AreShark MC02

AreShark MC02 Ergonomic Office Chair Instruction Manual

Brand: AreShark | Model: MC02

PRODUCT OVERVIEW

The AreShark MC02 Ergonomic Office Chair is designed to provide superior comfort and support for extended periods of sitting. Its features are engineered to promote healthy posture and enhance productivity.

- **Engineered Ergonomic Support:** Experience unparalleled comfort with our office chair, designed with targeted head, shoulder, back, seat, and arm support. The adjustable lumbar support promotes a healthy posture, and the upgraded 3D headrest provides vertical, forward/backward, and 60° adjustments, reducing strain during long working hours.
- **Ultimate Customizable Comfort:** Enjoy a fully customizable seating experience with our desk chair that features flexible height adjustment, tilt control, and adaptive lumbar positioning. The additional coat hanger on the backrest adds convenience, accommodating various body types for optimal spine alignment and prolonged focus.
- **Breathable All-Day Comfort:** Stay cool and focused thanks to advanced breathable mesh fabric promoting continuous airflow. Combined with a high-density, collapse-resistant foam seat cushion, this mesh office chair prevents overheating and discomfort, even during marathon workdays.
- **Quiet & Heavy-Duty Stability:** Glide smoothly on noise-reducing PU casters that protect floors. Built for durability and safety, the robust 3-stage gas lift and reinforced base support up to 300 lbs, ensuring reliable stability for your gaming chair.
- **Quick Assembly & 3-Year Assurance:** We stand by the quality of our ergonomic office chair and offer reliable customer support. Enjoy peace of mind with our hassle-free return policy, ensuring you are completely satisfied with your mesh chair purchase.

SETUP AND ASSEMBLY

Follow these instructions carefully for safe and correct assembly of your AreShark MC02 Ergonomic Office Chair. All necessary tools and hardware are included.

Please refer to the included printed instructions for a detailed list of parts and step-by-step diagrams. Ensure all screws are tightened securely before use.

OPERATING INSTRUCTIONS

Your AreShark MC02 chair offers multiple adjustment options for personalized comfort.

1. Seat Height Adjustment

- To raise the seat: While seated, pull the lever (typically on the right side under the seat) upwards and lift your weight off the seat. The seat will rise.
- To lower the seat: While seated, pull the lever upwards and apply your weight to the seat. The seat will lower. Release the lever to lock the height.

2. Tilt and Rocking Function

- To enable rocking: Pull the lever (same as height adjustment) outwards. The chair will now allow a rocking motion between 90-120 degrees.
- To lock the tilt: Push the lever inwards to lock the chair in an upright position.
- To adjust rocking tension: Rotate the round knob located under the seat (usually at the front). Turn clockwise to increase tension (firmer rock) and counter-clockwise to decrease tension (looser rock).

3. Adjustable Lumbar Support

- The lumbar support can be adjusted vertically by rotating the knob on the side of the backrest. It also features an elastic adaptive design for continuous support.

MAINTENANCE

Proper care and maintenance will extend the life of your office chair.

- **Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals that may damage the mesh fabric or nylon finish.
- **Safety:** Do not exceed the maximum weight capacity of 300 lbs.
- **Protection:** Keep the chair away from heat sources and sharp objects to prevent damage to the mesh and other components.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight.

TROUBLESHOOTING

If you encounter any issues with your AreShark MC02 office chair, please refer to the following common solutions:

- **Chair not adjusting height:** Ensure the gas lift lever is fully engaged or disengaged as required. Check for any obstructions under the seat.
- **Chair wobbles:** Verify that all assembly screws are securely tightened. Ensure the chair is on a flat, even surface.
- **Casters not rolling smoothly:** Check for debris (hair, dust) caught in the caster wheels and clean as necessary.
- **Squeaking noises:** Apply a small amount of silicone lubricant to moving parts or connection points if persistent squeaking occurs.

For further assistance, please contact customer support.
