AECOJOY 16316GR

AECOJOY Outdoor Storage Cabinet Instruction Manual

Model: 16316GR

1. IMPORTANT SAFETY INFORMATION

Read all instructions carefully before assembly and use. Failure to follow these instructions may result in injury or product damage.

- Always use caution when handling heavy items.
- Ensure the cabinet is properly assembled and secured before use.
- Keep the cabinet away from heat sources and open flames.
- Do not overload the shelves. Each shelf supports up to 70 pounds.
- Wear protective gloves during assembly to prevent injury from sharp edges on metal components.
- Assembly may require two individuals for optimal safety and efficiency.

2. PRODUCT OVERVIEW

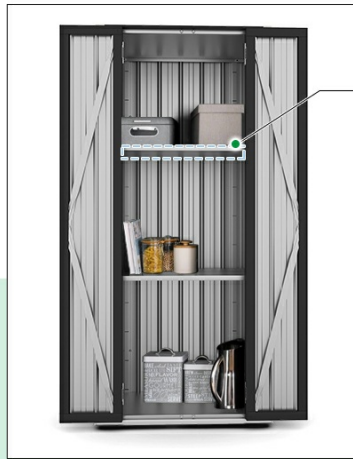

The AECOJOY Outdoor Storage Cabinet, Model 16316GR, is a versatile storage solution designed for both indoor and outdoor environments. Constructed from galvanized steel, it offers resistance to moisture and fire.

Image: The AECOJOY Outdoor Storage Cabinet with its doors closed, positioned outdoors.

Key Features:

- **Adjustable 3-Tier Shelving:** Includes three adjustable shelves for customized storage configurations.
- **Indoor and Outdoor Versatility:** Suitable for various settings due to galvanized steel construction, providing moisture and fire resistance.
- **Robust Load-Bearing Capacity:** Each shelf is tested to support up to 70 pounds. The cabinet has a total weight limit of 210 pounds.
- **Safety and Convenience:** Features magnetic closure doors for easy access and integrated lock holes for optional security (lock not included).

A movable and height-adjustable multi-tier storage rack.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. Refer to the parts list provided in your packaging for specific quantities.

- Side Panels
- Back Panels
- Top Panel
- Base Frame Components
- Door Panels (2)
- Adjustable Shelves (3)
- Hardware Kit (screws, nuts, bolts, magnetic catches, hinges)
- Assembly Manual
- Protective Gloves

4. ASSEMBLY INSTRUCTIONS (SETUP)

While assembly is designed to be straightforward, it involves numerous parts and may require significant time. Follow the detailed instructions provided in the included assembly manual for best results. It is recommended to have a second person assist with assembly.

Pre-Assembly Checklist:

- Clear a spacious, level area for assembly.
- Unpack all components and verify against the parts list.
- Wear the provided protective gloves to avoid cuts from metal edges.
- Gather necessary tools (e.g., screwdriver, wrench).

General Assembly Steps:

1. **Base Frame Assembly:** Construct the base frame on a level surface. It is recommended to build the shed directly on its intended final location to prevent damage during relocation.
2. **Panel Installation:** Attach the side and back panels to the base frame, ensuring all connections are secure.
3. **Top Panel Attachment:** Secure the top panel to the assembled structure.

4. **Shelf Installation:** Insert the adjustable shelves at desired heights. The shelves can be moved to accommodate various item sizes.
5. **Door Assembly and Attachment:** Assemble the door panels, attach hinges, and then mount the doors to the cabinet frame. Ensure proper alignment for smooth operation and secure closure.
6. **Final Checks:** Verify all screws and fasteners are tightened. Test door operation and magnetic closures.

Product Dimension

Each adjustable shelf has a height of 5.9"

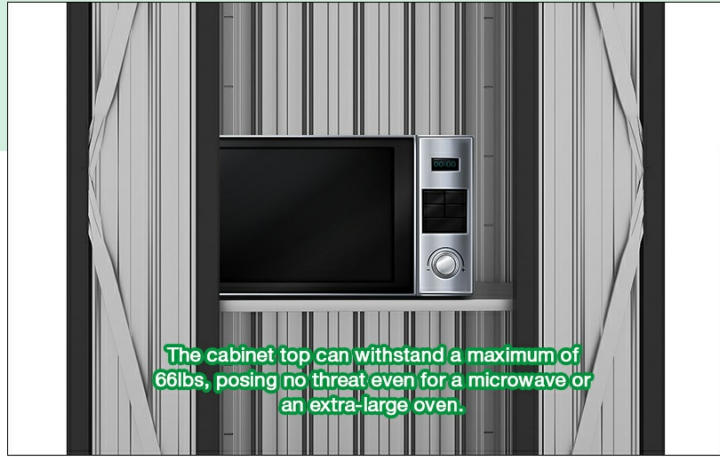

66LBS

Image: Detailed diagram illustrating the external dimensions (21.9"D x 29.9"W x 69.9"H) and internal shelf adjustability of the cabinet.

The cabinet top can withstand a maximum of 66lbs, posing no threat even for a microwave or an extra-large oven.

The cabinet top can withstand a maximum of 66lbs, posing no threat even for a microwave or an extra-large oven.

Image: Visual representation of the cabinet's adjustable shelving system, demonstrating how shelves can be repositioned to accommodate different item heights.

5. OPERATION

Opening and Closing Doors:

The cabinet features magnetic closure doors. To open, gently pull the door handle. To close, push the doors until the magnetic catches engage, securing them in place.

Adjusting Shelves:

The three internal shelves are adjustable. To reposition a shelf, carefully lift it from its current supports and place it onto the desired support brackets at a different height. Ensure the shelf is level and securely seated before placing items on it.

Security:

The cabinet includes pre-drilled lock holes on the doors for added security. A padlock or similar locking device (not included) can be used to secure the contents.

Triangular Base Design Stable and sturdy interior structure.

Metal Lockable Doors Double doors with lock holes. (Lock not included)

Magnetic closure design: Strong magnets for convenient daily use.

6. MAINTENANCE AND CARE

Cleaning:

Clean the cabinet regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish. Rinse thoroughly and dry to prevent water spots.

Weatherproofing:

While the cabinet is designed to be weatherproof, for optimal protection against water seepage, especially in areas prone to heavy rain, consider applying a sealant around seams and joints. Placing the cabinet on a raised mat or pavers can also help prevent water from entering from underneath.

Inspection:

Periodically inspect the cabinet for any loose fasteners, signs of wear, or damage. Tighten any loose screws and address any damage promptly to maintain structural integrity and weather resistance.

7. TROUBLESHOOTING

• **Issue: Doors do not close properly or align.**

Solution: Check that the cabinet is assembled on a level surface. Verify that all panels are correctly aligned and all screws are tightened. Adjust hinges if necessary. Ensure no internal items are obstructing the door path.

• **Issue: Water seepage inside the cabinet.**

Solution: Confirm that the cabinet is placed on a level surface. Inspect all seams and joints for gaps and consider applying an external sealant. Ensure the cabinet is not positioned in an area where water can pool around its base. Using a raised mat or pavers underneath can help.

• **Issue: Cabinet feels unstable.**

Solution: Ensure the cabinet is on a firm, level surface. Verify all assembly fasteners are securely tightened. For outdoor use, consider anchoring the cabinet to a solid base or wall for enhanced stability, especially in windy conditions.

8. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	AECOJOY
Model Number	16316GR
Color	Dark Grey
Material	Galvanized Steel (Alloy Steel Frame)
Product Dimensions (D x W x H)	21.9" x 29.9" x 69.9"
Item Weight	70 Pounds
Weight Limit (Total)	210 Pounds
Weight Limit (Per Shelf)	70 Pounds
Water Resistance Level	Waterproof
Door Style	French Doors with Magnetic Closure
Assembly Required	Yes

9. WARRANTY AND CUSTOMER SUPPORT

This AECOJOY Outdoor Storage Cabinet comes with a one-year warranty from the date of purchase.

For assistance with installation, usage, or any other inquiries, please contact AECOJOY customer support. Our technical team is available 24/7 to provide ongoing support and remote assistance.

Contact information for customer support can typically be found on the product packaging or the official AECOJOY website.
