PETNF PF124

PETNF PF124 Smart Dog House Heater User Manual

Model: PF124 | Brand: PETNF

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your PETNF PF124 Smart Dog House Heater. Designed to provide warmth and comfort for your pets in various outdoor shelters, this heater features smart controls, energy-saving modes, and robust safety mechanisms. Please read this manual thoroughly before installation and use to ensure optimal performance and pet safety.

IMPORTANT SAFETY INSTRUCTIONS

Failure to follow these safety instructions may result in fire, electric shock, injury, or property damage. Keep this manual for future reference.

- Always ensure the heater is installed in a well-ventilated area, away from flammable materials.
- Do not cover the heater or block its air inlets/outlets.
- The heater is equipped with **overheat protection**; it will automatically shut down if it reaches unsafe temperatures.
- The power cord is a **6FT Anti-Chew Cord**, designed to resist damage from pets. Regularly inspect the cord for any signs of wear or damage.
- The unit features **V-0 Flame Retardant** materials for enhanced safety.
- The controller is **IPX5 Waterproof**, suitable for outdoor use, but avoid direct submersion.
- Ensure the heater is securely mounted to prevent tipping.

- Keep children and pets away from the heater during operation to prevent burns.
- Unplug the heater when not in use or before cleaning.

SETUP AND INSTALLATION

Follow these steps to properly install your PETNF PF124 Smart Dog House Heater. The package includes the heater, controller, hanging board, screws, and a safety bolt.

1. **Choose a Location:** Select a suitable location within the pet shelter, ensuring it is protected from direct weather exposure

and has access to a power outlet. The heater can be wall-mounted or floor-mounted.

2. **Install the Hanging Board:** Securely attach the provided hanging board to a sturdy surface inside the shelter using the included screws.
3. **Drill a Hole for the Controller (if needed):** If routing the controller outside the enclosure, drill a hole of at least 66mm diameter to accommodate the controller and its cable.
4. **Guide the Controller:** Pass the controller and its cable through the drilled hole (if applicable) or position it conveniently within the shelter.
5. **Mount the Heater:** Hang the main heater unit onto the installed hanging board. Ensure it is stable and securely attached.
6. **Connect to Power:** Plug the heater into a standard 120V power outlet.

OPERATING INSTRUCTIONS

Manual Control

The wired controller allows for direct adjustment of settings.

- **Power On/Off:** Press the power button on the controller.
- **Temperature Adjustment:** Use the '+' and '-' buttons to set the desired temperature between 45°F and 113°F.
- **Temperature Unit:** Press the 'C/F' button to switch between Celsius and Fahrenheit.
- **Timer Function:** Press the 'TIME' button to set a countdown timer for operation.
- **Child Lock:** To activate/deactivate the child lock, press and hold the lock icon button on the controller.

SmartLife App Control

Control your heater remotely using the SmartLife application on your smartphone.

1. **Download the App:** Scan the QR code on the heater or controller, or search for "SmartLife" in your app store. You can also visit <https://smartapp.tuya.com/smartlife>.
2. **Connect Heater to Wi-Fi:** Power on the heater. In the SmartLife app, select "Add Device" and follow the on-screen instructions to connect your heater to your 2.4GHz Wi-Fi network. Ensure your phone is connected to the same Wi-Fi network during the initial setup.
3. **Add Device:** The app will guide you through the process of discovering and adding your PETNF Dog House Heater.
4. **Remote Control:** Once connected, you can remotely power on/off, adjust temperature, set timers, and activate ECO mode from anywhere.

ECO Mode

Activate ECO mode via the SmartLife app to optimize energy consumption. The heater will intelligently adjust its heating cycles to maintain the set temperature while minimizing electricity usage.

Save Money with ECO Auto Function

Save on Energy Costs While Keeping Your Pet Cozy

MAINTENANCE

Regular maintenance ensures the longevity and efficient operation of your heater.

- **Cleaning:** Before cleaning, always unplug the heater from the power outlet. Use a soft, dry cloth to wipe down the exterior of the heater. Do not use abrasive cleaners or immerse the unit in water.

- **Inspection:** Periodically inspect the power cord for any signs of damage, fraying, or chew marks. Ensure the heater's air inlets and outlets are free from dust, debris, or obstructions.
- **Storage:** If storing the heater for an extended period, ensure it is clean and dry. Store it in a cool, dry place, protected from extreme temperatures and moisture.

TRUBLESHOOTING

If you encounter issues with your PETNF PF124 heater, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Heater does not turn on.	No power, power button not pressed, or overheat protection activated.	Check power connection. Press power button. Unplug, wait 10 minutes, then plug back in to reset overheat protection.
Heater not heating effectively.	Temperature setting too low, ECO mode active, or space too large.	Increase temperature setting. Disable ECO mode if maximum heat is desired. Ensure the heated space is within the recommended 150 cubic feet.
Wi-Fi connection issues.	Incorrect Wi-Fi password, router too far, or app not properly set up.	Verify Wi-Fi password. Move heater closer to router. Re-follow SmartLife app setup steps. Ensure 2.4GHz Wi-Fi network is used.
Unusual noises or odors.	Dust accumulation, foreign object, or internal malfunction.	Unplug immediately. Clean the heater. If problem persists, discontinue use and contact customer support.

SPECIFICATIONS

Brand	PETNF
Model Number	PF124
Color	Black
Product Dimensions	5"D x 9.1"W x 10.3"H
Item Weight	6.04 pounds
Voltage	120 Volts
