advwin Manicure Table

advwin Manicure Table, Rotating Nail Desk with Stool, White User Manual

Model: Manicure Table

INTRODUCTION

Thank you for choosing the advwin Manicure Table. This manual provides essential information for the proper assembly, operation, and maintenance of your new manicure table. Please read these instructions carefully before use and retain them for future reference.

SETUP AND ASSEMBLY

The advwin Manicure Table is designed for flexible configuration. Follow these steps for assembly:

- Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the included assembly guide are present.
- Review Assembly Guide:** Consult the detailed assembly guide provided with your product for step-by-step instructions and diagrams.
- Assemble Main Desk:** Begin by assembling the main desk unit, including the drawer and the integrated dust extractor housing.
- Attach Shelving Unit:** Connect the multi-tier shelving unit to the main desk using the provided metal support poles and hardware.
- Install Wheels:** Attach the lockable wheels to the base of the main desk for mobility.
- Configure Layout:** The table can be configured into an L-shape (43.3"L x 39.4"W x 64.2"H) or a linear shape (68.9"L x 16.5"W x 64.2"H). Adjust the position of the shelving unit relative to the main desk to achieve your desired layout.
- Connect Dust Extractor:** Plug in the dust extractor power cord to a suitable electrical outlet.

Figure 1: The advwin Manicure Table in its L-shaped configuration. This image displays the main desk area with an integrated dust collector, a drawer, and a multi-tier shelving unit. The table is white, made of engineered wood, and features metal support poles for the shelves. The desk portion has wheels for mobility and rotation.

OPERATING INSTRUCTIONS

- **360° Flexible Design:** The two lockable wheels on the main desk allow for rotation between 30° and 330°. Unlock the wheels to adjust the table's angle and configuration, then lock them to secure its position. This feature enables easy adaptation from L-shaped to straight configurations to optimize your workspace.
- **Dust Extractor:** The integrated dust extractor helps maintain a clean working environment by collecting nail dust. Turn on the extractor before beginning nail work. Ensure the reusable dust bags are properly installed.

- **Storage Options:** Utilize the tall 5-tier shelf, magnetic cabinet, open racks, and dual-access drawer to organize your nail supplies, tools, and accessories efficiently.
- **Stool and Wrist Cushions:** Use the included matching cushioned stool for comfortable seating and the wrist cushions to provide support for clients during manicure procedures.

MAINTENANCE

- **Cleaning the Table:** Wipe down all surfaces of the table with a soft, damp cloth and a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the engineered wood finish. Dry thoroughly after cleaning.
- **Dust Extractor Maintenance:** Regularly check and empty or replace the reusable dust bags of the dust extractor to ensure optimal performance. Refer to the dust extractor's specific instructions for detailed maintenance.
- **Wheel Maintenance:** Periodically check the lockable wheels for smooth operation. Clean any debris that may accumulate around the wheels.
- **Hardware Check:** Periodically inspect all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your advwin Manicure Table, please refer to the following common solutions:

- **Table Instability:** Ensure all assembly screws are securely tightened. Verify that the table is placed on a flat, level surface. If using the wheels, ensure they are locked when the table is in its desired position.
- **Dust Extractor Not Working:** Check if the power cord is securely plugged into a functional electrical outlet. Ensure the dust bag is not completely full and is correctly installed.
- **Difficulty Rotating Table:** Ensure the lockable wheels are in the unlocked position before attempting to rotate the table. Check for any obstructions around the wheels or the rotating mechanism.

For issues not covered here or if problems persist, please contact advwin customer support for assistance.
