2. Important Safety Information

Please read and understand all safety warnings and instructions before assembly and use. Failure to follow these instructions can result in serious injury.

- **Assembly:** Ensure proper assembly to prevent instability or collapse. Follow the included instructions carefully. All connections must be securely tightened.
- **Guardrails:** The upper bunk bed is equipped with protective guardrails. Ensure they are properly installed and maintained to prevent falls.
- **Wall Mounting:** Utilize the secure wall-mounting hardware provided for ultimate stability. This is crucial to prevent tipping.
- **Mattress:** Use a mattress that fits the bed frame dimensions. The reinforced slatted base provides support; no box spring is needed. Ensure the mattress top is at least 5 inches below the top of the guardrail.
- **Weight Capacity:** Do not exceed the recommended weight capacity for the bed and integrated components. Refer to the specifications section for details.
- **Stairs:** Use the stairs for safe access to the top bunk. The stairs feature soft foam padding for comfortable and stable access.
- **Electrical Components:** When using the charging station and LED lights, ensure all electrical connections are secure and follow standard electrical safety practices. Do not overload outlets.
- **Floor Protection:** Plastic floor protectors on all legs help prevent scratches and reduce noise.

4. Setup and Assembly

Assembly is designed to be straightforward with clear instructions and all necessary tools included. It is recommended to assemble the bed with at least two adults.

1. **Unpack and Organize:** Carefully unpack all components and lay them out. Identify each part using the components list and the provided assembly diagram.
2. **Assemble Main Frame:** Begin by assembling the main steel tube frame of the loft bed according to the step-by-step instructions in the separate assembly manual. Ensure all bolts are finger-tightened initially.
3. **Install Slatted Base:** Secure the reinforced metal slatted base onto the bed frame.
4. **Attach L-Shaped Desk:** Assemble and attach the L-shaped desk panels to the main frame. Ensure the desk is level and stable.
5. **Install Hall Tree:** Integrate the hall tree unit, including the fabric drawers, hanging rod, and shoe rack, into its designated position.
6. **Mount Guardrails and Stairs:** Securely attach the full-length guardrails to the upper bunk and install the access stairs.

7. **Install Charging Station:** Integrate the charging station into the desk. Connect its power cord to a suitable wall outlet.
8. **Install LED Lights:** Adhere the LED light strip to the designated area under the bed/desk. Connect it to its power source.
9. **Final Tightening and Wall Mounting:** Once all components are in place, fully tighten all bolts and screws. Secure the loft bed to the wall using the provided anti-tipping device and wall-mounting hardware for maximum stability.
10. **Place Mattress:** Position your twin-size mattress on the slatted base.

6. Maintenance

Regular maintenance will help prolong the life and appearance of your loft bed.

- **Cleaning:** Wipe down metal and wood surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections. Tighten any loose hardware to ensure stability and safety.
- **Fabric Drawers:** The fabric drawers can be spot cleaned with a mild detergent and water. Allow to air dry completely.
- **Electrical Components:** Ensure the charging station and LED light connections are free from dust and debris. Do not attempt to repair electrical components yourself; contact qualified personnel if issues arise.
- **Weight Distribution:** Distribute weight evenly on the bed and desk surfaces to prevent stress on the frame.

7. Troubleshooting

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware; improper wall mounting.	Check and tighten all bolts and screws. Ensure the anti-tipping device is securely fastened to the wall.
LED lights are not turning on or responding.	Power connection issue; remote control battery dead; app not connected.	Verify the LED light strip is properly connected to its power source. Check remote control battery. Ensure mobile app is correctly paired.
Charging station not providing power.	Bed's main power cord unplugged; device not properly inserted.	Ensure the bed's main power cord is securely plugged into a functional wall outlet. Re-insert device cables firmly.
Fabric drawers are difficult to open/close.	Overloaded drawer; obstruction; misaligned.	Reduce contents in the drawer. Check for any items obstructing the drawer's path. Ensure the drawer is correctly inserted into its slot.
Squeaking noises from the bed.	Loose connections; friction between metal parts.	Tighten all assembly bolts. Apply a small amount of silicone lubricant to contact points if necessary.
