# **QCOQ Air Tracker Tags User Manual**

Model: B0FFT79NM6

## **1. INTRODUCTION**

---

The QCOQ Air Tracker Tag is an MFi-certified Bluetooth smart locator designed to help you keep track of your valuable items. Working exclusively with Apple's Find My network, these tags provide seamless and secure tracking for items such as luggage, keys, backpacks, and more. This manual provides essential information for setting up, operating, and maintaining your Air Tracker Tags.

## 4. SETUP

Follow these steps to set up your QCOQ Air Tracker Tag with your Apple device:

1. **Power On:** Hold the function button on the tracker for 2 seconds until you hear a "Di" sound, confirming activation.
2. **Open Find My App:** On your iOS, iPadOS, or macOS device, open the built-in "Find My" application. Ensure Bluetooth and network functions are enabled.
3. **Add New Item:** In the "Find My" app, navigate to the "Items" tab. Tap the "+" icon and select "Add Other Item" or "Add Supported Item."
4. **Connect:** Place the Air Tracker Tag close to your device. The app will search for and display "Diamond tag." Tap "Connect" and follow the on-screen prompts until setup is complete.
5. **Customize:** You can name your item and choose an emoji to represent it in the app for personalized tracking.

## 5. OPERATING INSTRUCTIONS

### 5.1 Nearby Tracking

When your item is within Bluetooth range, you can use the "Find My" app to play a sound on your Air Tracker Tag. The built-in speaker emits a sound up to 100dB, helping you quickly locate misplaced belongings nearby.

Image: Nearby tracking with sound alert.

## 5.2 Cross-Region Tracking

For items outside Bluetooth range, the Apple Find My network provides crowd-sourced location data from millions of Apple devices worldwide. This allows for continuous, anonymous, and encrypted tracking of your item's location, even across vast distances.

## 5.3 Forget Reminder (Notify When Left Behind)

Enable the "Notify When Left Behind" feature in the "Find My" app. If your item moves out of Bluetooth range from your device, you will receive a pop-up notification with its last known location. You can also customize a circular geofence radius to prevent alerts when the tag remains within designated safe areas.

# Lost Mode Activated

When activated, the finder can securely access your contact information via the Find My network, with all device data encrypted and accessible only to authorized users.

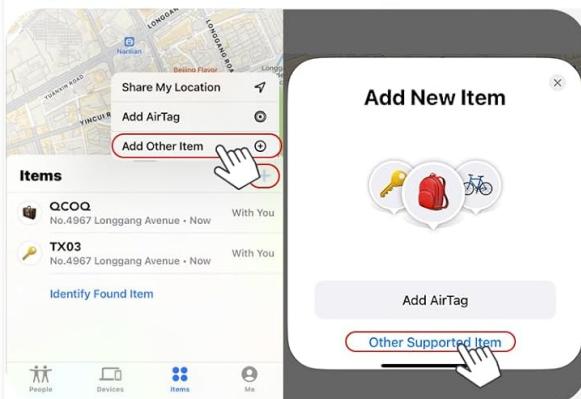

Image: Left-behind reminder notification.

## 5.4 Lost Mode

If an item is lost, activate "Lost Mode" in the "Find My" app. You can preset contact details (e.g., phone number or email address). Any compatible Apple device that detects your lost tag will display a "Lost Mode" message, allowing the finder to contact you directly. This feature ensures your privacy by only sharing contact information you explicitly provide.

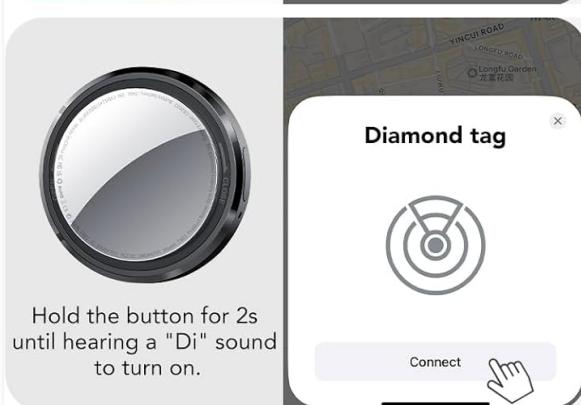

Open The "Find My" APP  
and Bluetooth

Press "Add New Item" and then  
"Other supported item"

*Note: This is not for "add AirTag"*

Close to iPhone. Search and  
Connect "Diamond tag"

Click "Continue" until "Finish"

Image: Lost Mode activation screen.

## Share Your Items

Share the location of items with family  
members to help find lost items.

**Note:** Please ensure your device is upgraded to iOS 17, iPadOS 17, or macOS 14 or later.

Image: Steps to activate Lost Mode.

# Indoor/Outdoor Tracking Range

## Bstacle Distance

30~50M (98-164 ft)

## Open Straight-line Distance

55~60M (180-196 ft)

Image: Steps to check contact information for a found item.

## 5.5 Item Sharing Feature

With iOS 17, iPadOS 17, macOS 14, or later, you can share your Air Tracker Tag with up to 5 other users via the "Find My" app. All shared users can track the item's location in real-time.

## 6. MAINTENANCE

### 6.1 Battery Replacement

The QCOQ Air Tracker Tag uses a replaceable CR2032 coin cell battery, which typically lasts up to 365 days. To replace the battery, follow these steps:

1. Turn the stainless steel battery cover counterclockwise to remove it.
2. Insert the new CR2032 battery with the positive (+) side facing up.
3. Align the battery cover and press it gently.
4. Rotate the battery cover clockwise to tighten it securely.

## Left-Behind Remind

When you leave it behind

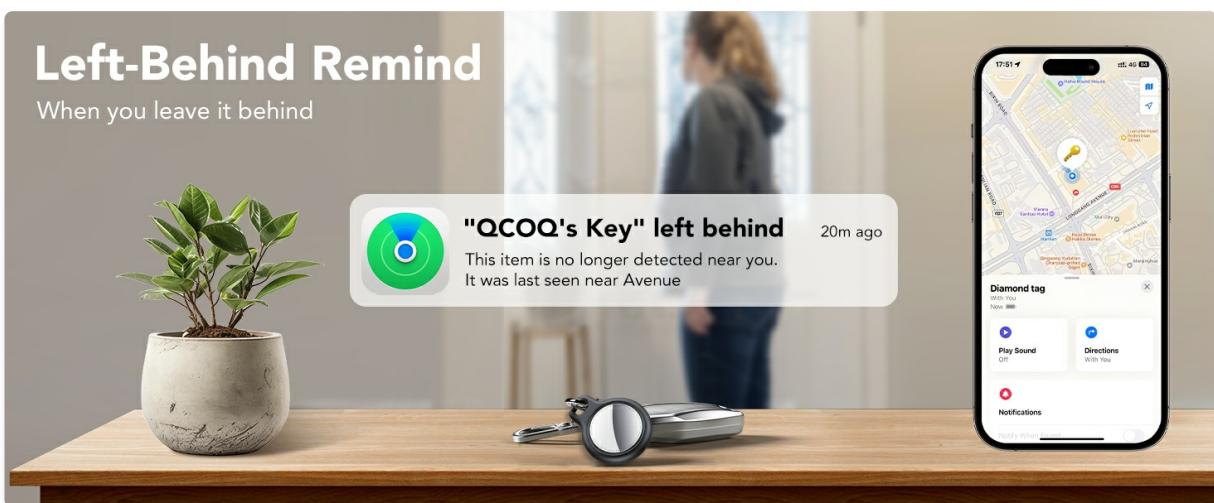

Image: Steps for battery replacement.

## 7. TROUBLESHOOTING

Refer to the table below for common issues and their solutions:

# How to Check Contact Info?

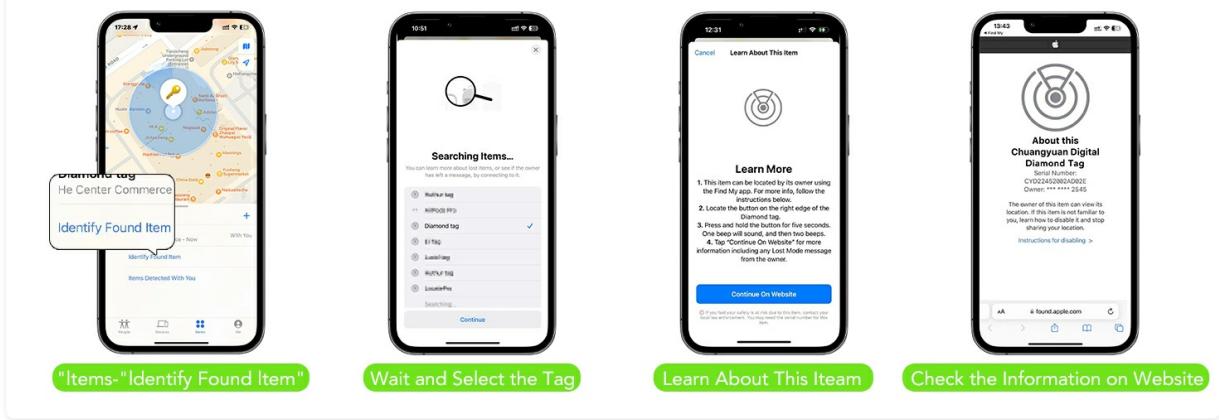

Image: Functionality and troubleshooting table.

- **Connection Issues:** Ensure your device's Bluetooth is on and the Air Tracker Tag is powered on. Try resetting the tag by holding the function button for 5 seconds until you hear a sustained "Di" tone.
- **No Sound:** Check if the tag is within Bluetooth range. Ensure the volume on your connected Apple device is not muted.
- **Inaccurate Location:** Location accuracy depends on the density of Apple devices in the Find My network. In areas with fewer Apple devices, location updates may be less frequent or precise.

## 8. WARRANTY & SUPPORT

QCOQ offers a **2-Year After-Sales Service**. To activate your warranty, please send your order number to our WhatsApp contact within 7 days of receiving the product. This service includes free replacement of damaged products.
