## 4. INSTALLATION GUIDE

Follow these steps carefully for optimal installation of your screen protector:

1. **Preparation:** Clean your device's screen thoroughly using the provided cleaning cloth to remove dust, smudges, and fingerprints. Ensure the screen is completely dry.
2. **Dust Removal:** Use the dust removal sticker (if provided) to pick up any remaining dust particles from the screen.
3. **Alignment:** Carefully peel off the protective layer from the screen protector. Align the screen protector with the edges and cutouts of your Fimi DC19-LER screen.
4. **Application:** Gently lower the screen protector onto the screen. Once it makes contact, it will begin to adhere.
5. **Bubble Removal:** Use the squeegee (if provided) or a soft cloth to push out any air bubbles towards the edges of the screen. For stubborn bubbles, gently lift a corner of the protector and reapply.
6. **Final Cleaning:** Wipe the installed screen protector with the cleaning cloth to remove any smudges

from the installation process.

## 5. CARE AND MAINTENANCE

To maintain the clarity and effectiveness of your screen protector, follow these guidelines:

- Clean the screen protector regularly with a soft, lint-free cloth.
- For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals.
- Do not use abrasive materials or excessive force when cleaning, as this may damage the protector.

## 6. TROUBLESHOOTING

### Common Issues and Solutions

Issue	Solution
Air Bubbles	Gently lift the nearest edge of the screen protector and reapply, pushing the bubble towards the edge with a squeegee or soft card.
Dust Particles Under Protector	If dust is trapped, carefully lift the screen protector near the dust particle using a piece of tape. Use another piece of tape to gently lift the dust from the screen or the protector's adhesive side. Reapply.
Misalignment	If the protector is significantly misaligned, carefully peel it off and reapply, ensuring proper alignment before full adhesion.
