

PAWZ Road AM01-AMT0204GY-XL

PAWZ Road Heavy Duty 81-Inch Cat Tree Instruction Manual

Model: AM01-AMT0204GY-XL

1. PRODUCT OVERVIEW

The PAWZ Road Heavy Duty 81-Inch Cat Tree is designed to provide a multi-level activity center for multiple cats, including larger breeds. This robust cat tower features multiple perches, enclosed condos, a spacious hammock, and numerous scratching surfaces to support your cats' natural behaviors of climbing, resting, and scratching.

2. SAFETY INFORMATION

- **Placement:** Position the cat tree on a flat, stable surface against a wall or in a corner to maximize stability. Avoid placing it near windows without securing it, or in high-traffic areas where it could be easily bumped.
- **Anti-Tip Straps:** For enhanced stability and safety, especially with active or multiple large cats, utilize the provided anti-tip straps. Securely fasten the straps to a wall stud using appropriate hardware (not always included, check package contents).
- **Regular Inspection:** Periodically check all screws, bolts, and connections to ensure they are tight. Loose components can compromise the structure's stability.
- **Weight Limit:** While designed for large cats, ensure the total weight of cats on the tree does not exceed its structural capacity. Individual platforms and hammocks are designed to support specific weights.
- **Material Integrity:** Inspect sisal scratching posts and plush fabric for wear and tear. Replace or repair damaged sections to prevent injury to your pets.

3. PACKAGE COMPONENTS

Before assembly, verify that all components listed below are present and undamaged. Refer to the assembly diagram for visual identification of parts.

- Baseboard (Thickened)
- Various Platforms and Perches
- Enclosed Condos (2 units)
- Spacious Hammock (Steel Frame)
- Sisal-Wrapped Scratching Posts (7 units)
- Support Posts (Plush-covered)
- Hanging Play Balls (Pompoms)
- Assembly Hardware (Screws, bolts, washers, Allen wrench)
- Anti-Tip Wall Anchor Kit (Strap, wall plug, screw)

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your PAWZ Road Cat Tree. It is recommended to have a clear, spacious area for assembly. Refer to Image 3.1 for component identification.

1. **Prepare the Base:** Place the thickened baseboard (part labeled 'Base' or similar in diagram) on a flat, stable surface.
2. **Attach Lower Posts:** Screw the shortest support posts (e.g., 'P1', 'P2') into the designated holes on the baseboard. Ensure they are tightened securely using the provided hardware and Allen wrench.
3. **Install First Platform/Condo:** Attach the first platform or lower condo unit (e.g., 'C1', 'F1') onto the installed posts. Secure with screws from underneath or through the platform/condo.
4. **Continue Layer by Layer:** Systematically add posts, platforms, and condos, working your way upwards. Each level typically involves attaching posts to the previous platform, then securing a new platform or condo on top of those posts.
5. **Integrate Hammock:** Install the steel-frame hammock according to the diagram, usually between two support posts at a

mid-level.

6. **Attach Top Perches:** Secure the final perches (e.g., 'T1', 'T2') to the uppermost posts.
7. **Add Accessories:** Attach the hanging play balls to the designated loops or hooks on the platforms.
8. **Final Tightening:** Once fully assembled, re-check and tighten all screws and bolts to ensure maximum stability.
9. **Install Anti-Tip Strap:** Locate a suitable wall stud. Attach one end of the anti-tip strap to the cat tree (usually near the top perch) and the other end to the wall using the provided wall plug and screw. This step is crucial for preventing accidental tipping.

5. OPERATING INSTRUCTIONS (CAT USAGE)

This cat tree provides various features for your cat's enrichment and comfort:

- **Scratching:** Encourage your cat to use the sisal-wrapped posts and the horizontal scratching pad on the base. This helps maintain nail health and protects your furniture.
- **Climbing and Exploration:** The 8-level structure with widened spaces between platforms allows for easy climbing and exploration, satisfying your cat's natural instincts.
- **Resting and Napping:**
 - The two spacious enclosed condos offer private, secure spaces for napping and hiding. The bottom condo has three openings for easy access and hide-and-seek play.
 - The oversized steel-frame hammock provides a comfortable, elevated spot for lounging.
 - The two elevated perches at the top offer vantage points for observation and resting.
- **Play:** The hanging pompoms provide interactive play opportunities, stimulating your cat's hunting instincts. These are replaceable if they become worn.

EXTRA LARGE 3-DOOR CAT CONDO

Spacious to get in and out or
stick head out of the hole

Image 5.2: A cat relaxing in the large steel frame hammock, demonstrating its comfort and stability.

6. MAINTENANCE

- **Cleaning:**

- Use a vacuum cleaner with a brush attachment to remove loose fur and debris from all plush surfaces.
- For spot cleaning, use a damp cloth with mild soap. Avoid excessive moisture.
- Allow all cleaned areas to air dry completely before your cats use the tree again.

- **Sisal Posts:** The sisal rope on scratching posts may fray over time. This is normal wear. If the posts become too worn, they can often be re-wrapped or replaced.

- **Hardware Check:** Every few months, re-tighten all screws and bolts to ensure the structure remains secure and stable.

- **Toy Replacement:** The hanging pompoms are replaceable. If they become detached or damaged, new ones can be sourced.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree wobbles or feels unstable.	Loose connections; uneven floor; anti-tip strap not installed.	Re-tighten all screws and bolts. Ensure the tree is on a level surface. Install or re-secure the anti-tip wall anchor.
Cats are not using the scratching posts.	Preference for other surfaces; unfamiliarity.	Apply catnip to the sisal posts. Gently guide your cat's paws to the posts. Ensure other scratching options are less appealing.
Hanging toys are damaged or detached.	Normal wear and tear from play.	Replace the hanging pompoms. Contact customer support for replacement parts if needed.
Fabric is tearing or wearing out.	Heavy use; sharp claws.	Regularly trim your cat's claws. For minor tears, fabric glue can be used. For significant damage, consider contacting customer support.

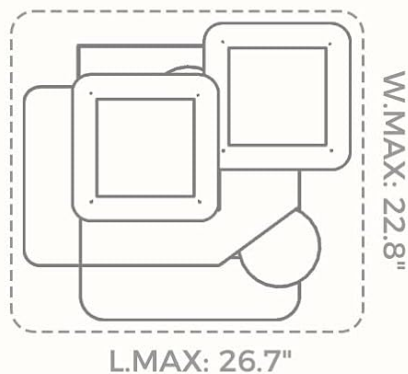

8. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	AM01-AMT0204GY-XL
Overall Dimensions (L x W x H)	59.94 cm x 48.77 cm x 204.98 cm (23.6" x 19.2" x 80.7")
