Hodozzy SF20250913B0FFSP88LB

Hodozzy 7-inch 2 Din Car Stereo User Manual

Model: SF20250913B0FFSP88LB

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Hodozzy 7-inch 2 Din Car Stereo. Please read this manual thoroughly before using the product to ensure proper function and safety.

Overview of the Hodozzy 7-inch 2 Din Car Stereo, highlighting its key features such as Carplay, Android Auto, DAB+ radio, Bluetooth connectivity, video playback, and Type-C port.

2. PACKAGE CONTENTS

Verify that all components are present in the package:

- Hodozzy 7-inch 2 Din Car Stereo Unit
- Power Cable
- Horn Cable
- User Manual
- Mounting Brackets

- DAB Antenna
- 12LED Rear Camera

This image illustrates the physical dimensions of the 7-inch car stereo, its various rear connection ports, and a visual representation of all items included in the product package, such as cables, mounting hardware, and the backup camera.

3. SETUP AND INSTALLATION

3.1 General Installation

The Hodozzy car stereo is designed for a standard 2 Din slot. Ensure your vehicle has adequate space for installation. Professional installation is recommended.

3.2 Wiring Connections

Connect the power cable, horn cable, and other necessary audio/video cables to the corresponding ports on the rear of the unit. Refer to the wiring diagram in the included user manual for specific connections.

3.3 DAB Antenna Installation

For optimal DAB+ radio reception, install the included DAB antenna. Follow these steps:

1. Disassemble the plastic border of the right window.
2. Remove the protective paper from the black film and transparent film on the antenna.
3. Stick the black film on the metal frame and transparent film on the glass. Remember to leave space for the plastic border.
4. Tighten the black film and transparent film, and fix the cable securely.
5. Put the plastic border back. Be careful not to break the cable.
6. Install the DAB antenna with a 2-3CM gap from the window frame, ensuring the AMP is at the top.

DAB Antenna Installation

1. Disassemble the plastic border of the right window

2. Remove the protective paper from the black film and transparent film on the Antenna

Left hand drive antenna position

Install DAB / DAB + Antenna (follow the diagram below)

Suggestion: Leave 2-3CM gap from the window frame

AMP at the top

Vertical direction

Horizontal direction

Note: Before installation, please remove the protective paper from the DAB ANTENNA. The receiver part must be connected with GND (ground electronic).

3. Stick the black film on the metal frame and transparent film on the glass (Remember to leave the space for putting the plastic border)

4. Tighten the black film and transparent film, and fix the cable securely

5. Put the plastic border back (Be careful do not break the cable)

This visual guide demonstrates the correct procedure for installing the DAB antenna, including preparing the window area, adhering the antenna, routing the cable, and ensuring proper placement for signal reception.

3.4 Rear Camera Installation

Connect the included 12LED rear camera to the designated input on the car stereo. The camera is waterproof and features night vision. It will automatically activate when the vehicle is shifted into reverse, displaying parking guidelines on the screen.

Reversing Camera

This image illustrates the functionality of the reversing camera, showing its display on the car stereo screen with parking assistance lines, and details the camera's features such as HD image quality, night vision, and waterproof design.

4. OPERATING INSTRUCTIONS

4.1 Basic Functions

- **Power On/Off:** Press the power button to turn the unit on or off.
- **Volume Control:** Use the rotary knob or on-screen controls to adjust the volume.

4.2 Radio Functions (DAB+/FM)

The unit supports both DAB+ digital radio and traditional FM radio. Use the 'Radio' application on the touchscreen to access these features.

- **DAB+ Radio:** Enjoy crystal-clear digital radio with interference-free reception. Scan for available stations and save your favorites.
- **FM Radio:** Tune into FM frequencies (87.5-108 MHz). Auto-scan and manual tuning options are available.

Built in DAB+ Radio

With DAB antenna, you can enjoy DAB radio after installing the DAB antenna

This image displays the various audio functionalities of the car stereo, including the DAB+ digital radio interface, the Bluetooth hands-free calling screen, the FM radio tuner, and the customizable equalizer settings for audio optimization.

4.3 Wireless Carplay and Android Auto

Connect your iOS or Android smartphone wirelessly or via USB for seamless integration. This allows access to navigation, music, calls, messages, and voice control (Siri/Google Assistant) directly from the car stereo display.

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your phone and connect to the car stereo. Follow the on-screen prompts to initiate Carplay or Android Auto.
- **Wired Connection:** Connect your phone to the USB port using a compatible cable.

This image demonstrates the versatile connectivity options, showing how smartphones can connect wirelessly for Carplay and Android Auto, and also highlights the wired Mirror Link feature for screen mirroring via USB.

4.4 Mirror Link

The unit supports wired Mirror Link technology, allowing you to display your mobile phone's screen directly onto the car stereo. Connect your phone via USB and follow the instructions on the stereo to activate Mirror Link.

4.5 Bluetooth 5.2

Pair your smartphone with the car stereo via Bluetooth 5.2 for stable hands-free calling and audio streaming. Access your phonebook and call history directly from the stereo.

4.6 Multimedia Playback

- **USB/Type-C/TF Card:** Insert a USB drive, Type-C device, or TF card into the respective ports to play audio and video files.
- **AUX Input:** Connect external audio devices using the 3.5mm AUX input.
- **Video Output:** The car stereo features video output to independently transmit video signals to rear headrest monitors or auxiliary screens, providing entertainment for rear passengers while maintaining front display functionality.

7 inch HD IPS Screen

This image highlights the 7-inch HD IPS screen and its multi-screen entertainment capability, demonstrating how video content can be simultaneously displayed on the main unit and rear passenger monitors.

4.7 Customization and Settings

- **7-Color Backlight:** Personalize the driving atmosphere by choosing from 7 different colors for the backlit buttons.
- **EQ Settings:** Adjust audio output with customizable EQ effects to suit your preferences.
- **Steering Wheel Control (SWC):** Connect your vehicle's steering wheel controls to the unit for convenient operation of functions like volume adjustment, track skipping, and answering calls without taking your hands off the wheel.

This image showcases the car stereo's customizable 7-color button backlighting feature and its universal connectivity hub, including USB, AUX In, and TF Card slots for various media and charging needs.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Hodozzy car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior surfaces. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check the Hodozzy official website for any available software updates. Follow the provided instructions carefully for any update procedures.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

6. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common problems and solutions:

- **No Power:**

- Check all power connections to ensure they are securely fastened.
- Verify the vehicle's fuse for the stereo is intact.

- **No Sound:**

- Ensure the volume is not muted or set to minimum.
- Check speaker connections.
- Verify audio source selection is correct (e.g., FM, DAB, Bluetooth, USB).

- **Bluetooth Connection Issues:**

- Ensure Bluetooth is enabled on both the stereo and your smartphone.
- Delete previous pairings and attempt to re-pair the devices.
- Restart both the stereo and your smartphone.

- **Carplay/Android Auto Not Connecting:**

- For wired connections, try a different USB cable.
- For wireless connections, ensure Wi-Fi is also enabled on your phone.
- Check your phone's settings to ensure Carplay/Android Auto is enabled and allowed for the device.

- **Rear Camera Not Displaying:**

- Verify the camera's video input cable is correctly connected to the stereo.
- Ensure the reverse trigger wire is properly connected to the vehicle's reverse light circuit.

If the problem persists after attempting these solutions, please contact Hodozzy customer support.

7. SPECIFICATIONS
