

Poolin EOC06, EOC02

Poolin EOC06 Embroidery Machine & EOC02 Sewing Machine User Manual

Model: EOC06 (Embroidery), EOC02 (Sewing)

Brand: Poolin

1. INTRODUCTION

This manual provides comprehensive instructions for the Poolin EOC06 Embroidery Machine and the Poolin EOC02 Sewing Machine. These machines are designed to offer a complete creative experience, combining functional sewing with decorative embroidery capabilities. The EOC06 embroidery machine features a maximum embroidery area of 7.9x11 inches, suitable for various projects including clothing, bedding, and accessories. The EOC02 sewing machine includes 200 built-in stitches for diverse sewing applications.

Figure 1.1: Poolin EOC06 Embroidery Machine (top) and EOC02 Sewing Machine (bottom) with included accessories.

2. SETUP AND ASSEMBLY

2.1 Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that all listed accessories are present. Inspect both machines for any signs of damage incurred during transit. Retain the original packaging for future storage or transport.

2.2 Power Connection

Connect the power cord to the machine's power input port and then to a suitable electrical outlet. Ensure the power switch is in the OFF position before connecting. Refer to the machine's label for specific voltage requirements.

2.3 Attaching Components (Embroidery Machine)

For the EOC06 Embroidery Machine, attach the embroidery unit to the main machine body as per the instructions provided in the quick guide. Ensure it is securely fastened. Select the appropriate embroidery hoop for your project size. The machine comes with 5.5x5.5 inch (x2), 8x8 inch (x1), and 7.9x11 inch (x1) hoops.

3. OPERATING INSTRUCTIONS

3.1 Poolin EOC06 Embroidery Machine Operation

The EOC06 features a 7-inch LCD touchscreen for intuitive control. Designs can be selected, configured, and initiated directly from this interface.

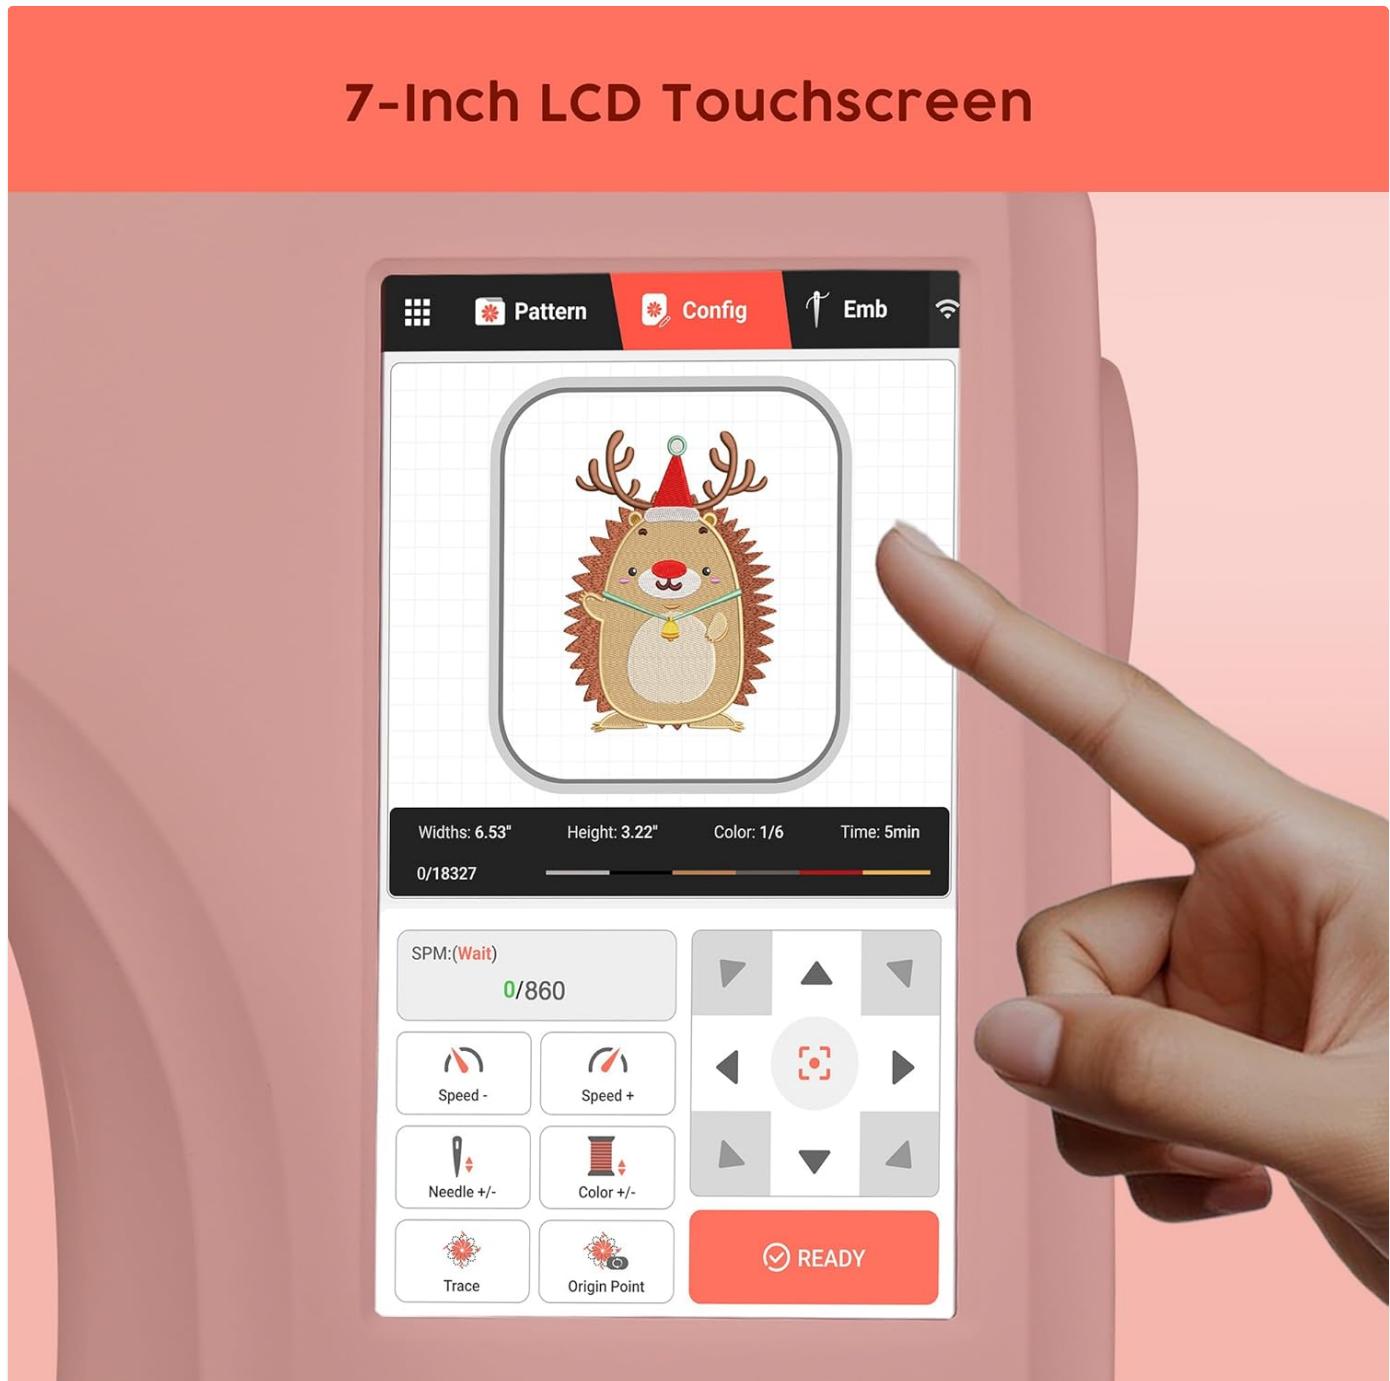

Figure 3.1: The 7-inch LCD Touchscreen interface for the EOC06 Embroidery Machine.

3.1.1 Starting Embroidery (3 Steps)

- Pattern Selection:** Choose your desired embroidery pattern from the machine's built-in designs or load a custom design.
- Configuration:** Adjust settings such as size, rotation, and color sequence.
- Embroidery Start:** Initiate the embroidery process.

Start Embroidery in 3 Steps

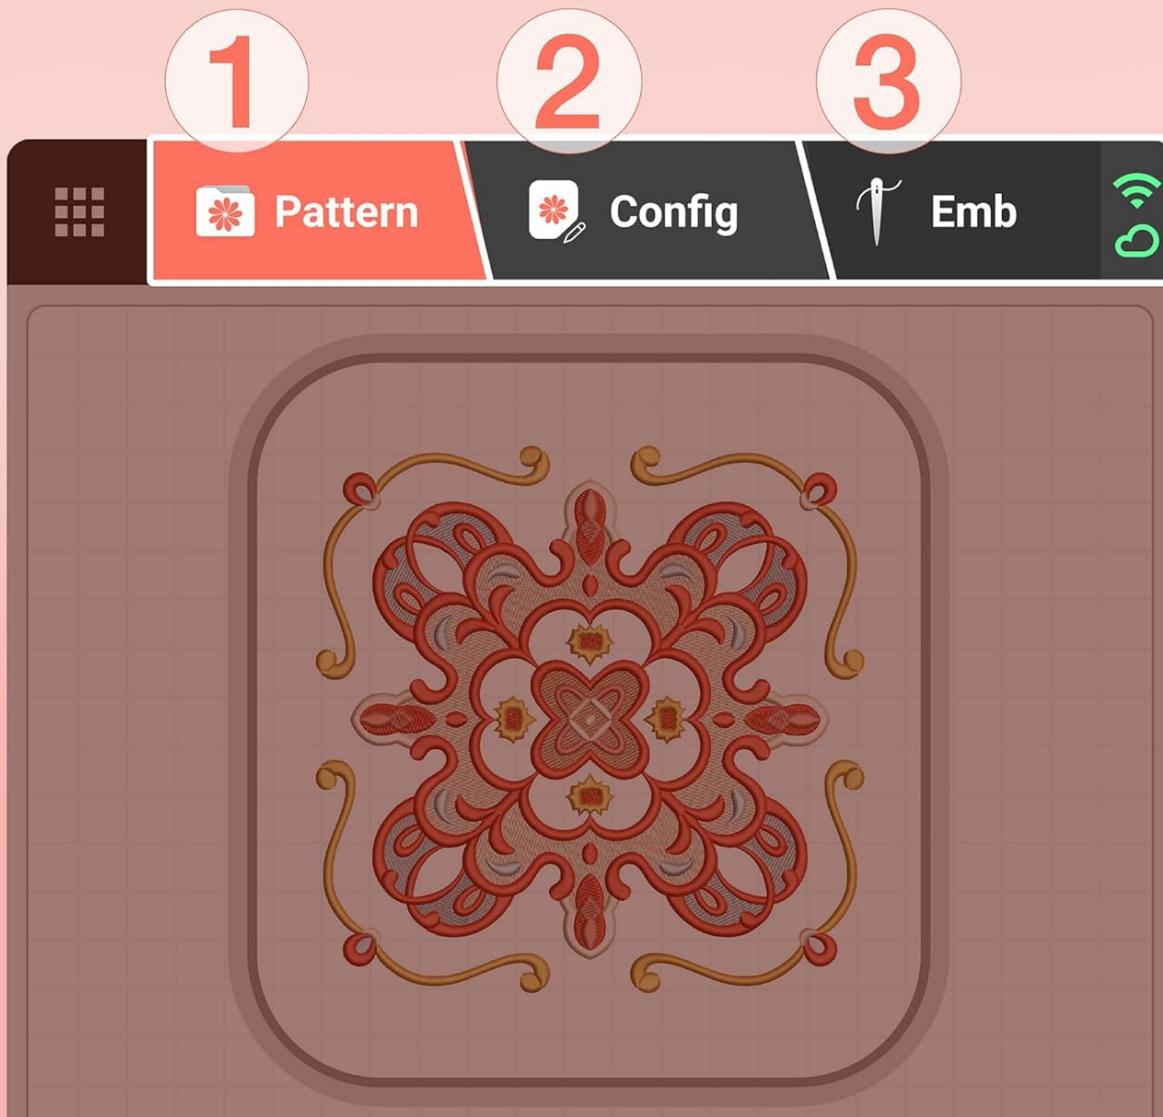

Figure 3.2: The three-step process for initiating embroidery on the EOC06.

3.1.2 Letter Embroidery

The EOC06 supports letter embroidery, allowing users to personalize projects with text. Access the alphanumeric patterns through the touchscreen interface to create custom lettering.

Support Letter Embroidery

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Poolin machines. Keep both the EOC06 and EOC02 clean from lint and thread debris, especially around the bobbin area and feed dogs. Use a soft brush or vacuum cleaner designed for electronics. Periodically apply sewing machine oil to designated lubrication points as indicated in the quick guide or a more detailed service manual if available. Always disconnect power before performing any cleaning or maintenance.

5. TROUBLESHOOTING

This section addresses common issues you might encounter during operation. For more complex problems, refer to the online resources or contact customer support.

5.1 Common Embroidery Machine Issues

- **Thread Breakage:** Check thread tension, ensure proper threading, inspect needle for damage, and verify the bobbin is correctly inserted.
- **Skipped Stitches:** Replace the needle, ensure it is inserted correctly, and check the fabric and stabilizer combination.
- **Design Distortion:** Ensure fabric is properly hooped with adequate tension and appropriate stabilizer is used.

5.2 Common Sewing Machine Issues

- **Uneven Stitches:** Verify correct thread tension for both upper and bobbin threads.
- **Fabric Jamming:** Ensure proper needle size for fabric, clean the bobbin case, and avoid pulling fabric forcefully.
- **Machine Noise:** Lubricate the machine as per maintenance guidelines, check for loose parts, or clean accumulated lint.

If issues persist after attempting these solutions, please contact Poolin customer support.
