- **Mode Switch / RGB Control:** Short press to switch between input modes (Bluetooth, TF card, U disk, AUX). Long press to control RGB lighting effects.
- **TWS / BT Disconnection:** Short press to initiate TWS pairing. Long press to disconnect Bluetooth.

5. SETUP AND OPERATION

5.1 Charging the Speaker

Before first use, fully charge the speaker. Connect the provided USB Type-C cable to the speaker's charging port and the other end to a compatible USB power adapter (5V/1A recommended). The charging time is approximately 3-4 hours.

5.2 Power On/Off

Press and hold the **Power Button** for 2-3 seconds to turn the speaker on or off. An audible prompt will indicate the power status.

5.3 Bluetooth Pairing

1. Turn on the speaker. It will automatically enter Bluetooth pairing mode, indicated by a flashing LED light.
2. Enable Bluetooth on your device (smartphone, tablet, etc.).
3. Search for "SODLK T21" in the list of available Bluetooth devices and select it to connect.
4. Once connected, the LED light will become solid, and you will hear a confirmation tone.

5.4 TWS (True Wireless Stereo) Pairing

To achieve stereo sound, you can connect two SODLK T21 speakers together:

STEREO PAIRING

PAIR 2 SPEAKERS TO AMPLIFY YOUR LISTENING

SINGLE HEAVY BASS IS NOT EXCITING, TWS INTERCONNECT,
SYNCHRONOUS PLAYBACK, ALL-ROUND SURROUND SOUND

Image: Two SODLK T21 speakers shown side-by-side with a TWS icon and dashed lines indicating a wireless connection,

illustrating the stereo pairing feature.

1. Ensure both SODLK T21 speakers are powered on and not connected to any other Bluetooth device.
2. On one speaker (this will be the primary speaker), short press the **TWS Button**. The speaker will enter TWS pairing mode.
3. The two speakers will automatically connect to each other. A confirmation tone will sound once TWS pairing is successful.
4. Now, connect your device to the primary speaker via Bluetooth as described in section 5.3. Both speakers will play audio in stereo.

5.5 Mode Switching

Short press the **Mode Switch Button (M)** to cycle through available input modes: Bluetooth, TF Card, U Disk, and AUX. The speaker will announce the current mode.

5.6 RGB Light Control

Long press the **Mode Switch Button (M)** to change or turn off the RGB lighting effects.

6. MAINTENANCE

- Clean the speaker with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Keep the speaker away from extreme temperatures, direct sunlight, and moisture.
- Do not attempt to disassemble or repair the speaker yourself. This will void the warranty.
- Store the speaker in a cool, dry place when not in use for extended periods.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not turn on.	Low battery.	Charge the speaker fully.
Cannot pair via Bluetooth.	Speaker is not in pairing mode or already connected to another device.	Ensure the speaker is in pairing mode (flashing LED). Disconnect from other devices. Restart both speaker and device.
No sound.	Volume too low, incorrect input mode, or device not playing.	Increase volume on both speaker and device. Check input mode. Ensure audio is playing on the connected device.
TWS pairing fails.	Speakers are too far apart or already connected to other devices.	Ensure speakers are within close proximity. Disconnect both speakers from any other Bluetooth devices before initiating TWS pairing.
