GDFStudio 84" Double Sink Bathroom Vanity User Manual

Model: B0FG2KH24Z

1. INTRODUCTION

Thank you for choosing the GDFStudio 84" Double Sink Bathroom Vanity. This manual provides essential information for the proper assembly, installation, operation, and maintenance of your new vanity. Please read these instructions carefully before beginning any procedures to ensure safe and correct usage. Keep this manual for future reference.

2. PRODUCT OVERVIEW

The GDFStudio 84" Double Sink Bathroom Vanity is designed to offer both modern aesthetics and practical functionality for your bathroom. It features a durable quartz countertop, two integrated ceramic basins, three full-extension drawers, and adjustable shelves, providing ample storage. The construction utilizes moisture-resistant MDF, complemented by soft-close hinges and corrosion-resistant silver handles.

Feature	Detail
Mounting Type	Floor Mount
Assembly Required	Yes
Included Components	Drawers, Adjustable Shelves
Special Feature	Storage, Soft-Close Hinges
Country/Region Of Origin	Malaysia

Note: Faucets are not included with the vanity.

4. SETUP AND INSTALLATION

Assembly of this vanity is required. It is recommended to have at least two people for assembly and installation due to the size and weight of the unit.

4.1 Unpacking and Inspection

1. Carefully unpack all components from the packaging.
2. Verify that all parts listed in the assembly instructions (provided separately with the product) are present and undamaged. Do not discard packaging materials until assembly is complete and satisfactory.
3. Report any missing or damaged parts to GDFStudio customer service immediately.

4.2 Assembly

Follow the step-by-step assembly instructions included in the product packaging. Ensure all fasteners are securely tightened, but do not overtighten to avoid damaging the wood panels.

4.3 Placement and Leveling

1. Choose a suitable location in your bathroom, ensuring adequate space for the vanity's dimensions and clearance for doors and drawers.
2. Position the vanity and use a level to ensure it is perfectly horizontal. Adjust any leveling feet if present, or use shims as necessary to prevent wobbling and ensure proper drainage.

4.4 Plumbing Connection

It is highly recommended to have a qualified plumber connect the water supply and drain lines to the vanity's sinks. Ensure all connections are watertight to prevent leaks. The vanity is designed with pre-drilled faucet holes for standard faucet installations.

5. OPERATING AND DAILY USE

The GDFStudio vanity is designed for daily bathroom use. Its dual sinks provide convenience for shared spaces. The soft-close hinges on the cabinet doors and full-extension drawers ensure quiet and smooth operation, enhancing your daily experience.

- **Storage:** Utilize the three drawers and adjustable shelves to organize toiletries, towels, and other bathroom essentials. Adjust shelf heights as needed to accommodate taller items.
- **Countertop Use:** The quartz countertop is resistant to stains, heat, and scratches, making it suitable for

everyday use. Avoid placing extremely hot items directly on the surface without protection.

6. MAINTENANCE

Proper care and maintenance will extend the life and preserve the appearance of your GDFStudio vanity.

6.1 Cleaning the Countertop and Sinks

- For daily cleaning, wipe the quartz countertop and ceramic basins with a soft cloth and mild, non-abrasive cleaner.
- Avoid using harsh chemicals, abrasive pads, or acidic cleaners (e.g., bleach, oven cleaner, drain cleaner) as they can damage the surface finish.
- Wipe up spills immediately to prevent staining, especially on the ceramic sinks.

6.2 Cleaning the Cabinet Body

- Wipe the MDF cabinet surfaces with a soft, damp cloth. Dry immediately with a clean, dry cloth to prevent moisture damage.
- Avoid excessive moisture or standing water on the cabinet surfaces.
- Do not use silicone-based polishes or waxes, as they can build up over time.

6.3 Hardware Care

- Clean the silver handles with a soft, dry cloth. Avoid using chemical cleaners that may tarnish the finish.
- Periodically check and tighten any loose screws on handles or hinges.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your vanity.

- **Wobbly Vanity:** Ensure the vanity is placed on a level surface. Adjust any leveling feet or use shims under the base to stabilize the unit.
- **Drawers/Doors Not Closing Smoothly:** Check for obstructions in the drawer slides or hinge mechanisms. Ensure the vanity is level, as an uneven surface can affect alignment. For soft-close hinges, ensure they are properly installed and not damaged.
- **Water Spots on Countertop:** While quartz is stain-resistant, hard water can leave spots. Clean regularly with a mild cleaner and dry thoroughly. For stubborn spots, consult a professional stone cleaner.
- **Minor Scratches on Cabinet:** For minor surface scratches on the MDF finish, a furniture touch-up pen matching the white color may be used.

If you experience issues not covered here or require further assistance, please contact GDFStudio customer service.

8. WARRANTY AND SUPPORT

GDFStudio stands behind the quality of its products. For specific warranty information regarding your 84" Double Sink Bathroom Vanity, please refer to the warranty card included with your purchase or visit the official GDFStudio website.
