. If the image remains blurry, try moving the projector slightly or manually adjusting focus via settings if available. Ensure the lens is clean.
- **Distorted Image:** The projector features auto-keystone correction. If distortion persists, check the projector's angle relative to the screen.
- **No Sound:** Check the volume level on the projector and any connected external audio devices. Ensure the correct audio output is selected in settings. If using Bluetooth, ensure devices are properly paired.
- **Wi-Fi Connection Issues:** Ensure your Wi-Fi network is active and the password is correct. Restart your router and the projector.
- **Remote Control Not Responding:** Check the batteries in the remote control. Ensure there are no obstructions between the remote and the projector.
- **Apps Not Loading/Buffering:** Verify your internet connection speed. Close and reopen the application. Clear the app's cache in the Google TV settings.
