SETUP AND ASSEMBLY

Assembly typically requires two adults. Follow the numbered instructions provided in the separate assembly guide included with your product. Ensure you have adequate space and the necessary tools before starting.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify each part using the provided labels and the assembly diagram.
2. **Assemble the Main Bed Frame:** Begin by connecting the headboard, footboard, and side rails according to the instructions. Secure all connections with the designated hardware.
3. **Install Support Slats:** Place and secure the plywood slats onto the bed frame. Ensure they are evenly spaced and firmly attached to provide proper mattress support.
4. **Attach House Frame Components:** Assemble the roof and rail sections of the house frame and attach them to the main bed structure.
5. **Assemble Storage Drawers:** Construct the two storage drawers and attach the smooth-rolling casters to their bases. These drawers are designed to roll freely under the bed.
