## Hantan HA006-1

# Hantan Mini Wireless CarPlay & Android Auto Adapter

Model: HA006-1

## 1. INTRODUCTION

---

This manual provides detailed instructions for the Hantan Mini Wireless CarPlay & Android Auto Adapter, Model HA006-1. This device converts your vehicle's wired CarPlay or Android Auto system into a wireless connection, offering enhanced convenience and a clutter-free driving experience.

## 2. SAFETY INFORMATION

---

Always prioritize safety while driving. Do not attempt to set up or troubleshoot the adapter while the vehicle is in motion. Ensure all connections are secure to prevent distractions. Keep the device away from extreme temperatures and moisture.

## 3. PACKAGE CONTENTS

---

- Hantan Mini Wireless CarPlay & Android Auto Adapter (HA006-1)
- USB-A to USB-C Adapter
- User Manual

## 4. SETUP GUIDE

---

### 4.1 Pre-Installation Checklist

1. Confirm your vehicle is equipped with original factory wired CarPlay or Android Auto.
2. Ensure your iPhone is running iOS 10 or above, or your Android phone is running Android 11 or above.
3. Turn on Wi-Fi and Bluetooth on your smartphone and ensure they are not connected to other devices before starting the setup.

## 4.2 Connecting the Adapter

- Step 1: Plug into your car.** Insert the Hantan adapter into the USB port of your vehicle that supports wired CarPlay or Android Auto. Use the provided USB-A to USB-C adapter if your car has a USB-C port.
- Step 2: Bluetooth Pairing.** On your smartphone, open Bluetooth settings and search for available devices. Select the device name (e.g., "Smart Box-xxxx") to connect and pair. Ensure your phone's Wi-Fi is also enabled but not connected to another network.
- Step 3: Connected Successfully.** Once paired, your car's infotainment system should automatically display the CarPlay or Android Auto interface.

# Plug And Play

Just Three Steps

## Step 1: Plug in car

Just insert the adapter into the USB port of the vehicle

## Step 2: Bluetooth Pair

Open Bluetooth and WiFi on your phone, search for cars Bluetooth on the device, click to connect and pair

## Step 3: Connected Successfully

Connect to enjoy wireless Carplay&Android auto function

## 5. OPERATING INSTRUCTIONS

### 5.1 Core Functions

The Hantan adapter enables wireless access to all standard CarPlay and Android Auto functions, including:

- **Navigation:** Use your preferred mapping applications for directions.
- **Music & Audio:** Stream music, podcasts, and audiobooks from your phone.
- **Calls & Messaging:** Make and receive calls, and send/receive messages hands-free.
- **Voice Assistants:** Utilize Siri or Google Assistant for voice commands.

## 5.2 Control Methods

Maintain full control over your car's features through the existing interface:

- **Touchscreen:** Interact directly with the car's display.
- **OEM Control Knob:** Use your vehicle's original control knob.
- **Steering Wheel Controls:** Access functions via your steering wheel buttons.
- **Voice Assistants:** Activate Siri or Google Assistant for hands-free operation.

Your browser does not support the video tag.

## 6. MAINTENANCE

## 6.1 Heat Dissipation

The adapter features metal edges designed to improve heat dissipation, preventing overheating during prolonged use and protecting your car's USB port. Ensure the adapter is not obstructed to allow for proper airflow.

## 6.2 Durability and Care

The adapter is built for durability, tested for over 10,000 insertions to ensure a secure fit and prevent wobbling in the USB port. Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.

## 7. TROUBLESHOOTING

---

### 7.1 Connection Issues

- **No Connection:** Verify that your vehicle has original factory wired CarPlay or Android Auto. Ensure your phone's Wi-Fi and Bluetooth are turned on and not connected to other devices.
- **Intermittent Connection:** Check for any physical obstructions around the adapter. Ensure your phone is within close proximity to the adapter.
- **Lag or Delay:** The adapter is designed for zero daily usage delay. If you experience lag, ensure your phone's operating system is up to date and restart both your phone and the car's infotainment system.

### 7.2 Incompatibility

While compatible with 98% of models equipped with original factory CarPlay, some vehicles may have specific requirements. If you encounter incompatibility, please refer to the QR code in the product images or contact customer support for a compatibility check. Returns are accepted in case of incompatibility.
