2. SETUP

2.1. Charging the Smartwatch

Before initial use, fully charge your LAXAFIT Q11 smartwatch. The device requires approximately 2 hours for a full charge, providing an average battery life of 15 days depending on usage.

1. Connect the charging cable to the charging port on the back of the smartwatch.
2. Plug the USB end of the cable into a standard USB power adapter (not included) or a computer's USB port.
3. The watch display will indicate charging status.

2.2. Powering On/Off

- **Power On:** Press and hold the side button until the screen illuminates.
- **Power Off:** Navigate to the 'Settings' menu on the smartwatch, then select 'Power Off' and confirm. Alternatively, press and hold the side button for several seconds and select 'Power Off' if prompted.

2.3. Pairing with Your Smartphone

To access all smart features, pair your Q11 smartwatch with a compatible smartphone via Bluetooth.

1. Ensure your smartphone's Bluetooth is enabled.
2. Download and install the official LAXAFIT companion application from your smartphone's app store.
3. Open the application and follow the on-screen instructions to create an account or log in.
4. In the app, navigate to 'Add Device' or 'Pair Smartwatch'.
5. Select 'Q11' from the list of available devices.
6. Confirm the pairing request on both your smartphone and the smartwatch.

3. OPERATING INSTRUCTIONS

3.1. Basic Navigation

The Q11 smartwatch features a touchscreen interface for navigation. Swipe left, right, up, or down to access different functions and menus. Tap to select an option.

3.2. Time and Date Display

The smartwatch displays time in a 24-hour format, along with the current date. This information is typically visible on the main watch face.

3.3. Heart Rate Monitoring

The Q11 provides continuous heart rate tracking with real-time BPM (beats per minute) display. To view your heart rate:

- Swipe to the heart rate interface on your smartwatch.
- Ensure the watch is worn snugly on your wrist for accurate readings.

3.4. Temperature Sensing

The built-in temperature sensor displays the ambient temperature in Celsius.

- Navigate to the temperature display screen on your smartwatch.

3.5. Activity Tracking

The integrated pedometer tracks your daily steps, helping you monitor your activity levels and progress towards fitness goals.

- Swipe to the activity tracking interface to view your step count and other metrics.

3.7. Voice Calling

The LAXAFIT Q11 supports voice calling functionality when paired with your smartphone. Specific instructions for initiating and receiving calls will be available within the companion application or through the smartwatch's phone interface.

3.8. Special Features

The smartwatch includes a Moon Phase Display, accessible through its various watch faces or dedicated interface.

4. MAINTENANCE

4.1. Cleaning

- Wipe the smartwatch and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials, as these can damage the device.
- Ensure the charging contacts are clean and dry before charging.

4.2. Battery Care

- Charge the device using only the provided charging cable.
- Avoid exposing the smartwatch to extreme temperatures, which can affect battery life.
- Do not attempt to replace the internal battery yourself. Contact support for battery-related issues.

4.3. Durability

The Q11 smartwatch features a rugged design with a protective casing and robust strap. While designed for active lifestyles, avoid unnecessary impacts or submersion beyond its rated water resistance (if applicable, refer to specifications for details).

5. TROUBLESHOOTING

If you encounter issues with your LAXAFIT Q11 smartwatch, refer to the following common solutions:

- **Device not powering on:** Ensure the smartwatch is fully charged. Connect it to the charger for at least 30 minutes.
- **Unable to pair with smartphone:** Check that Bluetooth is enabled on your phone and the smartwatch. Ensure the companion app is installed and updated. Try restarting both devices.
- **Inaccurate heart rate/temperature readings:** Ensure the watch is worn snugly on your wrist, not too loose or too tight. Clean the sensor on the back of the watch.
- **Display not responding:** Try restarting the smartwatch. If the issue persists, ensure the battery is charged.
- **App connectivity issues:** Ensure the companion app has all necessary permissions on your smartphone. Check for app updates.

For persistent issues not covered here, please contact customer support.
