## KEY FEATURES

- **256GB Storage Capacity:** Provides ample space for thousands of photos, videos, music, and documents.
- **Dual USB-C & USB-A Connectors:** Offers broad compatibility with modern and traditional devices, including smartphones (iPhone 15+, Android), tablets, laptops, and computers.
- **High-Speed Data Transfer:** Features USB 3.0 performance with read speeds up to 150MB/s, enabling

quick transfer of large files.

- **Durable Metal Housing:** Constructed from zinc alloy for enhanced durability and protection of your data.
- **360° Swivel Design:** Allows for easy switching between USB-C and USB-A connectors without the risk of losing a cap.
- **Plug-and-Play Functionality:** No software installation required; simply connect to your device to begin use.
- **Compact and Portable:** Slim design fits easily in pockets, wallets, or attached to a keychain.

## Chic Minimalism

## SETUP

---

The ORICO EB05 Flash Drive is designed for plug-and-play operation, requiring no special drivers or software installation.

1. **Identify Connector:** Determine whether your device requires a USB-A or USB-C connection. The flash drive features a 360° swivel design to switch between these two interfaces.
2. **Connect to Device:** Insert the appropriate connector (USB-A or USB-C) into the corresponding port on your smartphone, tablet, or computer.
3. **Access Storage:** Your device should automatically recognize the flash drive as external storage. You can then access it through your device's file manager or explorer.

Your browser does not support the video tag.

## OPERATING INSTRUCTIONS

---

Transferring files with the ORICO EB05 is straightforward:

1. **Open File Manager:** On your computer, open File Explorer (Windows) or Finder (Mac). On a smartphone or tablet, open your device's file management application.
2. **Locate Flash Drive:** The ORICO EB05 will appear as a removable drive (e.g., "ORICO" or "USB Drive").
3. **Transfer Files:**
  - To copy files *to* the flash drive: Drag and drop files from your device's internal storage to the flash drive's folder.
  - To copy files *from* the flash drive: Drag and drop files from the flash drive's folder to your device's internal storage.
4. **Safely Eject:** Before removing the flash drive, always safely eject it from your operating system to prevent data corruption.
  - Windows: Right-click the drive icon in File Explorer and select "Eject."
  - Mac: Drag the drive icon to the Trash or click the Eject button next to the drive name in Finder.
  - Android/iOS: Follow your device's specific instructions for safely unmounting external storage.

Connectivity Technology	USB 3.0
Hardware Interface	USB Type A, USB Type C
Material	Zinc Alloy Metal Housing
Special Features	Dual USB Connector, Dust Proof, Lightweight, 360° Swivel Design
Color	Silver
Item Weight	2.11 ounces
Package Dimensions	5.2 x 3.43 x 0.75 inches

## MAINTENANCE

To ensure the longevity and optimal performance of your ORICO EB05 Flash Drive, follow these maintenance guidelines:

- **Safe Ejection:** Always safely eject the flash drive from your device before physically removing it to prevent data corruption.
- **Physical Protection:** The metal housing provides durability, but avoid excessive force, dropping, or exposing the drive to extreme temperatures or liquids.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the flash drive. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the flash drive in a cool, dry place, ideally in a protective pouch or attached to the included lanyard to prevent loss.

## TROUBLESHOOTING

If you encounter issues with your ORICO EB05 Flash Drive, consider the following:

- **Drive Not Recognized:**
  - Ensure the flash drive is fully inserted into the correct USB-A or USB-C port.
  - Try connecting to a different USB port on your device.
  - Restart your computer or device.
  - Check your device's operating system for any driver updates or external storage settings.
- **Slow Transfer Speeds:**

- Ensure you are using a USB 3.0 compatible port on your device for optimal speeds. USB 2.0 ports will result in slower transfers.
  - Large numbers of small files can transfer slower than a single large file of the same total size.
  - Other background processes on your computer might be affecting transfer speeds.
- **Cannot Write Files:**
    - Check if the drive is full. Delete unnecessary files to free up space.
    - Ensure the drive is not set to read-only mode (though this model typically does not have a physical write-protect switch).
    - Verify file system compatibility. The drive is typically formatted as ExFAT for broad compatibility. If you are having issues, you may need to reformat the drive (this will erase all data).

## WARRANTY AND SUPPORT

---

The ORICO EB05 Dual USB 3.0 Flash Drive comes with a **3-year limited warranty**. For warranty claims, technical support, or further assistance, please contact ORICO customer service through their official website or the retailer where the product was purchased.

Please retain your proof of purchase for warranty validation.
