Frgnie Smartwatch Screen Protector User Manual

For Models TG08, TG09, TK29 (1.83-inch)

INTRODUCTION

This manual provides detailed instructions for the proper installation and care of your Frgnie Smartwatch Screen Protector. Designed to offer robust protection and maintain screen clarity, this TPU film ensures your smartwatch display remains pristine. Please read these instructions carefully before proceeding with installation.

PRODUCT COMPATIBILITY

This screen protector is specifically designed for the following smartwatch models:

- TRAUSI TG08 Smart Watch 1.83"
- iBesi TG09 Smart Watch 1.83"
- DIVOAZBVO TK29 Smartwatch 1.83"

Please verify your smartwatch model and screen size (1.83 inches) before installation to ensure proper fit.

Designed for :

TG08 / TG09 Smart Watch 1.83"

PACKAGE CONTENTS

Each package contains:

- 6 x Frnie TPU Screen Protectors
- 1 x Wet Wipe (for cleaning)
- 1 x Dry Wipe (for drying)
- 1 x Dust Absorber Sticker
- 1 x Squeegee / Scratch Card (for bubble removal)
- 1 x Installation Guide Card

INSTALLATION GUIDE

Follow these steps carefully for optimal screen protector application:

1. Preparation

1. **Clean the Screen:** Use the included wet wipe to thoroughly clean your smartwatch screen, removing any dust, oil, or smudges.
2. **Dry the Screen:** Use the dry wipe to remove any residual moisture, ensuring the screen is completely dry.
3. **Remove Dust:** Use the dust absorber sticker to gently dab the screen and lift any remaining tiny dust particles. Ensure the screen is spotless before proceeding.

2. Application

4. **Peel Label 1:** Carefully peel off the protective film labeled "1" from the screen protector. Avoid touching the adhesive side.
5. **Align and Apply:** Align the screen protector precisely with your smartwatch screen. Start from one edge and slowly lower it onto the screen. Ensure it is centered to avoid edge misalignment.
6. **Remove Bubbles:** Use the provided squeegee (scratch card) to gently push out any air bubbles from the center towards the edges. Apply even pressure.
7. **Peel Label 2:** Once the screen protector is affixed and bubbles are removed, carefully peel off the top protective film labeled "2".

PRODUCT FEATURES

Self-Healing Technology

The soft TPU material incorporates advanced self-healing properties. Minor scratches and small air bubbles that may remain after installation will automatically disappear within 24-48 hours due to the gel adsorption technology. This ensures a consistently smooth and clear display.

Full Coverage & High Transparency

The screen protector features precise cutting for full edge-to-edge coverage, protecting the entire display area without interfering with watch cases. Its HD transparent design ensures ultra-clear viewing, preserving the original brightness and color of your smartwatch screen.

HD TRANSPARENT

The protector provides clear viewing ultra

SOFT AND TOUGH

Made of soft and tough TPU with precise cutting

Image: A detailed shot highlighting the high-definition transparency of the screen protector, ensuring clear visual quality.

Soft and Tough Material

Crafted from soft yet tough Thermoplastic Polyurethane (TPU), this film provides durable protection against scratches, scuffs, and daily wear. It is resistant to warping or falling off, ensuring long-lasting adherence and protection.

CARE AND MAINTENANCE

To maintain the clarity and effectiveness of your screen protector:

- Clean the screen protector regularly with a soft, lint-free cloth.
- Avoid using harsh chemicals or abrasive materials, as these can damage the film.
- If the screen protector becomes heavily scratched or damaged, replace it with a new one from the pack.

TROUBLESHOOTING

Bubbles After Installation

If small bubbles remain after installation, do not attempt to forcefully remove them. Due to the self-healing properties of the TPU film, most small bubbles will naturally disappear within 24-48 hours. Larger bubbles can sometimes be gently pushed to the edge with the squeegee.

Misalignment

If the screen protector is significantly misaligned, it may be carefully lifted and re-applied immediately after initial placement, provided the adhesive side has not picked up dust. If dust is present, it is recommended to use a new screen protector.

PRODUCT SPECIFICATIONS

Brand	Frgnie
Model Number	US-TG08-6TPU
Compatible Devices	TG08, TG09, TK29 Smart Watches (1.83 Inches)
Material	Thermoplastic Polyurethane (TPU)
Item Hardness	4H
Special Features	HD Transparent, Self-Healing, Full Coverage
Color	Clear
Unit Count	6.0 Count
