3. SETUP

3.1 Connecting to Devices

The Luma Ultra XR Glasses are compatible with a wide range of devices via USB-C with DisplayPort Alternate Mode. Simply connect the provided USB-C to Magnetic Connector Cable to your device and the glasses.

- **Smartphones/Tablets:** Connect directly to compatible iPhone (15/16/17 series), Android phones, and iPads.
- **Computers:** Connect to Mac and PC devices for multi-screen productivity via the SpaceWalker app.
- **Gaming Consoles:** Connect to Switch & Switch 2, Steam Deck, ROG Ally, and other consoles using the VITURE Pro Mobile Dock (sold separately) or appropriate adapters.

3.2 Adjusting for Comfort and Vision

- **Nose Pads:** Three pairs of swappable nose pads are included to ensure a comfortable and secure fit. Choose the size that best suits your face.
- **Myopia Adjustment:** The Luma Ultra features built-in myopia adjustment up to -4.0 D. Use the rotary

knobs on top of the glasses to fine-tune the focus until the image is clear.

- **Flexible Arms:** The flexible arms allow for a gentle, adjustable fit to accommodate different head sizes.

3.3 Electrochromic Film

Activate the electrochromic film with a single tap to instantly darken the lenses for full immersion, reducing external light. An optional anti-reflective lens shade is also available for enhanced glare reduction.

4. OPERATING THE GLASSES

4.1 Display Features

- **Virtual Screen:** Experience a 152-inch virtual screen with 1200p resolution.
- **Brightness:** Enjoy industry-leading 1500 nits brightness for clear viewing in various lighting conditions.
- **Refresh Rate:** A silky-smooth 120Hz refresh rate ensures fluid visuals.
- **Field of View (FOV):** An immersive 52° FOV provides a wide and natural viewing experience.
- **Color Accuracy:** Hollywood-grade color accuracy ($\Delta E < 2$) delivers stunning visuals.

4.2 Spatial Computing and Hand Gestures

The triple-camera system (front RGB camera and dual depth cameras) enables advanced 6DoF tracking and spatial interaction. When paired with the VITURE Pro Neckband (sold separately), Luma Ultra supports

hand gesture recognition for precise spatial interactions. Comprehensive 6DoF support is available in SpaceWalker across macOS and Windows, with mobile compatibility coming soon.

4.3 Real-time 2D to 3D Conversion

Transform any 2D content, including streaming and gaming, into an immersive 3D experience with VITURE's Immersive 3D feature.

4.4 Multi-Screen Productivity

Utilize SpaceWalker to create a panoramic workspace with up to three virtual screens from your Mac or

PC. Arrange screens horizontally, vertically, or in code mode for enhanced productivity.

4.5 Audio Experience

Dive into a soundscape crafted by HARMAN's audio experts for deeper bass, crisper highs, and a fuller, more immersive audio experience. The built-in microphone allows for clear communication during multiplayer gaming or calls.

4.6 Dynamic Light Effects

Customize your glasses with programmable RGB lighting, syncing colors and animations to match your preferences. This feature will be available soon.

5. MAINTENANCE

To ensure the longevity and optimal performance of your VITURE Luma Ultra XR Glasses, follow these maintenance guidelines:

- **Cleaning:** Use the provided glasses cloth to gently clean the lenses and frame. Avoid abrasive materials or harsh chemicals.
- **Storage:** Store the glasses in the included protective case when not in use to prevent scratches and damage.
- **Environmental Conditions:** Avoid exposing the glasses to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Cable Care:** Handle the USB-C to Magnetic Connector Cable with care to prevent bending or damage to the connectors.

6. TROUBLESHOOTING

If you encounter any issues with your VITURE Luma Ultra XR Glasses, refer to the following common troubleshooting steps:

- **No Display/Black Screen:**
 - Ensure the glasses are securely connected to a compatible device via the USB-C cable.
 - Verify that your device supports DisplayPort Alternate Mode.
 - Check the brightness settings on the glasses using the L1 button.
- **Blurry Image:**
 - Adjust the myopia adjustment knobs on top of the glasses until the image is clear.
 - Ensure you are using the correct size nose pads for optimal eye relief.
- **No Sound:**
 - Check the volume settings on the glasses using the L1 button.
 - Ensure your connected device's audio output is directed to the glasses.
- **6DoF Tracking Issues:**
 - Ensure you are using the VITURE Pro Neckband for full 6DoF and hand gesture support.
 - Verify that the SpaceWalker app is updated and running correctly on your connected device.
 - Ensure the cameras on the glasses are not obstructed.
- **Software Compatibility:**
 - Some users have reported issues with antivirus software (e.g., McAfee) blocking SpaceWalker installation on Windows. Ensure your antivirus settings allow the application.

For further assistance, please refer to the official VITURE support channels.
